## Operating Environment and Results

During the six months ended June 30, 2017 (the “32nd Period”), the Japanese economy continued on a moderate recovery trend backed by factors such as a mild increasing trend in capital investment as well as robust personal consumption against the backdrop of steady improvement in the employment and income situations, while corporate earnings improved in light of recovery in export and production.

As to the office building rental market of Tokyo’s CBDs, the vacancy rate continued on a downward trend as a result of steady progress in filling vacancies through office consolidation, expansion of floor space within a building and such at existing buildings while new supply was limited. In response to such solid demand, asking rent continued on an upward trend, though slightly.

In the office building trading market, the appetite of overseas investors, domestic real estate companies and J-REITs to acquire properties continues to be strong against the backdrop of a favorable financing environment backed by the continuation of monetary easing measures. With decreasing amounts of information on prime properties for sale, the competition for acquiring properties continues to intensify, resulting in decreased expected yield and trading prices remaining high.

Under these circumstances, NBF is conducting asset management in accordance with its basic policy of “aim to achieve steady growth of its assets under management and to secure stable profits on a mid- to long-term basis.”

During the 32nd period, NBF disposed Aqua Dojima East

(beneficiary interests in trust assets, disposition price of ¥1,910 million), of which NBF owned co-ownership interest, in March 2017. Furthermore, NBF additionally acquired co-ownership interest of Kowa Nishi-Shinbashi Bldg. B (beneficiary interests in trust assets, acquisition price of ¥38 million), which NBF had already owned, in April 2017.

NBF has endeavored to expand stable revenues from its rental business with respect to its existing portfolio by reinforcing measures for maintaining occupancy rates and increasing rents upon renewal of contracts through appropriate and flexible leasing activities with a good understanding of market trends and strengthened relationship with tenants. In addition, NBF has also put forth efforts to reduce costs by properly allocating timing and cost for renovation while making strategic and rightly-focused additional investments.

As a result of above-explained operations, as of June 30, 2017, NBF owned 74 properties with a total acquisition price of ¥1,106.6 billion and a total rentable area of 1,094,812 m<sup>2</sup>. The average occupancy rate of the entire portfolio during the 32nd Period was 98.7%, a 0.5 percentage point increase from the previous period, and the total number of tenants was 1,590.

million, or 1.6%, compared to the previous period), operating income from leasing activities of ¥16,443 million (an increase of ¥336 million, or 2.1%, compared to the previous period), operating income after asset management, custody and agent fees etc. of ¥15,114 million (an increase of ¥509 million, or 3.5% compared to the previous period), ordinary income of ¥13,111 million (an increase of ¥589 million, or 4.7%, compared to the previous period), and net income of ¥13,110 million (an increase of ¥589 million, or 4.7%, compared to the previous period). Moreover, gain on disposition of Aqua Dojima East will be internally retained as reserve for reduction entry in the entire amount.

In accordance with the distribution policy prescribed in its Articles of Incorporation, NBF decided to distribute the entire amount arrived by subtracting the provision of reserve for reduction entry (¥220 million) from undistributed earnings, excluding fractions of the distribution per unit that are less than ¥1 from undistributed earnings, so that it will be enabled to deduct the maximum amount of cash distribution of profit from its taxable income through the application of preferential tax measures to investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation). As a result, the distribution per unit was ¥9,129.

## Overview of Performance and Distribution

As the result of above-explained operations, NBF's performance results during the reported period consisted of operating revenues of ¥36,410 million (an increase of ¥560

## Environmental Evaluation

### NBF Received a “Green Star” Rating (the most Superior Evaluation) in the Global Real Estate Sustainability Benchmark (GRESB) Survey

In the 2017 Assessment, the following initiatives of NBF were highly evaluated in both dimensions of “Management and Policy” and “Implementation and Measurement” as sustainability efforts, and NBF received a “Green Star” rating, the most superior rating, for the third consecutive year. NBF also received a “4 Star,” based on its overall GRESB Score ranking.

#### GRESB Overview

The Global Real Estate Sustainability Benchmark (GRESB) survey is an indicator that evaluates the sustainability initiatives of real estate companies and REITs rather than particular real assets.

Nippon Building Fund Inc. is an investment corporation established with the objective of investing in assets, primarily Designated Assets as defined by the Investment Trust Law of Japan. NBF entrusts the management of its assets to Nippon Building Fund Management Ltd., which is an asset management company.

NBF's primary investment objective is to achieve steady growth of its assets under management and to secure stable profits on a mid- to long-term basis. NBF achieves this objective by investing in real estate consisting of buildings primarily used for offices with their underlying land located in the central business districts (CBDs) of Tokyo, other Greater Tokyo and other cities in Japan. NBF also invests in securities, beneficiary certificates representing beneficial interests in trusts and other assets backed by office properties.

### General Meeting of Unitholders

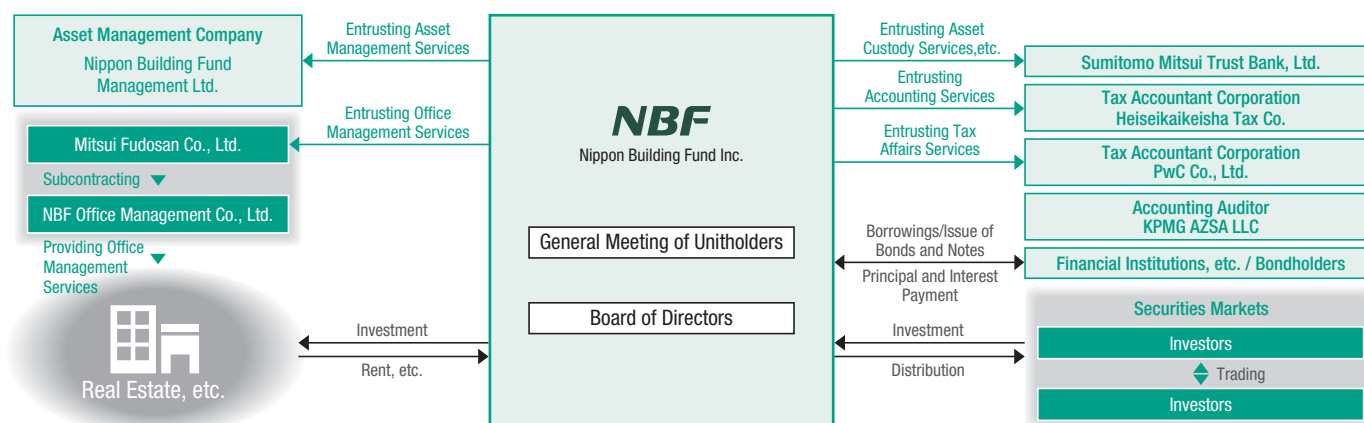

Specific matters pertaining to NBF that are subject to the Investment Trust Law of Japan or the Company's Articles of Incorporation are decided by resolution of the General Meeting of Unitholders, which convenes at least once every two years, in principle. The tenth General Meeting of Unitholders convened on March 15, 2017. The date of the next General Meeting of Unitholders has not been set.

The General Meeting of Unitholders adopts or vetoes resolutions on the basis of a simple majority of the voting rights of unitholders in attendance, unless otherwise stipulated by laws, regulations or NBF's Articles of Incorporation. Decisions on substantive matters such as changes in the Articles of Incorporation require the attendance of unitholders that control a simple majority of total units issued and outstanding, and a two-thirds majority of the voting rights of such unitholders. In addition, any change in the asset management policies and standards, which are stipulated by NBF's Articles of Incorporation, requires an extraordinary resolution of unitholders as outlined above.

### Executive Directors, Supervisory Directors and the Board of Directors

NBF's Articles of Incorporation stipulate that NBF must have one or more executive directors and four or fewer supervisory directors, but the number of supervisory directors must always be at least one greater than the number of executive directors. As of September 30, 2017, NBF had one executive director and three supervisory directors.

NBF's executive director is responsible for business execution and has authority for all judicial and extrajudicial proceedings related to the operations of NBF. Supervisory directors are responsible for supervising execution by the executive director.

## Management Team

From left: Masahiko Yamazaki, Yoshiaki Kageyama, Hakaru Goto, Yutaka Kawakami

	Name	Career Summary
Executive Director	Yoshiaki Kageyama	Appointed Executive Director of NBF in March 2015 after serving as a standing auditor of Mitsui Fudosan Realty Co., Ltd. Reappointed in March 2017.
	Hakaru Goto	Appointed Supervisory Director of NBF in March 2015 and reappointed in March 2017. Real Estate Appraiser.
Supervisory Directors	Masahiko Yamazaki	Appointed Supervisory Director of NBF in March 2017. Attorney.
	Yutaka Kawakami	Appointed Supervisory Director of NBF in March 2017. Certified Public Accountant.

The Board of Directors consists of the executive and supervisory directors. Its responsibilities include authorizing business execution and supervising the performance of the executive director. Resolutions by the Board of Directors require a simple majority with more than half of the members of the Board in attendance.

The bylaws of NBF's Board of Directors stipulate that executive and supervisory directors may not participate in decisions in which they have a vested interest. Executive and supervisory directors with such financial interest shall not be included in the number of executive and supervisory directors in attendance for such decisions.

The terms of office of the executive director and supervisory directors are two years from the time they assume office. The terms of executive directors and supervisory directors selected to fill a vacancy or to increase the number of directors expire at the same time as the remaining terms of their predecessors or the current directors.

An executive director was reelected with the consent of unitholders at the General Meeting of Unitholders held on March 15, 2017. One of the three supervisory directors was reelected and two new supervisory directors were elected at the same time, and assumed office on March 17, 2017.

## Compliance Initiatives

The management of NBF and Nippon Building Fund Management Ltd. conduct honest and appropriate business activities while maintaining rigorous compliance by adhering to all relevant laws and regulations, based on a high level of corporate ethics.

The bylaws of NBF's Board of Directors stipulate that Board of Directors' meetings are to be held at least once every three months. In practice, NBF holds such meetings once a month. At Board meetings, the executive director reports on the execution of his duties and supervisory directors ensure that oversight and check-and-balance systems are functioning properly.

Nippon Building Fund Management Ltd. views compliance as a management strategy, with a fundamental compliance policy of conducting operations honestly and fairly while maintaining a rigorous compliance system based on a high level of corporate ethics. Specifically, Nippon Building Fund Management Ltd. has established a Compliance Committee, consisting of the Compliance Officer, the president, the head of the Investment & Finance Group, the head of the Corporate Operation Group and an outside committee member. Initiatives to enhance awareness of and adherence to compliance include the establishment of Compliance Rules and a Compliance Manual. In addition, a Compliance Program is formulated each year to verify the progress of the execution plan for that year and identify any problem areas.

## Risk Management System

NBF and Nippon Building Fund Management Ltd. have established the following risk management system to avoid and minimize risks related to investments.

### NBF

NBF's Risk Management Regulations define risk management policies and procedures. The Risk Management Meeting convenes once every three months and undertakes deliberation, monitoring and other initiatives to ensure that the entrusted asset managers are conducting their duties with due care in good faith in a manner consistent with its fiduciary duty to the conservation and maintenance of entrusted assets.

### Nippon Building Fund Management Ltd.

Nippon Building Fund Management Ltd. formulates a Management Policy, a Medium-to-Long-Term Asset Management Policy and an Annual Management Plan to follow in managing NBF's assets. In addition, Nippon Building Fund Management Ltd. has set Asset Management Guidelines as a set of standards to follow.

## Policy and Management System for Dealing with Conflict of Interest Transactions

### Fundamental Policy on Conflict of Interest Transactions

Nippon Building Fund Management Ltd. is constantly aware of its accountability to NBF and NBF's unitholders with regard to any transactions in which the interests of NBF and the interests of Nippon Building Fund Management Ltd. and its related corporations or customers may conflict. Nippon Building Fund Management Ltd. follows voluntary rules stipulated in laws and internal bylaws to proactively prevent conflicts of interest.

All decisions made in executing the management of NBF's assets are subject to the approval of the president, and are made after going through discussions by the Investment Review Meeting and Executive Board of Nippon Building Fund Management Ltd. Sponsor companies are not permitted to intervene in the decision-making process.

### Voluntary Rules for Conflict of Interest Transactions Stipulated in Internal Bylaws

Nippon Building Fund Management Ltd. has set voluntary rules in its internal bylaws to address transactions with parties, including sponsor companies that have interests in Nippon Building Fund Management Ltd.

The voluntary rules require the Investment Division, which initiates the transaction, as well as the Compliance Department, the Investment Review Meeting and other units to protect NBF's managed assets and profits by fully examining the transaction contents according to the voluntary rules set in the internal bylaws in the event of a transaction in which the interests of Nippon Building Fund Management Ltd. and parties that have interests in Nippon Building Fund Management Ltd. may conflict with the interests of NBF. These rules are designed from the standpoint of accountability to NBF and its unitholders.

In examining the transaction contents, Nippon Building Fund Management Ltd. solicits the opinions of attorneys, certified tax accountants and other third-party experts as needed. In addition, when purchasing real estate or other assets from parties that have interests in Nippon Building Fund Management Ltd., the purchase price is strictly set, in principle no higher than the appraised value according to a real estate appraiser with no vested interest.

## Sustainability Initiatives Policy for Initiatives

Nippon Building Fund Management Ltd. ("NBFM"), to which Nippon Building Fund Inc. ("NBF") entrusts asset management services, established a "Policy for Environmental Considerations" in March 2015.

## Basic Policy

NBFM, in recognition of the importance of environmental considerations, etc. for carrying out real property investment and management activities, strives to achieve asset management activities giving consideration to reduction of environmental load, enhancement of safety, security and comfort, as well as diversified affiliations and collaborations with various entities, in line with the “Group Environmental Policy” established by the Mitsui Fudosan Group.

## Initiatives for Environmental Considerations

### (1) Reduction of environmental load

#### • Promoting energy saving and reduction of CO<sub>2</sub> emissions

By promoting efficient use of energy in real property investment and management activities and pursuing introduction of energy-saving facilities, etc., NBFM endeavors to reduce CO<sub>2</sub> emissions through energy saving.

#### • Preserving the water environment and promoting resource saving and waste reduction

NBFM aims to preserve the water environment by initiatives for saving water and introduction of water-saving devices. NBFM also makes an effort to promote the 3Rs (reduce, reuse and recycle) for resource saving and waste reduction.

### (2) Enhancement of safety, security and comfort

#### • Enhancement of safety and security

NBFM promotes improvement of response times during emergencies and strengthens preparedness during normal times, and strives to implement disaster prevention and BCP measures in office buildings, the major assets for which it manages investments.

#### • Enhancement of comfort

NBFM aims to improve customer satisfaction (CS) of tenants of office buildings, the major assets for NBFM's management of investment, by enhancing the level of comfort.

## Diversified Affiliations and Collaborations with Various Entities

### (1) Coordination with outside related parties

To implement this Policy, NBFM strives to collaborate and cooperate with outside related parties such as property management companies, tenants and local communities, etc.

### (2) Training of officers and employees

NBFM aims to improve awareness of environmental considerations by training its officers and employees through continuous implementation of education and encouragement of activities relating thereto.

## Information Disclosure to Related Parties such as Investors, and Utilization of Environmental Certification and Evaluation

NBFM endeavors to actively disclose this Policy and its compliance herewith, etc. to related parties such as investors and tenants. In addition, NBFM will consider the use of environmental certification and evaluation to achieve goals based on this Policy.

## Asset Management Fee Structure Operation

Nippon Building Fund Management Ltd. undertakes asset management of NBF pursuant to an Asset Management Entrustment Agreement based on an entrustment from NBF in accordance with the Articles of Incorporation of NBF and the Investment Objects and Policies set forth therein. In addition, Nippon Building Fund Management Ltd. undertakes management of the general affairs of the general meeting of unitholders and the Board of Directors as Administrative Agent regarding the Management of Institutions based on an entrustment from NBF and pursuant to an Agreement for General Administration Regarding the Management of Institutions.

## Fees for the Asset Management Operation

### Management Fees 1

The amount equivalent to 2.5% effective from July 1, 2003 of the amount of the revenue arising from Real Estate, etc. as calculated on each closing date (provided, however, that revenues from the sale of Real Estate, etc. and other Managed Assets will be excluded) will be payable.

### Management Fees 2

The amount equivalent to 3% of income before income tax (provided, however, that in the event a loss is carried forward, then the amount of income before income taxes remaining after such loss has been covered) prior to deduction of Management Fees 2 as calculated on each closing date will be payable.

### Management Fees 3

In the event that Real Estate, etc. is newly acquired (in the event of merger, succession of status by merger), compensation equivalent to the total amount of the acquisition price of said Real Estate, etc. (meaning the acquisition price of both land and buildings, in the event of the simultaneous acquisition of multiple units of Real Estate, etc., the acquisition price of each item, and in the event of merger, the appraised value of Real Estate, etc. succeeded by NBF at the time of the merger, provided, however, that national consumption tax, regional consumption tax and miscellaneous costs of acquisition are excluded) multiplied by the following percentage rates will, in principle, be payable, provided, however, that with the approval of the directors of NBF, compensation may be calculated using different rates not exceeding the following rates.

• The portion up to and including ¥10,000 million.....	0.5%
• The portion exceeding ¥10,000 million up to and including ¥30,000 million.....	0.2%
• The portion exceeding ¥30,000 million up to and including ¥50,000 million.....	0.05%
• The portion exceeding ¥50,000 million .....	nothing

## Investment Policies of NBF

### A. Basic Policies

NBF's primary investment objective is to achieve steady growth of its assets under management and to secure stable profits on a mid- to long-term basis. NBF achieves this objective by investing in real estate consisting of buildings primarily used for offices with their underlying land located in the Tokyo central business districts (hereinafter "CBDs"), Other Greater Tokyo and Other Cities in Japan as well as securities, beneficiary certificates representing beneficial interests in trusts (hereinafter "beneficiary certificates") and other assets backed by office properties (collectively hereinafter "Real Estate, etc.") ("Investment Objectives and Policies," Articles of Incorporation). (Reference to laws, legal documents, etc. used as the basis or sources hereof are set forth in parenthesis herein.)

### B. Investment Strategy

Nippon Building Fund Management Ltd. ("NBFM"), based on the investment strategy of NBF set forth below, invests and manages the assets of NBF. NBFM has established asset management guidelines based on the Articles of Incorporation of NBF and in accordance with the investment strategy of NBF.

#### (1) Strategy for Creation of the Portfolio

The goal of the portfolio is to generate steady growth and stable profits on a medium-to-long-term basis. The selection criteria of investment assets is based on the composition of investment assets in the portfolio and on consideration of a quantitative proportion of the office stock located in the various regions of Japan.

#### Area Diversification

The investment strategy of NBF divides the investment area into three areas consisting of Tokyo CBDs, Other Greater Tokyo and Other Cities in such manner that 70% or greater of total investment assets (Real Estate, etc.) are allocated to Tokyo CBDs and Other Greater Tokyo and 30% or less to Other Cities. The purpose of this area diversification is to mitigate cash flow risks such as earthquakes, risk of vacancies and so forth ("Investment Objectives and Policies," Articles of Incorporation).

Area	Specific Area	Area Analysis	Incorporation Ratio
Tokyo CBDs	23 wards of Tokyo	<ul style="list-style-type: none"> <li>Relatively high rent levels and low vacancy rates compared to Other Cities; also, relatively large market scale (both leasing and purchase/disposition) with high growth rates.</li> <li>Relatively low NOI yields.</li> <li>Relatively high liquidity at the time of disposition.</li> </ul>	70% or greater
	of which, central 5 wards (Chiyoda-ku, Chuo-ku, Minato-ku, Shinjuku-ku, Shibuya-ku)		
Other Greater Tokyo	Tokyo Metropolis (excluding 23 wards of Tokyo) and 6 prefectures (Kanagawa, Chiba, Saitama, Ibaraki, Gunma and Tochigi)	<ul style="list-style-type: none"> <li>Basic characteristics are between those of Tokyo CBDs and Other Cities.</li> </ul>	30% or less
Other Cities	Major cities in prefectures excluding the above prefectures	<ul style="list-style-type: none"> <li>Relatively low rent levels and high vacancy rates compared to Tokyo CBDs. also, relatively small market scale (both leasing and purchase/disposition) with low growth rates.</li> <li>Relatively high NOI yields.</li> <li>Relatively low liquidity at the time of disposition.</li> </ul>	

Note: Due to unforeseeable events such as, extreme fluctuations in market trends, financial trends, real estate market trends and so forth, it may not always be possible to operate in accordance with each of the above criteria.

### (2) Acquisition Strategy

#### a) Ratio of Real Estate Assets

NBF will maintain a ratio of 75% or more with respect to the "Designated Real Estate Ratio" ("Investment Objectives and Policies," Articles of Incorporation). As of June 30, 2017, NBF satisfied the criteria.

The "Designated Real Estate Ratio" means the ratio of the total amount of Designated Real Estate to the total amount of Designated Assets owned by NBF.

Note: Designated Real Estate includes real estate, real estate leasehold rights, superficies and beneficiary certificates backed by real estate, land leasehold rights and superficies (as designated under Article 83.4.3.1 of the Special Taxation Measures Law of Japan).

#### b) Due Diligence

When investing in office properties, selections will be made through comprehensive research and analysis based on the forecast investment yields resulting from the acquisition costs and their anticipated profits, future prospects and stability of the area of location, availability of measures responding to risks of deterioration and obsolescence, insurability and so forth of the relevant office properties (or Beneficiary Certificates backed by such office properties) ("Investment Objectives and

Policies,” Articles of Incorporation). The details of the relevant criteria are set forth in the following table.

Though such consideration will involve the study of the criteria included in the following table, it is possible that when NBF acquires or intends to acquire operating assets, not all of the following criteria will be satisfied.

Item	Points to be reviewed
Scale of building	Exclusive floor area (overall exclusive floor area in the concerned property) and exclusive floor area on a standard floor (exclusive floor area per floor). <ul style="list-style-type: none"> <li>■ Desired total exclusive floor area is 1,650m<sup>2</sup> (approximately 500 tsubo) or more.</li> <li>■ Exclusive floor area on a standard floor is 330m<sup>2</sup> (approximately 100 tsubo) or more.</li> </ul>
Construction type and specifications of facilities	Building design and floor plan suitable for leasing, with divisibility, adequate ceiling height, electrical service, HVAC equipment, etc.
Earthquake resistance	Comply with new earthquake standards (meaning standards based on the Building Standards Act revised in 1981) or secure performance equivalent to or above that level (obtaining structure rating/structure evaluation (rating/evaluation on building structure conducted by The Building Center of Japan based on the Building Standards Act), etc.)
Measures regarding status of legal title	In cases such as co-ownership, condominium interest ownership, a building erected on leased land, etc. where NBF will not obtain complete ownership of a building, the following matters are appropriately treated. <ul style="list-style-type: none"> <li>■ Measures to protect security deposits, measures to complement its ability to bear renovation costs.</li> <li>■ Appropriate measures regarding demands for division of co-ownership interests or the disposition of a co-owner's interest, etc.</li> </ul>
Tenancy characteristics	Acceptable creditworthiness of tenants, purposes of use by tenants, configuration, and condition of collectibility of rents etc.
Environmental; condition of land, etc.	No use of harmful substances such as asbestos or existence of measures to respond to such. Soil contamination conditions comply with environmental standards, etc.

### c) Uncompleted or Unleasable Properties

In principle, NBF acquires Real Estate, etc. which are leased/leasable assets at the time of closing. NBF may acquire a property which is not yet leasable at the time of closing based on consideration of the impact on NBF's asset management activities after taking into account the investment amount, the date of completion or of becoming leasable, estimated revenue and so forth, provided, however, that the contract amount of any such unleasable asset combined with the total contract amount of previously acquired unleasable assets (but excluding unleasable assets which thereafter become operational) will not exceed

10% of the total assets indicated on the most recent balance sheet of NBF. For this purpose, “leased/leasable assets” shall mean property with respect to which the construction of the building has been completed and such building is leased or leasable. Properties which are owned by NBF and have become operational at some point shall be deemed “leasable” thereafter (including such cases as reconstruction or large-scale renovation of a building) (“Investment Objectives and Policies,” Articles of Incorporation).

## (3) Management and Disposition Policies

Regarding acquired Real Estate, etc., the goal is to obtain steady growth of operating profits on a medium-to-long-term basis by planning to maintain and improve asset value and competitive ability through investment in facilities and by expanding income (increasing rents, etc., increasing occupancy rates, extending the term of leases and rendering them more stable, etc.) and reducing property-related expenses.

NBF will, in principle, for the purpose of assuring stable income on a medium-to-long-term basis, lease out all Real Estate, etc. included in operating assets (including installation of parking lots, billboards, etc.). When conducting such leasing, security deposits, etc. and other similar monies may be received and said monies will be managed in accordance with the requirements of the Articles of Incorporation (“Investment Objectives and Policies,” Articles of Incorporation).

NBF is entitled to establish reserves for long-term renovations required to maintain and enhance the value of operating properties, reserves for payables, reserves for cash distributions and any other similar reserves, etc. (Article 14.1 (2) of the Articles of Incorporation).

### a) Reserves for Long-Term Renovations

From the reserves set forth above, a portion corresponding to renovations, repairs and tenant improvements will be determined based on renovation plans for each building.

### b) Measures to Avoid Reductions and Fluctuations in Operating Income

In order to avoid large-scale reductions and fluctuations in operating income due to fire damage, withdrawal of tenants and so forth, efforts, such as area diversification and obtaining adequate fire and casualty insurance, etc., will be exerted.

### c) Disposition

In disposing of individual operating properties, selections will be made through comprehensive research and analysis based on the forecasted income, actual and predicted fluctuations in asset value, future prospects and stability of the area of location, risks of deterioration and obsolescence of real estate and predicted costs thereof as well as the composition of the portfolio, etc. Sell/hold studies will be periodically undertaken with respect to all operating properties ("Investment Objectives and Policies," Articles of Incorporation).

## (4) Financial Policies

Concerning fund procurement, methods are comprehensively judged by taking into consideration status of cash on hand, market environment concerning respective fund procurement method, impact on distribution per unit, profitability enhancement effect through leveraging, level of leverage after fund procurement and other factors in order to enhance profitability of NBF.

Furthermore, the ratio of outstanding interest-bearing debts (total amount of outstanding borrowings and outstanding issues of NBF bonds) to the total amount of assets of NBF (loan-to-value ratio) shall be mainly used as an index for appropriately controlling the leverage level, and thus leverage is controlled conservatively by taking asset management stability into consideration.

### a) Equity Financing

NBF issues new units after taking into consideration the amount and period of funds required for its operation such as undertaking acquisition and renovation and so forth of assets, as well as for the repayment of debts (including repayments of security deposits, borrowings and redemption of NBF bonds), trends of the J-REIT market, NBF unit price and capital market, along with impact on distribution per unit and other factors.

### b) Debt Financing

NBF borrows funds (including use of the call market) and issues bonds (including short-term investment corporation bonds, the same applies hereunder) in order to undertake acquisition and renovation and so forth of assets, payment of distributions and to provide funds required for its operation as well as for the repayment of debts (including repayments of security deposits, borrowings and redemption of NBF bonds) ("Investment Objectives and Policies," Articles of Incorporation).

Furthermore, NBF raises capital mainly through long-term liabilities with fixed interest rates and pays attention on dispersing repayment dates in order to prepare for turmoil in the financial market and to contribute to asset management stability. Borrowings are limited to those from Qualified Institutional Investors (Act on Special Measures Concerning Taxation Article 67-15, hereinafter referred to as "Special Provisions for Taxation on Investment Corporation") as specified in the Financial Instruments and Exchange Law of Japan, in case capital is borrowed. Further, the limit on all such borrowings and issuance of NBF bonds shall be ¥1,000,000 million, respectively and the sum total shall not exceed ¥1,000,000 million. When undertaking borrowings or when issuing NBF bonds, NBF may provide operating assets as collateral (Article 15 of the Articles of Incorporation).

### c) Loan-to-Value Ratio

The loan-to-value ratio is envisioned to be limited to 56%, but may temporarily exceed 56% when acquiring certain assets, etc. (stipulations established by the Asset Management Company).

### d) Derivative Transactions

NBF may invest rights in derivative transactions solely to hedge against risks, including risks of fluctuation in interest rates for debt, as set out in Article 2.20 of the Financial Instruments and Exchange Law of Japan ("Investment Objectives and Policies," Articles of Incorporation).

## (5) Disclosure Policy

NBF's policy on disclosure is to earn recognition from society by showing itself to be an open and transparent investment company. It also works at all times to engender an environment in which it can disseminate fair and unbiased information to all its investors without delay. In addition to conducting disclosure in the style required by the Investment Trust and Investment Corporation Law of Japan, the Financial Instruments and Exchange Law of Japan, the Tokyo Stock Exchange, the Investment Trusts Association and other laws and organizations, NBF also voluntarily discloses information it deems necessary for investor decision-making.

### a) Appraisal Value, etc.

In the event that NBF undertakes asset valuation for the purpose of disclosure in Performance Information Reports, etc. using methods and

standards different from those it has set forth, (a) the disclosure value to be used for real estate, real estate leasehold rights and superficieses will, in principle, be the appraised valuation provided by a certified real estate appraiser, and (b) the disclosure value to be used for beneficiary certificates, equity interests of *tokumei kumiai* and equity interests of partnerships for which respective assets are real estate, real estate leasehold rights or superficieses will be the calculated value of equity interests of each based on the value of their respective assets as determined in (a) plus the fair value of any financial assets as determined in conformity with generally accepted accounting principles, less trust and total *tokumei kumiai* liabilities (Articles of Incorporation).

The appraisal value of property with respect to the period commencing on the acquisition thereof and ending on the date of disclosure of such value with respect to the next following closure of NBF's accounting term shall be the acquisition price of the said property (excluding miscellaneous acquisition costs, fixed assets tax, city-planning tax and consumption tax) as stated in the sale and purchase contract, etc. for the said property.

## Investment Objectives of NBF

- (10) Rights to financial derivative transactions (limited to those specified in Article 2.20 of the Financial Instruments and Exchange Law of Japan)
- (11) Renewable energy power generation facilities (meaning those specified in Article 3.11 of the Order for Enforcement of the Investment Trust Act (Cabinet Order No. 480 of 2000, including amendments thereto))

### C. Assets Other than Designated Assets

NBF may, in the course of efficiently managing funds or in other cases as necessary, invest in the following assets.

- (1) Equity interests of partnerships, excluding assets in section A, paragraph (4)
- (2) Easements
- (3) Trademark rights
- (4) Copyrights
- (5) Chattels
- (6) Emission credits (including emission credits for greenhouse gases) or other similar carbon dioxide equivalent quotas based on the Act on Promotion of Global Warming Countermeasures of Japan (Act No. 117 of 1998, including subsequent revisions)

- (7) Requisite ancillary rights to Designated Assets referred to in section A

**D. In the event that securities with “rights to be indicated on securities” as specified in Article 2.2 of the Financial Instruments and Exchange Law of Japan are not issued, such rights shall be deemed securities to which sections A through C above are applicable.**

## Distribution Policies of NBF

### A. Distributions of Profits

NBF will, in principle, effect distributions in accordance with the following policies (Article 14.1 of the Articles of Incorporation).

**(1)** NBF's earnings available for distributions are based on accounting of profits prepared in accordance with the Investment Trust Law and in conformity with generally accepted accounting principles in Japan.

The distributable amount which results from operation of managed assets of NBF (hereinafter, “Distributable Amount”) shall be the amount of profit (the amount of net assets on the balance sheet less the amount of unitholders' capital and capital surplus reserves) calculated on each closing date.

**(2)** The amount of cash distributions will be determined by NBF, such amount being in excess of 90% of earnings available for dividends of NBF set forth in the Special Provisions for Taxation on Investment Corporation in Article of the Special Taxation Measures Law of Japan (hereinafter “Distributable Earnings”), provided, however, that the maximum amount of distributions will be the Distributable Amount. NBF has the right to allow for long-term reserve for renovations, reserve for payables, reserve for cash distributions, reserve for advanced depreciation, retained earnings for temporary difference adjustment and other reserves and allowances similar thereto which are deemed necessary for maintaining or enhancing the assets of NBF.

**(3)** Earnings retained and not allocated to cash distributions or otherwise available for distribution as of the closing date will be managed in accordance with “Investment Objectives and Policies” in the Articles of Incorporation.

## B. Distribution in Excess of Earnings

NBF is entitled to make cash distributions in excess of the Distributable Amount in the following cases, provided, however, that the maximum amount of such distributions will be the amount set forth in the rules of the Investment Trusts Association of Japan (Article 14.2 of the Articles of Incorporation).

**(1)** If NBF determines it appropriate considering trends in macroeconomic environments, real estate markets and leasing markets as well as its portfolio, financial and other status.

**(2)** If NBF utilizes retained earnings for temporary difference adjustment, etc. at the amount determined by NBF for reducing its tax burden.

As for distribution in excess of earnings, NBF may make distributions in excess of earnings in association with the distribution policies above when distribution in excess of earning is deemed necessary by the Board of Directors of NBF with the purpose of fulfilling requirement of inclusion in deductible expenses, etc.

## C. Method of Distributions

Distributions falling under either A or B above will be made in cash, in principle, within three months from the closing date, to such unitholders or registered pledgees as are listed or recorded in the latest Unitholder Registry as of the closing date, in proportion to the number of units owned by or pledged to them (Article 14.3 of the Articles of Incorporation).

## D. Prescription for Cash Distributions, etc.

NBF will be discharged from the obligation to pay distributions specified in A and B above of profits after a lapse of three calendar years from the date of commencing payment. Interest will not accrue on unpaid distributions (Article 14.4 of the Articles of Incorporation).

# Investment Restrictions

## A. Investment Restrictions in Articles of Incorporation

The investment restrictions specified in the Articles of Incorporation and the asset management guidelines applicable to NBF. Please also refer to “Investment Policies of NBF, B. Investment Strategy” herein.

### (1) Investment Location and Currencies

NBF will invest neither in real estate located outside of Japan nor in assets denominated in non-Japanese currencies (“Investment Objectives and Policies,” Articles of Incorporation).

### (2) Borrowing

See “Investment Policies of NBF, B. Investment Strategy, (4) Financial Policies.”

### (3) Concentration of Investment

There is no limitation on concentration of investment. See “Investment Policies of NBF, B. Investment Strategy, (1) Strategy for Creation of the Portfolio.”

### (4) Investment Objectives

NBF does not invest aggressively in the Monetary Claims and Securities referred to in “Investment Objectives, B. Other Investment Objectives among Designated Assets.” Rather, NBF takes into account their stability and liquidity based on the extent of their relationship with Designated Assets referred to in “Investment Objectives, A. Principal Investment Objectives among Designated Assets.” NBF invests in rights to financial derivatives transactions solely to hedge against risks, including risks of fluctuation in interest rates for debt (“Investment Objectives and Policies,” Articles of Incorporation).

Moreover, investment in other funds (investment securities or Beneficiary Certificates) is limited mainly to those the assets of which are referred to in “Investment Objectives of NBF, A. Principal Investment Objectives among Designated Assets,” paragraphs (1) and (2).

The real estate held by such funds may not include any real estate located outside of Japan (Articles of Incorporation).

## **(5) Compliance with Laws and Regulations**

The Managed Assets of NBF will be managed in compliance with the Financial Instruments and Exchange Law of Japan and related regulations, the rules stipulated by the Investment Trusts Association (as amended), as well as “Investment Objectives and Policies” of the Articles of Incorporation.

### **B. Compliance with the Financial Instruments and Exchange Law and the Investment Trust Law of Japan**

NBF is subject to restrictions on investment under the Financial Instruments and Exchange Law and the investment Trust Law of Japan. Main restrictions are as follows.

**(1)** Pursuant to Article 198.1 of the Investment Trust Law of Japan, a registered investment corporation must entrust business related to asset management to an asset management company registered as a financial instrument firm, but an asset management company is prohibited from performing certain acts related to the business of managing the assets of said investment corporation. As a result, an investment corporation is subject to certain investment restrictions (all references in parentheses below are to the provisions of the Financial Instruments and Exchange Law of Japan, except where stated otherwise) besides restrictions applied to a registered investment corporation. NBF will naturally comply with such investment restrictions, a general overview of which follows.

#### **a) Internal Transactions (§ 42.2.1)**

Transactions between an asset management company and its directors or officers are prohibited except for certain cases specified in Article 128 of the government ordinance regarding the Financial Instruments and Exchange Law that are considered unlikely to result in failure to protect the interests of unitholders, damage fair transactions or discredit the financial instruments business.

#### **b) Reciprocal Transactions with Managed Assets (§ 42.2.2)**

Transactions between asset management companies of investment corporation assets are prohibited except for certain cases specified in the provisions of the government ordinance regarding the Financial Instruments and Exchange Law of Japan that are considered unlikely to

result in failure to protect the interests of unitholders, damage fair transactions or discredit the financial instruments business.

#### **c) Transactions for the Benefit of Third Parties (§ 42.2.3)**

An asset management company may not undertake transactions in certain financial instruments, indices or options based on fluctuations in the price, index, value, or amount of consideration related to transactions in the assets of an investment corporation, without a legally valid reason, with the objective of benefiting a third party other than NBF or said investment.

#### **d) Transactions Harmful to the Interests of NBF (§ 42.2.4)**

An asset management company may not undertake transactions that are other than upon normal terms and conditions for such transactions, and further, such transactions upon said conditions would be harmful to the interests of the investment.

#### **e) Other Transactions Defined by Cabinet**

##### **Office Ordinances**

In addition to the above, the following activities are prohibited (§42.2.7 of the Financial Instruments and Exchange Law, Cabinet Office Ordinance §130).

- (i) Transactions among the auditors, officers and employees of an asset management company
- (ii) Transactions for the benefit of the investment management company or third parties that would be harmful to the interests of the investment corporation
- (iii) Transactions for the benefit of third parties that are not necessary according to investment management policies, the financial condition of assets under management, or market conditions
- (iv) Asset management that introduces unfair restrictions or other limitations from external entities
- (v) The sale or purchase of investment securities, or similar transactions, with the objective of unfairly inflating transaction amounts or artificially inflating prices
- (vi) Transactions between third parties and their agents (excluding specific transactions to which rights holders have agreed pursuant to advance explanation of the rationale for the transaction)
- (vii) When entities as specified below engage in underwriting investment securities or other transactions, requested tenders or acquisitions of

investment securities when the subject investment securities to be acquired by or the amount subscribed under the tender agreement by the said underwriter differ from the planned amounts

- (a) foreign entities including corporations for their own account (as stipulated by Cabinet Office Ordinance §126.3)
- (b) entities that hold more than 50/100 of the total amount of investment securities representing underlying managed assets issued in the two most recent fiscal years, as defined by §2.8.1-3, §2.8.8 and §2.8.9 of the Financial Instruments and Exchange Law (limited to investment securities that give holders rights in the said managed assets and such rights)

(viii) Other activities prohibited by Cabinet Office Ordinance 130

## **(2) Limitation on Acquisition of the Same Issue of Units (§ 194 of the Investment Trust Law)**

An investment corporation may not acquire the same units issued by a corporation in excess of 50/100 of total number of said issued and outstanding units.

## **(3) Restriction on Acquisition of Own Units and Acceptance of Pledge (§ 80.1 of the Investment Trust Law)**

An investment corporation may not acquire units issued by itself, or accept them for the purpose of pledge, unless it acquires units issued by itself in the following cases:

- when acquired from another investment corporation as the surviving entity of a merger;
- when purchasing units pursuant to the provisions of the Investment Trust Law of Japan; or
- when purchasing units pursuant to a government ordinance regarding the Investment Trust Law of Japan.

## **(4) Restriction on Acquisition of Parent Corporation's Units by Subsidiary Corporation (§ 81.1.2)**

An investment corporation (subsidiary), a majority of the units of which is owned by another investment corporation (parent), may not acquire the

units of such parent investment corporation except in the following cases:

- when acquired from another investment corporation as the surviving entity of a merger; or
- when purchasing units pursuant to a government ordinance regarding the Investment Trust Law of Japan.

## **C. Other Restrictions**

### **Subscription and Margin Trading of Securities**

Pursuant to the guidelines set by its asset management company, NBF may not subscribe to, or conduct margin trading of, securities.

2. Operating revenues do not include consumption tax.

3. All valuations are calculated through the following formulas. The figures in parentheses after ROA and ROE are annualized based on the six-month figures for the period.

Funds from operations: Net income (excluding Gains on sales of investment properties) + Depreciation and amortization

Net operating income from property leasing activities: (Revenue from property leasing – Rental expenses) + Depreciation and amortization

Funds from operations per unit: (Net income (excluding Gains on sales of investment properties) + Depreciation and amortization) / Weighted average number of units issued and outstanding during the period

ROA: Ordinary income / (Initial total assets + Total assets at end of period) ÷ 2

ROE: Net income / (Initial net assets + Net assets at end of period) ÷ 2

LTV: Interest-bearing debt / Total assets

4. Payout ratio figures are calculated to one decimal place only.

5. Number of investment properties means units generally perceived to be one office building. Number of tenants means gross number of tenants by building. Occupancy rate, end-tenant basis, is the ratio of gross leased area to total rentable area at the end of the period.

## Management's Discussion and Analysis

### 1. Distribution for the Current Period

Distribution per unit for the current period was ¥9,129. NBF expects to distribute almost all retained earnings at the current period end remaining after deducting the amount appropriated to the reserve for advanced depreciation of replacing specified assets as stipulated in Article 65-7 of the Act on Special Measures Concerning Taxation to be eligible for special tax treatment (Article 67-15 of the Act on Special Measures Concerning Taxation) that allows NBF to deduct its cash dividends of profits from taxable income.

### 2. Changes in Assets, Liabilities and Net Assets

#### Assets

As of June 30, 2017, total assets decreased by ¥6,534 million to ¥1,023,901 million compared with December 31, 2016. Return on average total assets (ROA) for the six months ended June 30, 2017 increased to 1.3 percent from 1.2 percent for the previous six-month period.

Current assets decreased by ¥620 million to ¥12,516 million compared with December 31, 2016. Investment properties decreased by ¥5,534 million to ¥1,004,660 million compared with December 31, 2016.

#### Liabilities

Current liabilities increased by ¥12,385 million to ¥82,207 million compared with December 31, 2016, primarily because of an increase in long-term debt due within one year compared with December 31, 2016.

Long-term debt decreased by ¥19,375 million to ¥354,500 million compared with December 31, 2016.

As a result, total interest-bearing liabilities decreased by ¥6,375 million to ¥425,250 million compared with

December 31, 2016. The ratio of long-term debt (for which the redemption period at the time of contract or issuance is more than one year) to total interest-bearing liabilities decreased 97.2 percent as of June 30, 2017 from 98.4 percent as of December 31, 2016.

The loan-to-value ratio, calculated as the ratio of interest-bearing liabilities to total assets, decreased 41.5 percent as of June 30, 2017 from 41.9 percent as of December 31, 2016.

#### Net assets

Net assets increased by ¥590 million to ¥537,003 million compared with December 31, 2016.

### 3. Funding

#### *Balance of Paid-in Capital*

NBF was established on March 16, 2001 with initial paid-in capital of ¥100 million. NBF began investing activities in May 2001 after ¥98,800 million was raised through private placements. As of June 30, 2017, NBF had issued 1,412,000 units out of 4,000,000 total authorized units. NBF's units were listed on the J-REIT section of the Tokyo Stock Exchange in September 2001 upon the completion of a public offering. As the Investment Trust Law of Japan does not contain any provision for the issue of more than one class of units, NBF's units comprise the sole class of units authorized and issued by NBF.

## NIPPON BUILDING FUND INC.

### Notes To Financial Statements

For the six months ended June 30, 2017, December 31, 2016 and June 30, 2016

#### **Note 1 – Organization and Basis of Presentation**

---

##### ***Organization***

Nippon Building Fund Inc. (hereinafter "NBF") was formed on March 16, 2001 as an investment corporation under the Law Concerning Investment Trusts and Investment Corporations of Japan (hereinafter the Investment Trust Law of Japan) with Mitsui Fudosan Co., Ltd., Sumitomo Mitsui Trust Bank, Limited., and Nippon Building Fund Management Ltd. (hereinafter "NBFM") acting as sponsors. Registration with the Kanto Local Finance Bureau of the Ministry of Finance was completed on May 10, 2001 and NBF started acquisition of office properties on May 23, 2001.

NBF is an externally managed real estate fund, formed as an investment corporation. NBFM, as NBF's asset management company, is engaged in acquiring, managing, leasing, and renovating office properties. Mitsui Fudosan Co., Ltd. currently owns 46% of NBFM while Sumitomo Life Insurance Company owns 35% and the remaining 19% is mainly owned by financial institutions.

On September 10, 2001, NBF had raised approximately ¥50,000 million through an initial public offering of units. Those units are listed on the J-REIT section of the Tokyo Stock Exchange.

As of June 30, 2017, NBF had ownership or beneficiary interests in 74 office properties containing approximately 1,094,812 square meters of rentable office space. As of June 30, 2017, NBF had leased office space to 1,590 tenants engaged in a variety of businesses. The occupancy rate for the office properties was approximately 98.8%.

##### ***Basis of Presentation***

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Law of Japan and the Japanese Financial Instruments and Exchange Law and their related accounting regulations, and in conformity with accounting principles generally accepted in Japan (hereinafter "Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements have been restructured and translated into English from the financial statements of NBF prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Law. Some supplementary information included in the statutory Japanese language financial statements, but not required for fair presentation, is not presented in the accompanying financial statements. NBF does not prepare consolidated financial statements, as NBF has no subsidiaries.

## Note 2 – Summary of Significant Accounting Policies

---

### ***Cash and Cash Equivalents***

NBF considers all highly liquid investments with original maturity of three months or less to be cash and cash equivalents.

### ***Investment Properties***

Investment properties are recorded at cost, which includes the allocated purchase price, related costs and expenses for acquisition of the office properties and the beneficiary interests of properties in trust. Property and equipment balances are depreciated using the straight-line method over the estimated useful lives. The estimated useful lives of the principal tangible fixed assets (including assets held in trust) are as follows:

Buildings and improvements including trust accounts	
Buildings and improvements	2-50 years

Other tangible assets	
Structures	2-50 years
Machinery and equipment	2-17 years
Tools, furniture and fixtures	2-19 years

Costs related to the renovation, construction and improvement of properties are capitalized. Expenditures for repairs and maintenance which do not add to the value or prolong the useful life of a property, are expensed when incurred.

### ***Investment Corporation Bond Issuance Costs***

Deferred investment corporation bond issuance costs are amortized using the straight-line method over the respective terms of the bonds.

### ***Income Taxes***

Income taxes are accounted for on the basis of income for financial statement purposes. The tax effect of temporary differences between the amounts of assets and liabilities for financial statements and for income tax purposes is recognized as deferred taxes.

### ***Real Estate Taxes***

Real estate taxes are imposed on properties on a calendar year basis and expensed when incurred. In terms of newly purchased properties, NBF capitalizes a portion of the real estate taxes that relate to a period from the purchase date of each property until the end of the calendar year as part of the acquisition cost of the relevant property. Capitalized real estate taxes amounted to ¥41 million for the period ended June 30, 2017, ¥18 million for the period ended December 31, 2016 and ¥22 million for the period ended June 30, 2016.

### ***Revenue Recognition***

NBF operates office properties that are rented to tenants on lease terms of generally two years, with monthly payments due in advance. Rental and other property income is recorded when due from tenants and is recognized monthly as it is earned. Common area charges provided for in tenant leases are recognized as income when earned and their amounts can be reasonably estimated.

### ***Accounting Treatment of Beneficiary Interests in Trust Assets including Real Estate***

For trust beneficiary interests in real estate, all accounts of assets and liabilities within assets in trust as well as all income generated and expenses incurred from assets in trust are recorded in the relevant balance sheet and income statement accounts.

**Note 3 – Financial Instruments*****Status of Financial Instruments****Policy for Financial Instruments*

NBF procures funds for acquisition of assets and repayment of debt, which includes repayment of tenant security deposits, loans and investment corporation bonds, through issuance of new investment units, bank loans and issuance of investment corporation bonds, with the aim of ensuring steady asset growth and stable earnings from a mid- and long-term angle.

As a general rule NBF invests surplus funds in deposits considering safety of the investments.

NBF may enter into derivative transactions solely for the purpose of reducing interest rate risks and other risks arising from liabilities. NBF does not engage in speculative transactions. Currently NBF is not engaged in any derivative transactions.

*Financial Instruments, Their Risks and Risk Management System*

Deposits are used for investment of NBF's surplus funds. These deposits are exposed to credit risks such as bankruptcy of the depository financial institutions. NBF limits credit risk by using only short-term deposits in financial institutions with high credit ratings.

Proceeds from loans and investment corporation bonds are used mainly to acquire real estate properties and repay outstanding loans and bonds. While these loans and bonds are exposed to liquidity risk, such risk is managed in the following ways such as diversifying the means of funding and lending institutions, dispersing repayment dates, establishing committed credit line, keeping sufficient liquidity in hand, and monitoring cash flows projected monthly.

Floating rate loans are exposed to interest-rate fluctuation. NBF limits the impact of such risks by maintaining the ratio of interest-bearing liabilities to total assets low and the level of long-term fixed-rate debt high.

Tenant security deposits are exposed to liquidity risk arising from vacating of properties by tenants due to the termination of contract. NBF manages this risk by monitoring forecasted cash flows on a monthly basis to ensure it has sufficient funds.

*Supplemental Explanation regarding Fair Values of Financial Instruments*

The fair value of financial instruments is based on their observable market value, if available. When there is no observable market value available, fair value is based on a price that is reasonably estimated. Since various factors are reflected in estimating the fair value, different assumptions and factors could result in a different value.

***Estimated Fair Value of Financial Instruments***

Book value, fair value and difference between the two as of June 30, 2017 are as follows.

The financial instruments for which it is very difficult to estimate the fair value are excluded from the following table (See Note 2. below).

(Yen in millions)			
	Book value	Fair value	Difference
<b>Assets</b>			
(1) Cash and cash equivalents	¥ 12,039	¥ 12,039	¥ —
Total	¥ 12,039	¥ 12,039	¥ —
<b>Liabilities</b>			
(1) Short-term loans	¥ 7,000	¥ 7,000	¥ —
(2) Long-term debt due within one year	50,750	51,045	295
(3) Long-term debt	373,875	381,962	8,087
Total	¥431,625	¥440,007	¥8,382

Notes:

# 1. Methods to Estimate Fair Value of Financial Instruments

Assets:

## (1) Cash and cash equivalents

Book values of those instruments are used to determine their fair values, as the book values are considered to approximate fair values because these instruments are settled within a short term period.

Liabilities:

## (1) Short-term loans

Book values of those instruments are used to determine their fair values, as the book values are considered to approximate fair values because these instruments are settled within a short term period.

## (2) Long-term debt due within one year

Long-term debt due within one year which includes Investment corporation bonds and Long-term loans are as follows.

(Yen in millions)

	Book value	Fair value	Difference
(1) Investment corporation bonds	¥10,000	¥10,176	¥ 176
(2) Long-term loans	48,750	49,236	486
Total	¥58,750	¥59,412	¥662

### (1) Investment corporation bonds

Fair values of investment corporation bonds are based on observable market value, if available. When there is no observable market value available, fair values are calculated based on the present value of principal and interest cash flows discounted at the current interest rate that is estimated by taking into consideration the remaining term of the investment corporation bonds and their credit risk.

### (2) Long-term loans

Fair values of floating rate long-term loans are based on the book values because the market interest rates are reflected within a short term period and the book values are considered to approximate fair values. Fair values of fixed rate long-term loans are based on the present value of principal and interest cash flows discounted at the current interest rate estimated to be applied if similar new loans were entered into.

## (3) Long-term debt

Long-term debt which includes Investment corporation bonds and Long-term loans are as follows.

(Yen in millions)

	Book value	Fair value	Difference
(1) Investment corporation bonds	¥20,000	¥19,881	¥ (119)
(2) Long-term loans	334,500	341,007	6,507
Total	¥354,500	¥360,888	¥6,388

### (1) Investment corporation bonds

Fair values of investment corporation bonds are based on observable market value, if available. When there is no observable market value available, fair values are calculated based on the present value of principal and interest cash flows discounted at the current interest rate that is estimated by taking into consideration the remaining term of the investment corporation bonds and their credit risk.

### (2) Long-term loans

Fair values of floating rate long-term loans are based on the book values because the market interest rates are reflected within a short term period and the book values are considered to approximate fair values. Fair values of fixed rate long-term loans are based on the present value of principal and interest cash flows discounted at the current interest rate estimated to be applied if similar new loans were entered into.

Book value, fair value and difference between the two as of December 31, 2016 are as follows.

The financial instruments for which it is very difficult to estimate the fair value are excluded from the following table (See Note 2. below).

## 2. Financial Instruments for Which It Is Very Difficult to Estimate the Fair Value.

(Yen in millions)

	As of June 30, 2017	As of December 31, 2016
Tenant security deposits including trust accounts	¥50,123	¥50,257

Security deposits from tenants are not subject to fair value disclosure because they are not marketable, and actual deposit period is not estimable as leases may be cancelled, renewed or re-signed even if a lease term is set in the lease contract, that makes a reasonable estimate of future cash flows difficult.

### Note 5 – Net Assets

NBF issues only non-par value units in accordance with the Investment Trust Law of Japan and all of the issue prices of new units are designated as stated capital. NBF maintains at least ¥50 million as the minimum net assets as required by the Investment Trust Law of Japan.

### Note 6 – Short-Term Loans and Long-Term Debt

Short-term loans consist of short-term notes and short-term borrowings under loan agreements. The annual interest rates on short-term loans outstanding are floating rates and on June 30, 2017 and December 31, 2016 were at 0.05% respectively. Long-term debt as of June 30, 2017 and December 31, 2016 consisted of the following:

	As of June 30, 2017	As of December 31, 2016
	(Yen in millions)

### Note 13 – Investment and Rental Property

NBF owns office buildings (including land) for rent in Tokyo and other areas. The carrying amounts, net changes in the carrying amounts and the fair value of the investment and rental properties are as follows.

(Yen in millions)

	For the six months ended June 30, 2017	For the six months ended December 31, 2016
Carrying amount		
Balance at beginning of the Fiscal Period	¥ 1,010,223	¥ 1,002,390
Amount of increase (decrease) during current period	(5,536)	7,833
Balance at end of the Fiscal Period	1,004,687	1,010,223
Fair value at end of the period	¥ 1,194,070	¥ 1,188,820

Notes:

1. Carrying amounts represent acquisition cost less accumulated depreciation.
2. The major increase in the fiscal period ended June 30, 2017 was mainly due to the acquisitions of a property (Kowa Nishi-Shinbashi Bldg. B (additional acquisition), ¥39 million) and the major decrease was mainly due to sale of Aqua Dojima East which amounted to ¥ 1,683 million and recognition of depreciation costs.  
The major increase in the fiscal period ended December 31, 2016 was mainly due to the acquisitions of 3 properties (Nishi-Shinjuku Mitsui Bldg. (additional acquisition), Toyo-cho Center Bldg. and Osaki Bright Core - Bright Plaza (sectional ownership and co-ownership of sectional ownership), ¥12,762 million) and the major decrease was mainly due to recognition of depreciation costs.
3. Fair value at end of the period is based on appraisals provided by independent real estate appraisers.

Information about profit and loss from investment and rental properties is disclosed in Note 7 (Rental Revenues and Expenses) and Note 8 (Gains on Sales of Investment Properties).

## **Independent Auditor's Report**

To the Board of Directors of  
Nippon Building Fund Inc.:

We have audited the accompanying financial statements of Nippon Building Fund Inc. (a Japanese Real Estate Investment Trust), which comprise the balance sheets as at June 30, 2017 and December 31, 2016, and the statements of income, statements of changes in net assets and statements of cash flows for each of the six months ended June 30, 2017, December 31, 2016 and June 30, 2016, and a summary of significant accounting policies and other explanatory information.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements present fairly, in all material respects, the financial position of Nippon Building Fund Inc. as at June 30, 2017 and December 31, 2016, and their financial performance and cash flows for each of the six months ended June 30, 2017, December 31, 2016 and June 30, 2016 in accordance with accounting principles generally accepted in Japan.

## DISCLAIMER

This document has been prepared solely for the purpose of providing U.K. and Dutch investors with certain information under Article 23 of the European Alternative Investment Fund Managers Directive (European Directive 2011/61/EU) as implemented in their respective jurisdictions, and does not constitute an offer to sell or a solicitation of any offer to buy the units of Nippon Building Fund Inc. (“NBF” or the “AIF”). Accordingly, you should not use this document for any other purpose.

### ***Netherlands***

The units of NBF are being marketed in the Netherlands under Section 1:13b of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*, or the “Wft”). In accordance with this provision, Nippon Building Fund Management Ltd. (the “AIFM”) has notified the Dutch Authority for the Financial Markets certain matters in accordance with the AIFMD. The units of NBF will not, directly or indirectly, be offered, sold, transferred or delivered in the Netherlands, except to or by individuals or entities that are qualified investors (*gekwalficeerde beleggers*) within the meaning of Article 1:1 of the Wft, and as a consequence neither the AIFM nor NBF is subject to the license requirement pursuant to the Wft. Consequently, neither the AIFM nor NBF is subject to supervision of the Dutch Central Bank (*De Nederlandsche Bank*, “DNB”) or the Netherlands Authority for Financial Markets (*Autoriteit Financiële Markten*, the “AFM”) and this Article 23 AIFMD prospectus is not subject to approval by the AFM. No approved prospectus is required to be published in the Netherlands pursuant to Article 3 of the European Directive 2003/71/EC (the EU Prospectus Directive) as amended and implemented in Netherlands law. The AIFM is therefore solely subject to limited ongoing regulatory requirements as referred to in Article 42 of the AIFMD.

### ***United Kingdom***

Units of NBF are being marketed in the United Kingdom pursuant to Article 59 of the United Kingdom Alternative Investment Fund Managers Regulations 2013. In accordance with this provision, the AIFM has notified the Financial Conduct Authority (the “FCA”) certain matters in accordance with the AIFMD.

For the purposes of the United Kingdom Financial Services and Markets Act 2000 (“FSMA”) NBF is an unregulated collective investment scheme which has not been authorized by the FCA.

Accordingly, any communication of an invitation or inducement to invest in NBF may be made to persons in the United Kingdom only if the communication falls within one or more of the categories of exempt financial promotions under the Financial Services and Markets

Act (Financial Promotion) Order 2005 (the “Order”), such as financial promotions communicated to:

- (1) persons who are investment professionals, as defined in article 19 of the Order;
- (2) persons who are high net worth companies, unincorporated associations, or other entities listed in article 49 of the Order,

or if the communication is made to persons to whom such an invitation or inducement may otherwise lawfully be communicated. The distribution of this document to any person in the United Kingdom in circumstances not falling within one of the above categories is not permitted and may contravene FSMA. No person falling outside those categories should treat this document as constituting a promotion to him, or act on it for any purposes whatever.

In relation to each Member State of the European Economic Area (the “EEA”) which has implemented the Prospectus Directive (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) no offer of units of NBF may be made to the public in that Relevant Member State except in circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of units shall require the publication of a prospectus pursuant to Article 3 of the Prospectus Directive, or a supplement to a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression “an offer of units to the public” in relation to any units in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the units to be offered so as to enable an investor to decide to purchase or subscribe the units, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

The units of NBF are not intended, from 1 January 2018, to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); (ii) a customer within the meaning of Directive 2002/92/EC (as amended, “IMD”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information

document required by Regulation (EU) No 1286/2014 (the “PRIIPs Regulation”) for offering or selling the units of NBF or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the units of NBF or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

***Japan***

This document is not an offer to sell or a solicitation of any offer to buy the units of NBF in Japan.

Article 23 (1)(a)	
Objectives of the AIF.	<p>Nippon Building Fund Inc. (“NBF” or the “AIF”) invests in office buildings in the Tokyo Central Business Districts (“CBDs”, which comprises the 23 wards of Tokyo), Other Greater Tokyo Areas (neighboring cities within Tokyo other than the 23 wards, such as Musashino and Tachikawa cities, as well as cities within the neighboring prefectures of Kanagawa, Chiba, Saitama, Ibaraki, Gunma and Tochigi prefectures, including the cities of Yokohama, Kawasaki, Chiba, Kashiwa and Saitama) and Other Cities (principal regional cities, including Sapporo, Sendai, Niigata, Shizuoka, Hamamatsu, Nagoya, Kyoto, Osaka, Kobe, Okayama, Hiroshima, Takamatsu, Fukuoka and Kumamoto).</p> <p>The basic policy of NBF is to operate assets with the objective of assuring steady growth and stable profits for the mid to long term.</p>
Investment strategy.	<p>The investment strategy of NBF aims to assure steady growth of and stable profits from NBF’s portfolio for the mid to long term by considering the proportion of Japan’s office stock by region. Specifically, the strategy divides the investment area into three areas consisting of Tokyo CBDs, Other Greater Tokyo Areas and Other Cities in such manner that 70% or more of total investment assets is allocated to Tokyo CBDs and Other Greater Tokyo Areas and 30% or less to Other Cities. The purpose of this area diversification is to minimize cash flow risks such as those due to earthquakes and risk of vacancies. In general, NBF fully exploits its unique characteristics when conducting investment activities. It is one of the largest listed J-REITs on the Tokyo Stock Exchange in terms of total assets, and is able to take advantage of Mitsui Fudosan Group’s powerful information network, as well as the industry knowledge and familiarity that it has cultivated itself. NBF investment strategy focuses on expanding its asset portfolio by making aggressive acquisitions and flexible dispositions mainly of highly competitive office buildings, primarily in Tokyo CBDs while conducting appropriate risk management.</p>
Types of assets the AIF may invest in.	<p>Real estate, trust beneficiary interests in real estate, real estate securities, specified assets and other assets.</p>
Techniques it may employ and all associated risks.	<p>NBF achieves its objective by investing in real estate consisting of buildings primarily used for offices with their underlying land located in the Tokyo CBDs, Other Greater Tokyo Areas and Other Cities. NBF also invests in securities, beneficiary certificates representing beneficial interests in trusts and other assets backed by office properties.</p> <p>The principal risks with respect to investment in NBF are as follows:</p> <ul style="list-style-type: none"> <li>(1) General Risks <ul style="list-style-type: none"> <li>(a) Risks concerning NBF’s ability to make cash distributions</li> <li>(b) Risks concerning resale or redemption of investment units or investment corporation bonds</li> </ul> </li> </ul>

Specified assets include, but are not limited to, securities, real estate, leaseholds of real estate, surface rights (<i>chijō-ken</i>) (i.e., right to use land for the purpose of having a structure on it) or trust beneficiary interests for securities or real estate, leaseholds of real estate or surface rights. A listed J-REIT must invest substantially all of its assets in real estate, real estate-related assets and liquid assets as provided by the listing requirements. Real estate in this context includes, but is not limited to, real estate, leaseholds of real estate, surface rights, and trust beneficiary interests for these assets, and real estate-related assets in this context include, but are not limited to, anonymous association (<i>tokumei kumiai</i>) interests for investment in real estate. Pursuant to the ITA, investment corporations may not independently develop land for housing or to construct buildings, but must outsource such activities.</p>
Circumstances in which the AIF may use leverage.	<p>NBF may take out loans or issue long-term or short-term investment corporation bonds for the purpose of investing in properties, conducting repairs and related work, paying cash distributions, operating capital, repaying obligations (including repayment of tenant leasehold or security deposits, and obligations related to loans or long-term or short-term investment corporation bonds) and other activities.</p>
The types and sources of leverage permitted and associated risks.	<p>Loans or investment corporation bonds. Currently, all of NBF’s outstanding long- and short-term loans as well as outstanding investment corporation bonds are unsecured and unguaranteed.</p> <p>Loans or investment corporation bonds in which NBF enters or NBF issues may be subject to restrictive covenants in connection with any future indebtedness that may restrict operations</p>

	<p>and limit its ability to make cash distributions to unitholders, to dispose of properties or to acquire additional properties. Furthermore, if NBF were to violate such restrictive covenants, such as with regard to debt service coverage or loan-to-value ratios, lenders may be entitled to require NBF to collateralize portfolio properties or demand that the entire outstanding balance be paid.</p> <p>In the event of an increase in interest rates, to the extent that NBF has any debt with unhedged floating rates of interest or NBF incurs new debt, interest payments may increase, which in turn could reduce the amount of cash available for distributions to unitholders. Higher interest rates may also limit the capacity for short- and long-term borrowings, which would in turn limit NBF's ability to acquire properties, and could cause the market price of the units to decline.</p>
Any restrictions on leverage.	The maximum amount of each loan and investment corporation bond issuance will be 1 trillion yen, and the aggregate amount of all such debt will not exceed 1 trillion yen.
Any restrictions on collateral and asset reuse arrangements.	No applicable arrangements.
Maximum level of leverage which the AIFM is entitled to employ on behalf of the AIF.	NBF has set an upper limit of 56% as a general rule for its loan-to-value, or LTV, ratio, which is the ratio of (x) the aggregate principal amount of borrowings and investment corporation bonds to (y) the total assets of NBF's portfolio, in order to operate with a stable financial condition. NBF may, however, temporarily exceed such levels as a result of property acquisitions or other events.
<b>Article 23(1) (b)</b>	
Procedure by which the AIF may change its investment strategy / investment policy.	Amendment of the articles of incorporation. Amendment requires a quorum of a majority of the total issued units and at least a two-thirds vote of the voting rights represented at the meeting. Unitholders should note, however, that under the ITA and our articles of incorporation, unitholders who do not attend and exercise their voting rights at a general meeting of unitholders are deemed to be in agreement with proposals submitted at the meeting, except in cases where contrary proposals are also being submitted. Additionally, the guidelines of the AIFM, which provide more detailed policies within NBF's overall investment strategy and policy, can be modified without such formal amendment of the articles of incorporation.

<b>Article 23(1) (g)</b>	
Description of the AIF's valuation procedure and pricing methodology, including the methods used in valuing hard-to-value assets.	<p>NBF makes investment decisions based on its investment strategies and in accordance with its articles of incorporation and based on the results of due diligence, including the valuation of properties and consideration of the property appraisal value. The methods and standards that NBF uses for the evaluation of assets are based on the Regulations Concerning the Calculations of Investment Corporations, as well as the Regulations Concerning Real Estate Investment Trusts and Real Estate Investment Corporations and other regulations stipulated by ITA, in addition to Japanese GAAP. J-REITs may only use the valuation methods prescribed in the rules of the Investment Trusts Association, Japan, which emphasize market price valuation.</p> <p>Regarding hard to value assets, such assets comprise tenant security deposits including trust accounts. Security deposits from tenants are not subject to fair value disclosure because they are not marketable, and actual deposit period is not estimable as leases may be cancelled, renewed or re-signed even if a lease term is set in the lease contract. This makes a reasonable estimate of future cash flows difficult. Valuation of such hard to value assets is included in the notes to our financial statements.</p> <p>If asset valuation methods other than those mentioned in the paragraphs above are to be used in order to determine values for asset management reports, etc., valuation shall be conducted in the following manner.</p> <p>(1) Real estate, real estate leasehold rights and surface rights In principle, valuation shall be based on the appraisal by a real estate appraiser.</p> <p>(2) Trust beneficiary interests and equity interests in anonymous associations and voluntary associations</p> <p>Valuation shall be made by calculating the value of the equity interests in anonymous associations or voluntary associations in relation to real estate, real estate leasehold rights or</p>

<p>Description of the AIF's liquidity risk management, including redemption rights in normal and exceptional circumstances and existing redemption arrangements with investors.</p>	<p>NBF seeks to manage the capital resources and liquidity sources to provide adequate funds for current and future financial obligations and other cash needs and acquisitions. NBF has entered into credit lines in the amount of 60 billion yen as of June 30, 2017, and has entered into loans and has issued investment corporation bonds in the past. While loans and investment corporation bonds are exposed to liquidity risk, such risk is managed in ways such as by diversifying the means of funding and lending institutions, dispersing repayment dates, establishing committed credit lines, and keeping sufficient liquidity in hand.</p> <p>NBF is a closed-end investment corporation, and unitholders are not entitled to request the redemption of their investment.</p>
