Note regarding the European Alternative Investment Fund Managers Directive (European Directive 2011/61/EU)

This report, which has been prepared to comply with Article 22 of the European Alternative Investment Fund Managers Directive (European Directive 2011/61/EU), or the AIFMD, also includes certain information required under Article 23 of the AIFMD. Such information required under Article 23 of the AIFMD is included in the Article 23 portion of this report starting on page 37 of this report.

Performance Results

NBF is conducting asset management in accordance with its basic policy of “aim to achieve steady growth of its assets under management and to secure stable profits on a mid- to-long-term basis.”

In the fiscal period under review NBF intended to improve the underlying earnings capability of the portfolio in the mid-to-long-term through asset replacement and determined the disposition of NBF Hibiya Bldg. (trust beneficiary interests; disposition price: ¥64.0 billion), GSK Bldg. (trust beneficiary interests; disposition price: ¥17.0 billion) and NBF Shin-Urayasu Tower (trust beneficiary interests; disposition price: ¥11.7 billion), the acquisition of Roppongi T-CUBE (trust beneficiary interests; acquisition price: ¥62.8 billion) and the additional acquisition of Celestine Shiba Mitsui Bldg. (real property, acquisition price: ¥19.5 billion) on December 18, 2017. Of these, NBF Shin-Urayasu Tower was delivered on December 20, 2017 and GSK Bldg. was delivered on December 26, 2017. NBF Hibiya Bldg., Roppongi T-CUBE and Celestine Shiba Mitsui Bldg. were delivered on March 30, 2018.

NBF has endeavored to expand stable revenues from its rental business with respect to its existing portfolio by reinforcing measures for maintaining occupancy rates and increasing rents upon renewal of contracts through appropriate and flexible leasing activities with a good understanding of market trends and strengthened relationship with tenants. In addition, NBF has also put forth efforts to reduce costs by properly allocating timing and cost for renovation/construction while making strategic and rightly-focused additional investments.

Overview of Performance and Distribution

NBF's performance results during the current period consisted of operating revenues of ¥42,125 million (an increase of ¥5,716 million, or 15.7%, compared to the previous period), operating income from leasing activities of ¥16,466 million (an increase of ¥23 million, or 0.1%, compared to the previous period), operating income after asset management, custody and agent fees etc. of ¥16,552 million (an increase of ¥1,438 million, or 9.5% compared to the previous period), ordinary income of ¥14,682 million (an increase of ¥1,572 million, or 12.0%, compared to the previous period), and net income of ¥14,682 million (an increase of ¥1,572 million, or 12.0%, compared to the previous period). Moreover, part of the gain on sale of GSK Bldg. will be internally retained as reserve for reduction entry.

In accordance with the distribution policy prescribed in its Articles of Incorporation, NBF decided to distribute ¥13,230 million, the entire amount arrived by subtracting the provision of reserve for reduction entry (¥1,452 million) from undistributed earnings, so that it will be enabled to deduct the maximum amount of cash distribution of profit from its taxable income through the application of preferential tax measures to investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation). As a result, the distribution per unit was ¥9,370 (an increase of ¥241, or 2.6% compared to the previous period).

Notes: 1. U.S. dollar amounts are translated from yen, for convenience only, at the rate of ¥112.69 = U.S. \$1.00, the approximate

exchange rate on December 31, 2017.

2. Operating revenues do not include consumption tax.

3. All valuations are calculated through the following formulas. The figures in parentheses after ROA and ROE are annualized based on the six-month figures for the period.

Funds from operations: Net income (excluding Gains and Losses on sales of investment properties) + Depreciation and amortization

Net operating income from property leasing activities: (Revenue from property leasing – Rental expenses) + Depreciation and amortization

Funds from operations per unit: (Net income (excluding Gains and Losses on Sales of Investment Properties) + Depreciation and amortization) / Weighted average number of units issued and outstanding during the period

ROA: Ordinary income / (Initial total assets + Total assets at end of period) ÷ 2

ROE: Net income / (Initial net assets + Net assets at end of period) ÷ 2

LTV: Interest-bearing debt / Total assets

4. Payout ratio figures are calculated to one decimal place only.

5. Number of investment properties means units generally perceived to be one office building. Number of tenants means gross number of tenants by building. Occupancy rate, end-tenant basis, is the weighted average of month-end occupancy rate on a floor space basis.

Management's Discussion and Analysis

1. Distribution for the Current Period

Distribution per unit for the current period was ¥9,370. NBF expects to distribute almost all retained earnings at the current period end remaining after deducting the amount appropriated to the reserve for advanced depreciation of replacing specified assets as stipulated in Article 65-7 of the Act on Special Measures Concerning Taxation to be eligible for special tax treatment (Article 67-15 of the Act on Special Measures Concerning Taxation) that allows NBF to deduct its cash dividends of profits from taxable income.

2. Changes in Assets, Liabilities and Net Assets

Assets

As of December 31, 2017, total assets decreased by ¥10,040 million to ¥1,013,861 million compared with June 30, 2017. Return on average total assets (ROA) for the six months ended December 31, 2017 increased to 1.4 percent from 1.3 percent for the previous six-month period.

Current assets increased by ¥20,803 million to ¥33,319 million compared with June 30, 2017. Investment properties decreased by ¥31,177 million to ¥973,483 million compared with June 30, 2017.

Liabilities

Current liabilities decreased by ¥21,087 million to ¥61,120 million compared with June 30, 2017, primarily because of a decrease in short-term loans and long-term debt due within one year compared with June 30, 2017.

Long-term debt increased by ¥10,625 million to ¥365,125 million compared with June 30, 2017.

As a result, total interest-bearing liabilities decreased by ¥11,375 million to ¥413,875 million compared with June 30, 2017. The ratio of long-term debt (for which the redemption period at the time of contract or issuance is more than one year) to total interest-bearing liabilities increased to 100 percent as of December 31, 2017 from 97.2 percent as of June 30, 2017.

The loan-to-value ratio, calculated as the ratio of interest-bearing liabilities to total assets, decreased to 40.8 percent as of December 31, 2017 from 41.5 percent as of June 30, 2017.

Net assets

Net assets increased by ¥1,792 million to ¥538,795 million compared with June 30, 2017.

3. Funding

Balance of Paid-in Capital

NBF was established on March 16, 2001 with initial paid-in capital of ¥100 million. NBF began investing activities in May 2001 after ¥98,800 million was raised through private placements. As of December 31, 2017, NBF had issued 1,412,000 units out of 4,000,000 total authorized units. NBF's units were listed on the J-REIT section of the Tokyo Stock Exchange in September 2001 upon the completion of a public offering. As the Investment Trust Law of Japan does not contain any provision for the issue of more than one class of units, NBF's units comprise the sole class of units authorized and issued by NBF.

Notes To Financial Statements

For the six months ended December 31, 2017, June 30, 2017 and December 31, 2016

Note 1 – Organization and Basis of Presentation

Organization

Nippon Building Fund Inc. (hereinafter "NBF") was formed on March 16, 2001 as an investment corporation under the Law Concerning Investment Trusts and Investment Corporations of Japan (hereinafter the Investment Trust Law of Japan) with Mitsui Fudosan Co., Ltd., Sumitomo Mitsui Trust Bank, Limited., and Nippon Building Fund Management Ltd. (hereinafter "NBFM") acting as sponsors. Registration with the Kanto Local Finance Bureau of the Ministry of Finance was completed on May 10, 2001 and NBF started acquisition of office properties on May 23, 2001.

NBF is an externally managed real estate fund, formed as an investment corporation. NBFM, as NBF's asset management company, is engaged in acquiring, managing, leasing, and renovating office properties. Mitsui Fudosan Co., Ltd. currently owns 46% of NBFM while Sumitomo Life Insurance Company owns 35% and the remaining 19% is mainly owned by financial institutions.

On September 10, 2001, NBF had raised approximately ¥50,000 million through an initial public offering of units. Those units are listed on the J-REIT section of the Tokyo Stock Exchange.

As of December 31, 2017, NBF had ownership or beneficiary interests in 72 office properties containing approximately 1,051,588 square meters of rentable office space. As of December 31, 2017, NBF had leased office space to 1,554 tenants engaged in a variety of businesses. The occupancy rate for the office properties was approximately 98.9%.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Law of Japan and the Japanese Financial Instruments and Exchange Law and their related accounting regulations, and in conformity with accounting principles generally accepted in Japan (hereinafter "Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements have been restructured and translated into English from the financial statements of NBF prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Law. Some supplementary information included in the statutory Japanese language financial statements, but not required for fair presentation, is not presented in the accompanying financial statements. NBF does not prepare consolidated financial statements, as NBF has no subsidiaries.

Note 2 – Summary of Significant Accounting Policies

Cash and Cash Equivalents

NBF considers all highly liquid investments with original maturity of three months or less to be cash and cash equivalents.

Investment Properties

Investment properties are recorded at cost, which includes the allocated purchase price, related costs and expenses for acquisition of the office properties and the beneficiary interests of properties in trust. Property and equipment balances are depreciated using the straight-line method over the estimated useful lives. The estimated useful lives of the principal tangible fixed assets (including assets held in trust) are as follows:

Buildings and improvements including trust accounts	
Buildings and improvements	2-50 years
Other tangible assets	
Structures	2-50 years
Machinery and equipment	2-17 years
Tools, furniture and fixtures	2-19 years

Costs related to the renovation, construction and improvement of properties are capitalized. Expenditures for repairs and maintenance which do not add to the value or prolong the useful life of a property, are expensed when incurred.

Investment Corporation Bond Issuance Costs

Deferred investment corporation bond issuance costs are amortized using the straight-line method over the respective terms of the bonds.

Income Taxes

Income taxes are accounted for on the basis of income for financial statement purposes. The tax effect of temporary differences between the amounts of assets and liabilities for financial statements and for income tax purposes is recognized as deferred taxes.

Real Estate Taxes

Real estate taxes are imposed on properties on a calendar year basis and expensed when incurred. In terms of newly purchased properties, NBF capitalizes a portion of the real estate taxes that relate to a period from the purchase date of each property until the end of the calendar year as part of the acquisition cost of the relevant property. Capitalized real estate taxes amounted to ¥41 million for the period ended June 30, 2017 and ¥18 million for the period ended December 31, 2016. No capitalized real estate taxes were incurred for the period ended December 31, 2017.

Revenue Recognition

NBF operates office properties that are rented to tenants on lease terms of generally two years, with monthly payments due in advance. Rental and other property income is recorded when due from tenants and is recognized monthly as it is earned. Common area charges provided for in tenant leases are recognized as income when earned and their amounts can be reasonably estimated.

Accounting Treatment of Beneficiary Interests in Trust Assets including Real Estate

For trust beneficiary interests in real estate, all accounts of assets and liabilities within assets in trust as well as all income generated and expenses incurred from assets in trust are recorded in the relevant balance sheet and income statement accounts.

Reclassification

Certain prior period amounts have been reclassified to conform to the current period's presentation.

Note 3 – Financial Instruments

Status of Financial Instruments

Policy for Financial Instruments

NBF procures funds for acquisition of assets and repayment of debt, which includes repayment of tenant security deposits, loans and investment corporation bonds, through issuance of new investment units, bank loans and issuance of investment corporation bonds, with the aim of ensuring steady asset growth and stable earnings from a mid- and long-term angle.

As a general rule NBF invests surplus funds in deposits considering safety of the investments.

NBF may enter into derivative transactions solely for the purpose of reducing interest rate risks and other risks arising from liabilities. NBF does not engage in speculative transactions. Currently NBF is not engaged in any derivative transactions.

Financial Instruments, Their Risks and Risk Management System

Deposits are used for investment of NBF's surplus funds. These deposits are exposed to credit risks such as bankruptcy of the depository financial institutions. NBF limits credit risk by using only short-term deposits in financial institutions with high credit ratings.

Proceeds from loans and investment corporation bonds are used mainly to acquire real estate properties and repay outstanding loans and bonds. While these loans and bonds are exposed to liquidity risk, such risk is managed in the following ways such as diversifying the means of funding and lending institutions, dispersing repayment dates, establishing committed credit line, keeping sufficient liquidity in hand, and monitoring cash flows projected monthly.

Floating rate loans are exposed to interest-rate fluctuation. NBF limits the impact of such risks by maintaining the ratio of interest-bearing liabilities to total assets low and the level of long-term fixed-rate debt high.

Tenant security deposits are exposed to liquidity risk arising from vacating of properties by tenants due to the termination of contract. NBF manages this risk by monitoring forecasted cash flows on a monthly basis to ensure it has sufficient funds.

Supplemental Explanation regarding Fair Values of Financial Instruments

The fair value of financial instruments is based on their observable market value, if available. When there is no observable market value available, fair value is based on a price that is reasonably estimated. Since various factors are reflected in estimating the fair value, different assumptions and factors could result in a different value.

Estimated Fair Value of Financial Instruments

Book value, fair value and difference between the two as of December 31, 2017 are as follows.

The financial instruments for which it is very difficult to estimate the fair value are excluded from the following table (See Note 2. below).

(Yen in millions)			
	Book value	Fair value	Difference
Assets			
(1) Cash and cash equivalents	¥ 32,109	¥ 32,109	¥ —
Total	¥ 32,109	¥ 32,109	¥ —

(2) Long-term debt	365,125	369,874	4,749
Total	¥413,875	¥418,999	¥5,124

Notes:

1. Methods to Estimate Fair Value of Financial Instruments

Assets:

(1) Cash and cash equivalents

Book values of those instruments are used to determine their fair values, as the book values are considered to approximate fair values because these instruments are settled within a short term period.

Liabilities:

(1) Long-term debt due within one year

Long-term debt due within one year which includes Investment corporation bonds and Long-term loans are as follows.

(Yen in millions)

	Book value	Fair value	Difference
(1) Investment corporation bonds	¥10,000	¥10,083	¥ 83
(2) Long-term loans	38,750	39,042	292
Total	¥48,750	¥49,125	¥375

(1) Investment corporation bonds

Fair values of investment corporation bonds are based on observable market value, if available. When there is no observable market value available, fair values are calculated based on the present value of principal and interest cash flows discounted at the current interest rate that is estimated by taking into consideration the remaining term of the investment corporation bonds and their credit risk.

(2) Long-term loans

Fair values of floating rate long-term loans are based on the book values because the market interest rates are reflected within a short term period and the book values are considered to approximate fair values. Fair values of fixed rate long-term loans are based on the present value of principal and interest cash flows discounted at the current interest rate estimated to be applied if similar new loans were entered into.

(2) Long-term debt

Long-term debt which includes Investment corporation bonds and Long-term loans are as follows.

(Yen in millions)

	Book value	Fair value	Difference
(1) Investment corporation bonds	¥20,000	¥19,971	¥ (29)
(2) Long-term loans	345,125	349,903	4,778

2. Financial Instruments for which it is Very Difficult to Estimate the Fair Value.

(Yen in millions)

	As of December 31, 2017	As of June 30, 2017
Tenant security deposits including trust accounts	¥48,738	¥50,123

Security deposits from tenants are not subject to fair value disclosure because they are not marketable, and actual deposit period is not estimable as leases may be cancelled, renewed or re-signed even if a lease term is set in the lease contract, that makes a reasonable estimate of future cash flows difficult.

Note 13 – Investment and Rental Property

NBF owns office buildings (including land) for rent in Tokyo and other areas. The carrying amounts, net changes in the carrying amounts and the fair value of the investment and rental properties are as follows.

(Yen in millions)

	For the six months ended December 31, 2017	For the six months ended June 30, 2017
Carrying amount		
Balance at beginning of the Fiscal Period	¥ 1,004,687	¥ 1,010,223
Amount of increase (decrease) during current period	(31,179)	(5,536)
Balance at end of the Fiscal Period	973,508	1,004,687
Fair value at end of the period	¥ 1,187,580	¥ 1,194,070

Notes:

1. Carrying amounts represent acquisition cost less accumulated depreciation.
2. The major decrease in the fiscal period ended December 31, 2017 was mainly due to sales of GSK Bldg. and NBF Shin-Urayasu Tower which amounted to ¥ 26,944 million and recognition of depreciation costs.
The major increase in the fiscal period ended June 30, 2017 was mainly due to the acquisitions of a property (Kowa Nishi-Shinbashi Bldg. B (additional acquisition), ¥39 million) and the major decrease was mainly due to sale of Aqua Dojima East which amounted to ¥ 1,683 million and recognition of depreciation costs.
3. Fair value at end of the period is based on appraisals provided by independent real estate appraisers.

Information about profit and loss from investment and rental properties is disclosed in Note 7 (Rental Revenues and Expenses) and Note 8 (Gains and Losses on Sales of Investment Properties).

Note 14 – Segment Information

Independent Auditor's Report

To the Board of Directors of
Nippon Building Fund Inc.:

We have audited the accompanying financial statements of Nippon Building Fund Inc.(a Japanese Real Estate Investment Trust), which comprise the balance sheets as at December 31, 2017 and June 30, 2017, and the statements of income, statements of changes in net assets and statements of cash flows for each of the six months ended December 31, 2017, June 30, 2017 and December 31, 2016, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Nippon Building Fund Inc. as at December 31, 2017 and June 30, 2017, and their financial performance and cash flows for each of the six months ended December 31, 2017, June 30, 2017 and December 31, 2016 in accordance with accounting principles generally accepted in Japan.

DISCLAIMER

This document has been prepared solely for the purpose of providing U.K. and Dutch investors with certain information under Article 23 of the European Alternative Investment Fund Managers Directive (European Directive 2011/61/EU) as implemented in their respective jurisdictions, and does not constitute an offer to sell or a solicitation of any offer to buy the units of Nippon Building Fund Inc. (“NBF” or the “AIF”). Accordingly, you should not use this document for any other purpose.

Prohibition of Sales to EEA Retail Investors

The units of NBF are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area, or the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended, or the MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC, as amended, or the Insurance Mediation Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC, as amended, the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014, or the PRIIPs Regulation, for offering or selling the units of NBF or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the units of NBF, or otherwise making them available, to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

United Kingdom

The units of NBF are being marketed in the United Kingdom pursuant to Article 59 of the United Kingdom Alternative Investment Fund Managers Regulations 2013. In accordance with this provision, Nippon Building Fund Management Ltd. (the “AIFM”) has notified the Financial Conduct Authority (the “FCA”) of its intention to offer these units in the United Kingdom. For the purposes of the United Kingdom Financial Services and Markets Act 2000 (“FSMA”) NBF is an unregulated collective investment scheme which has not been authorized by the FCA. Accordingly, any communications of an investor or inducement to invest in NBF may be made to: (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended, or the Order; or (ii) high net worth companies and other persons to whom it may lawfully be communicated, falling within Articles 49(2)(a) to (d) of the Order (all such persons together being referred to as “Relevant Persons”). In the United Kingdom, this document and its contents are directed only at Relevant Persons and must not be acted on or relied on by

persons who are not Relevant Persons. Any person who is not a Relevant Person may not act or rely on this document or any of its contents.

European Economic Area Investors

The Directive 2011/61/EU (the “Alternative Investment Fund Managers Directive”, or the “AIFMD”), was adopted on June 8, 2011 and was required to be implemented by each Member State of the EEA into its national legislation by July 22, 2013. The units of NBF may not be marketed (within the meaning given to the term “marketing” under the AIFMD), and the Communication may not be conducted, to prospective investors domiciled or with a registered office in any Member State of the EEA unless: (i) the units of NBF may be marketed under any national private placement regime (including under the AIFMD) or other exemption in that Member State; or (ii) the units of NBF can otherwise be lawfully marketed or sold in that Member State in circumstances in which the AIFMD does not apply, provided that any such offer or sale is not made to a retail investor as described above. We have made a notification to each of the Netherlands Authority for the Financial Markets and the United Kingdom Financial Conduct Authority pursuant to Article 42 of the AIFMD in order to market the units of NBF in the Netherlands and the United Kingdom, respectively.

Netherlands

The units of NBF are being marketed in the Netherlands under Section 1:13b of the Dutch Financial Supervision Act (Wet op het financieel toezicht, or the “Wft”). In accordance with this provision, the AIFM has notified the Dutch Authority for the Financial Markets of its intention to offer these units in the Netherlands. The units of NBF will not, directly or indirectly, be offered, sold, transferred or delivered in the Netherlands, except to or by individuals or entities that are qualified investors (gekwalficeerde beleggers) within the meaning of Article 1:1 of the Wft, and as a consequence neither the AIFM nor NBF is subject to the license requirement pursuant to the Wft. Consequently, neither the AIFM nor NBF is subject to supervision of the Dutch Central Bank (De Nederlandsche Bank, “DNB”) or the Netherlands Authority for Financial Markets (Autoriteit Financiële Markten, the “AFM”) and this Article 23 AIFMD prospectus is not subject to approval by the AFM. No approved prospectus is required to be published in the Netherlands pursuant to Article 3 of the European Directive 2003/71/EC (the EU Prospectus Directive) as amended and implemented in Netherlands law. The AIFM is solely subject to limited ongoing regulatory requirements as referred to in Article 42 of the AIFMD.

Article 23 (1)(a)	
Objectives of the AIF.	<p>Nippon Building Fund Inc. (“NBF” or the “AIF”) invests in office buildings in the Tokyo Central Business Districts (“CBDs”, which comprises the 23 wards of Tokyo), Other Greater Tokyo Areas (neighboring cities within Tokyo other than the 23 wards, such as Musashino and Tachikawa cities, as well as cities within the neighboring prefectures of Kanagawa, Chiba, Saitama, Ibaraki, Gunma and Tochigi prefectures, including the cities of Yokohama, Kawasaki, Chiba, Kashiwa and Saitama) and Other Cities (principal regional cities, including Sapporo, Sendai, Niigata, Shizuoka, Hamamatsu, Nagoya, Kyoto, Osaka, Kobe, Okayama, Hiroshima, Takamatsu, Fukuoka and Kumamoto).</p> <p>The basic policy of NBF is to operate assets with the objective of assuring steady growth and stable profits for the mid to long term.</p>
Investment strategy.	<p>The investment strategy of NBF aims to assure steady growth of and stable profits from NBF’s portfolio for the mid to long term by considering the proportion of Japan’s office stock by region. Specifically, the strategy divides the investment area into three areas consisting of Tokyo CBDs, Other Greater Tokyo Areas and Other Cities in such manner that 70% or more of total investment assets is allocated to Tokyo CBDs and Other Greater Tokyo Areas and 30% or less to Other Cities. The purpose of this area diversification is to minimize cash flow risks such as those due to earthquakes and risk of vacancies. In general, NBF fully exploits its unique characteristics when conducting investment activities. It is one of the largest listed J-REITs on the Tokyo Stock Exchange in terms of total assets, and is able to take advantage of Mitsui Fudosan Group’s powerful information network, as well as the industry knowledge and familiarity that it has cultivated itself. NBF investment strategy focuses on expanding its asset portfolio by making aggressive acquisitions and flexible dispositions mainly of highly competitive office buildings, primarily in Tokyo CBDs while conducting appropriate risk management.</p>
Types of assets the AIF may invest in.	<p>Real estate, trust beneficiary interests in real estate, real estate securities, specified assets and other assets.</p>
Techniques it may employ and all associated risks.	<p>NBF achieves its objective by investing in real estate consisting of buildings primarily used for offices with their underlying land located in the Tokyo CBDs, Other Greater Tokyo Areas and Other Cities. NBF also invests in securities, beneficiary certificates representing beneficial interests in trusts and other assets backed by office properties.</p> <p>The principal risks with respect to investment in NBF are as follows:</p> <ul style="list-style-type: none"> (1) General Risks <ul style="list-style-type: none"> (a) Risks concerning NBF’s ability to make cash distributions (b) Risks concerning resale or redemption of investment units or investment corporation bonds

(f) Risks of failure to satisfy pass-through requirements due to borrowings from companies or individuals other than institutional investors (g) Risks of failure to satisfy pass-through requirements due to the composition of investors (h) Risks concerning revisions of the general taxation system (i) Risks that tax burdens will increase due to discrepancies between accounting treatment and tax treatment
Any applicable investment restrictions.	<p>NBF is subject to investment restrictions under Japanese laws and regulations (e.g., the Act on Investment Trusts and Investment Corporations (the “ITA”), the Financial Instruments and Exchange Act (the “FIEA”)) as well as its articles of incorporation.</p> <p>NBF must invest primarily in specified assets as defined in the ITA. Specified assets include, but are not limited to, securities, real estate, leaseholds of real estate, surface rights (<i>chijō-ken</i>) (i.e., right to use land for the purpose of having a structure on it) or trust beneficiary interests for securities or real estate, leaseholds of real estate or surface rights. A listed J-REIT must invest substantially all of its assets in real estate, real estate-related assets and liquid assets as provided by the listing requirements. Real estate in this context includes, but is not limited to, real estate, leaseholds of real estate, surface rights, and trust beneficiary interests for these assets, and real estate-related assets in this context include, but are not limited to, anonymous association (<i>tokumei kumiai</i>) interests for investment in real estate. Pursuant to the ITA, investment corporations may not independently develop land for housing or to construct buildings, but must outsource such activities.</p>
Circumstances in which the AIF may use leverage.	<p>NBF may take out loans or issue long-term or short-term investment corporation bonds for the purpose of investing in properties, conducting repairs and related work, paying cash distributions, operating capital, repaying obligations (including repayment of tenant leasehold or security deposits, and obligations related to loans or long-term or short-term investment corporation bonds) and other activities.</p>
The types and sources of leverage permitted and associated risks.	<p>Loans or investment corporation bonds. Currently, all of NBF’s outstanding long- and short-term loans as well as outstanding investment corporation bonds are unsecured and unguaranteed.</p>

	<p>Loans or investment corporation bonds in which NBF enters or NBF issues may be subject to restrictive covenants in connection with any future indebtedness that may restrict operations and limit its ability to make cash distributions to unitholders, to dispose of properties or to acquire additional properties. Furthermore, if NBF were to violate such restrictive covenants, such as with regard to debt service coverage or loan-to-value ratios, lenders may be entitled to require NBF to collateralize portfolio properties or demand that the entire outstanding balance be paid.</p> <p>In the event of an increase in interest rates, to the extent that NBF has any debt with unhedged floating rates of interest or NBF incurs new debt, interest payments may increase, which in turn could reduce the amount of cash available for distributions to unitholders. Higher interest rates may also limit the capacity for short- and long-term borrowings, which would in turn limit NBF's ability to acquire properties, and could cause the market price of the units to decline.</p>
Any restrictions on leverage.	The maximum amount of each loan and investment corporation bond issuance will be 1 trillion yen, and the aggregate amount of all such debt will not exceed 1 trillion yen.
Any restrictions on collateral and asset reuse arrangements.	No applicable arrangements.
Maximum level of leverage which the AIFM is entitled to employ on behalf of the AIF.	NBF has set an upper limit of 56% as a general rule for its loan-to-value, or LTV, ratio, which is the ratio of (x) the aggregate principal amount of borrowings and investment corporation bonds to (y) the total assets of NBF's portfolio, in order to operate with a stable financial condition. NBF may, however, temporarily exceed such levels as a result of property acquisitions or other events.
Article 23(1) (b)	
Procedure by which the AIF may change its investment strategy / investment policy.	Amendment of the articles of incorporation. Amendment requires a quorum of a majority of the total issued units and at least a two-thirds vote of the voting rights represented at the meeting. Unitholders should note, however, that under the ITA and our articles of incorporation, unitholders who do not attend and exercise their voting rights at a general meeting of unitholders are deemed to be in agreement with proposals submitted at the meeting, except in cases where contrary proposals are also being submitted. Additionally, the guidelines of the AIFM, which provide more detailed policies within NBF's overall investment strategy and policy, can be modified without such formal amendment of the articles of incorporation.

Article 23(1) (c)	
<p>Description of the main legal implications of the contractual relationship entered into for the purpose of investment, including jurisdiction, applicable law, and the existence or not of any legal instruments providing for the recognition and enforcement of judgments in the territory where the AIF is established.</p>	<p>NBF has entered into the following agreements with Mitsui Fudosan Co., Ltd.:</p> <ul style="list-style-type: none"> • Master lease agreement under which NBF leases properties to Mitsui Fudosan Co., Ltd. under a master lease agreement, and Mitsui Fudosan Co., Ltd. subleases such properties to subtenants; • Direct lease agreements with Mitsui Fudosan Co., Ltd. as tenant; • Purchase and sale agreements regarding certain NBF assets originally held by Mitsui Fudosan Co., Ltd., and management contracts with regard to such assets; and • Agreements for the development of certain properties. <p>NBF has entered into the following agreements with Sumitomo Mitsui Trust Bank, Limited:</p> <ul style="list-style-type: none"> • A custody agreement regarding NBF's assets; • A transfer agent agreement regarding the units; • Loan agreements over certain of our short- and long-term loans; • Agreements establishing Sumitomo Mitsui Trust Bank, Limited as the trustee for certain trust beneficiary rights held by NBF; and • Various agreements related to our investment corporation bond offerings. <p>NBF has entered into the following agreements with Sumitomo Life Insurance Company:</p> <ul style="list-style-type: none"> • Loan agreements over certain of our long-term loans; • Lease agreements for certain properties with Sumitomo Life Insurance Company as tenant; and • Purchase and sale agreements regarding certain NBF assets originally held by Sumitomo Life Insurance Company. <p>All of the above agreements are governed by Japanese law.</p> <p>NBF is not involved in or threatened by any legal arbitration, administrative or other proceedings, the results of which might, individually or in the aggregate, be material.</p> <p>NBF is a corporate-type investment trust in the form of investment corporation (toshi hojin) provided for under the ITA. Therefore, the relationship between NBF and its unitholders is governed by NBF's articles of incorporation (as opposed to individual agreements), which can be amended from time to time upon resolution of a general unitholders' meeting. NBF's articles of incorporation stipulate rules relating to general unitholders meetings, including the convocation, setting of record date, exercise of voting rights, resolutions and election of NBF's directors.</p> <p>The relationship between NBF and its unitholders is also governed by, and is subject to the provisions of, Japanese law, including the ITA.</p>

	<p>The courts in Japan would recognize as a valid judgment any final and conclusive civil judgment for monetary claims (which, for this purpose, are limited to those of a purely civil nature and do not include monetary claims of the nature of criminal or administrative sanction, such as punitive damages, even though they take the form of civil claims) against NBF obtained in a foreign court provided that (i) the jurisdiction of such foreign court is admitted under the laws of Japan, (ii) NBF has received service of process for the commencement of the relevant proceedings, otherwise than by a public notice or any method comparable thereto, or has appeared without any reservation before such foreign court, (iii) neither such judgment nor the relevant proceeding is repugnant to public policy as applied in Japan, (iv) there exists reciprocity as to the recognition by such foreign court of a final judgment obtained in a Japanese court and (v) there is no conflicting judgement on the subject matter by any Japanese court.</p>
Article 23(1) (d)	
<p>The identity of the AIFM, AIF's depositary, auditor and any other service providers and a description of their duties and the investors' rights thereto.</p>	<ul style="list-style-type: none"> • AIFM (Asset Manager): Nippon Building Fund Management Ltd. • Auditor: KPMG AZSA LLC • Custodian and Transfer Agent: Sumitomo Mitsui Trust Bank, Ltd. <p>Service providers owe contractual obligations under their respective agreements with the AIF or AIFM, as the case may be. In addition, the FIEA provides that an asset manager owes a J-REIT a fiduciary duty and must conduct its activities as the asset manager in good faith. The FIEA also prohibits an asset manager from engaging in certain specified conduct, including entering into transactions outside the ordinary course of business or with related parties of the asset manager that are contrary to or violate the J-REIT's interests. Pursuant to the ITA, the unitholders have the right to approve the execution or termination of the asset management agreement at a general meeting of unitholders.</p>
Article 23(1) (e)	
<p>Description of how the AIFM complies with the requirements to cover professional liability risks (own funds / professional indemnity insurance).</p>	<p>Not applicable.</p>

Article 23(1) (f)	
<p>Description of any delegated management function such as portfolio management or risk management and of any safekeeping function delegated by the depositary, the identification of the delegate and any conflicts of interest that may arise from such delegations.</p>	<p>Not applicable. There is no delegation of such functions beyond the AIFM, which is responsible for portfolio and risk management, and the Custodian, which is responsible for safekeeping activities.</p>
Article 23(1) (g)	
<p>Description of the AIF's valuation procedure and pricing methodology, including the methods used in valuing hard-to-value assets.</p>	<p>NBF makes investment decisions based on its investment strategies and in accordance with its articles of incorporation and based on the results of due diligence, including the valuation of properties and consideration of the property appraisal value. The methods and standards that NBF uses for the evaluation of assets are based on the Regulations Concerning the Calculations of Investment Corporations, as well as the Regulations Concerning Real Estate Investment Trusts and Real Estate Investment Corporations and other regulations stipulated by ITA, in addition to Japanese GAAP. J-REITs may only use the valuation methods prescribed in the rules of the Investment Trusts Association, Japan, which emphasize market price valuation.</p> <p>Regarding hard to value assets, such assets comprise tenant security deposits including trust accounts. Security deposits from tenants are not subject to fair value disclosure because they are not marketable, and actual deposit period is not estimable as leases may be cancelled, renewed or re-signed even if a lease term is set in the lease contract. This makes a reasonable estimate of future cash flows difficult. Valuation of such hard to value assets is included in the notes to our financial statements.</p>

	<p>If asset valuation methods other than those mentioned in the paragraphs above are to be used in order to determine values for asset management reports, etc., valuation shall be conducted in the following manner.</p> <p>(1) Real estate, real estate leasehold rights and surface rights In principle, valuation shall be based on the appraisal by a real estate appraiser.</p> <p>(2) Trust beneficiary interests and equity interests in anonymous associations and voluntary associations</p> <p>Valuation shall be made by calculating the value of the equity interests in anonymous associations or voluntary associations in relation to real estate, real estate leasehold rights or surface rights, or the value of the trust beneficiary interests obtained by subtracting the amount of liabilities from the aggregate value of assets after (i) determining valuation as described in (1) above with respect to trust assets or the assets of anonymous associations composed of real estate, real estate leasehold rights or surface rights and (ii) determining valuation in accordance with general accepted accounting principles in Japan with respect to trust assets or the assets of anonymous associations or voluntary associations composed of financial assets.</p>
Article 23(1) (h)	
<p>Description of the AIF's liquidity risk management, including redemption rights in normal and exceptional circumstances and existing redemption arrangements with investors.</p>	<p>NBF seeks to manage the capital resources and liquidity sources to provide adequate funds for current and future financial obligations and other cash needs and acquisitions. NBF has entered into credit lines in the amount of 60 billion yen as of December 31, 2017, and has entered into loans and has issued investment corporation bonds in the past. While loans and investment corporation bonds are exposed to liquidity risk, such risk is managed in ways such as by diversifying the means of funding and lending institutions, dispersing repayment dates, establishing committed credit lines, and keeping sufficient liquidity in hand.</p> <p>NBF is a closed-end investment corporation, and unitholders are not entitled to request the redemption of their investment.</p>
