### ***Performance Results:***

NBF has conducted asset management in accordance with its basic policy of “aim to achieve steady growth of assets under management and secure stable profits on a mid- to long-term basis.”

Even under this challenging environment, NBF enhanced its portfolio by acquiring " Toyosu Bayside Cross Tower " (real property; acquisition price: 14.7 billion yen), in November 2022, and disposed " Toyochō Center Bldg" (trust beneficiary interest, disposition price: 9.6 billion yen), and " NBF Niigata Telecom Bldg." (trust beneficiary interest, disposition price: 3.9 billion yen), and " NBF Hiroshima Tatemachi Bldg" (trust beneficiary interest, disposition price: 3.5 billion yen) in July 2022.

Regarding the existing portfolio, NBF executes market-appropriate, flexible, and timely leasing activities carefully factoring in market trends in order to maximize the level of occupancy rates, which is still in an adjustment phase. With existing tenants, NBF strives to retain and improve rent levels, prevent cancellations based on the fundamental policy of maintaining favorable relationships and enhancing tenant satisfaction. As a result of these activities, occupancy rates and rental revenues remains stable.

In addition, NBF's pursuit to enhance competitiveness of its properties by implementing continuous cost reduction measures through timely renovations will continue.

### ***Overview of Performance and Distribution:***

As the result of above operations, NBF's performance results during the period under review consisted of operating revenues of ¥47,366 million (a decrease of ¥4,848 million, or 9.3%, compared with the previous period), operating income from leasing activities of ¥21,500 million (a decrease of ¥527 million, or 2.4%, compared with the previous period), operating income after asset management, custody and agent fees, etc. of ¥21,596 million (a decrease of ¥5,209 million, or 19.4% compared with the previous period), ordinary income of ¥20,289 million (a decrease of ¥5,151 million, or 20.2%, compared with the previous period), and net income of ¥20,288 (a decrease of ¥5,151 million, or 20.2%, compared with the previous period). In accordance with the distribution policy prescribed in its Articles of Incorporation, NBF decided to distribute ¥19,561 million, the entire amount arrived at by deducting provision of reserve for advanced depreciation (¥1,639 million) from the sum of retained earnings (¥20,288 million) and reversal of reserve for advanced depreciation (¥911 million), so that it will be able to deduct the maximum amount of cash distribution of profit from its taxable income through the application of preferential tax measures to investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation).

As a result, the distribution per unit was ¥11,500 (a decrease of ¥1,976, or 14.7% compared with the previous period). \*Net provision of reserve for advanced depreciation is ¥727 million.

Notes: 1. The amounts of yen in the annual report are rounded down to the nearest million yen. The amounts of U.S. dollar are rounded after the decimal.

2. U.S. dollar amounts are translated from yen, for convenience only, at the rate of ¥131.81 = U.S. \$1.00, the approximate exchange rate on December 31, 2022.

3. Operating revenues do not include consumption tax.

4. All valuations are calculated through the following formulas. The figures in parentheses after ROA and ROE are annualized based on the six-month figures for the period.

Funds from operations: Net income (excluding Gains and Losses on sales of real estate properties) + Depreciation and amortization

Net operating income from property leasing activities: (Revenue from property leasing – Rental expenses) + Depreciation and amortization

Funds from operations per unit: (Net income (excluding Gains and Losses on Sales of real estate Properties) + Depreciation and amortization) / Weighted average number of units issued and outstanding during the period

ROA: Ordinary income / (Initial total assets + Total assets at end of period) ÷ 2

ROE: Net income / (Initial net assets + Net assets at end of period) ÷ 2

LTV: Interest-bearing debt / Total assets

5. Payout ratio figures are calculated to one decimal place only.

6. Number of real estate properties means units generally perceived to be one office building. Number of tenants means gross number of tenants by building. Occupancy rate, end-tenant basis, is the weighted average of month-end occupancy rate on a floor space basis.

## Management's Discussion and Analysis

### 1. Distribution for the Current Period

Distribution per unit for the current period was ¥11,500. NBF expects to distribute almost all retained earnings at the current period end remaining after deducting the amount appropriated to the reserve for advanced depreciation of replacing specified assets as stipulated in Article 65-7 of the Act on Special Measures Concerning Taxation to be eligible for special tax treatment (Article 67-15 of the Act on Special Measures Concerning Taxation) that allows NBF to deduct its cash dividends of profits from taxable income.

### 2. Changes in Assets, Liabilities and Net Assets

#### Assets

As of December 31, 2022, total assets increased by ¥1,019 million to ¥1,368,739 million compared with June 30, 2022. Return on average total assets (ROA) for the six months ended December 31, 2022 decreased to 1.5 percent from 1.9 percent for the previous six-month period.

Current assets increased by ¥4,348 million to ¥17,169 million compared with June 30, 2022. Real estate properties decreased by ¥3,935 million to ¥1,309,095 million compared with June 30, 2022. Intangible assets decreased by ¥35 million to ¥35,711 million compared with June 30, 2022.

#### Liabilities

Current liabilities decreased by ¥16,324 million to ¥74,160 million compared with June 30, 2022, primarily because of a decrease in Long-term debt due within one year compared with June 30, 2022.

Long-term debt increased by ¥20,000 million to ¥517,500 million compared with June 30, 2022.

As a result, total interest-bearing liabilities increased by ¥3,000 million to ¥577,500 million compared with June

30,2022. The ratio of long-term debt (for which the redemption period at the time of contract or issuance is more than one year) to total interest-bearing liabilities was 100 percent same as for the previous six-month period.

The loan-to-value ratio, calculated as the ratio of interest-bearing liabilities to total assets, increased to 42.2 percent as of December 31, 2022 from 42.0 percent as of June 30, 2022.

Notes:

1. Interest-bearing liabilities mean "Short-term loans", "Long-term debt due within one year" and "Long-term Debt".

### Net assets

Net assets decreased by ¥2,633 million to ¥706,521 million compared with June 30, 2022.

## 3. Funding

### *Balance of Paid-in Capital*

NBF was established on March 16, 2001 with initial paid-in capital of ¥100 million. NBF began investing activities in May 2001 after ¥98,800 million was raised through private placements. As of December 31, 2022, NBF had issued 1,700,991 units out of 4,000,000 total authorized units. NBF's units were listed on the J-REIT section of the Tokyo Stock Exchange in September 2001 upon the completion of a public offering. As the Investment Trust Law of Japan does not contain any provision for the issue of more than one class of units, NBF's units comprise the sole class of units authorized and issued by NBF.

<b>Total borrowings</b>					¥520,500

Notes:

1. With respect to the date of repayment in case of more than one short-term loan from the same lender, the earliest date of repayment for all such loans coming due is given.
2. Interest Rate is rounded down to the 3rd decimal point.
3. Use of funds for the above includes acquisition of real estate or beneficiary interests, repayment of borrowings and working capital, etc.
4. A special agreement attached to "Loan Agreement" entered into between NBF and each financial institution provides that the above borrowings from all financial institutions rank pari passu to each other.
5. This loan is a floating rate loan. Other long-term loans are all fixed rate loans.
6. The total amount of long-term loans (i.e. excluding those expected to be repaid within one year) repayable within 5 years of the date of the balance sheet and expected to be repaid by specific year(s) is as follows:

## NIPPON BUILDING FUND INC.

### Notes To Financial Statements

For the six months ended December 31, 2022, June 30, 2022 and December 31, 2021

#### **Note 1 – Organization and Basis of Presentation**

---

##### ***Organization***

Nippon Building Fund Inc. (hereinafter "NBF") was formed on March 16, 2001 as an investment corporation under the Law Concerning Investment Trusts and Investment Corporations of Japan (hereinafter the Investment Trust Law of Japan) with Mitsui Fudosan Co., Ltd., Sumitomo Mitsui Trust Bank, Limited., and Nippon Building Fund Management Ltd. (hereinafter "NBFM") acting as sponsors. Registration with the Kanto Local Finance Bureau of the Ministry of Finance was completed on May 10, 2001 and NBF started acquisition of office properties on May 23, 2001.

NBF is an externally managed real estate fund, formed as an investment corporation. NBFM, as NBF's asset management company, is engaged in acquiring, managing, leasing, and renovating office properties. Mitsui Fudosan Co., Ltd. currently owns 46% of NBFM while Sumitomo Life Insurance Company owns 35% and the remaining 19% is mainly owned by financial institutions.

On September 10, 2001, NBF had raised approximately ¥50,000 million through an initial public offering of units. Those units are listed on the J-REIT section of the Tokyo Stock Exchange.

As of December 31, 2022, NBF had ownership or beneficiary interests in 71 office properties containing approximately 1,219,233 square meters of rentable office space. As of December 31, 2022, NBF had leased office space to 1,547 tenants engaged in a variety of businesses. The occupancy rate for the office properties was approximately 96.1%.

##### ***Basis of Presentation***

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Law of Japan and the Japanese Financial Instruments and Exchange Law and their related accounting regulations, and in conformity with accounting principles generally accepted in Japan (hereinafter "Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements have been restructured and translated into English from the financial statements of NBF prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Law. Some supplementary information included in the statutory Japanese language financial statements, but not required for fair presentation, is not presented in the accompanying financial statements. NBF does not prepare consolidated financial statements, as NBF has no subsidiaries.

## Note 2 – Summary of Significant Accounting Policies

### ***Cash and Cash Equivalents***

NBF considers all highly liquid investments with original maturity of three months or less to be cash and cash equivalents.

### ***Real Estate Properties***

Real estate properties are recorded at cost, which includes the allocated purchase price, related costs and expenses for acquisition of the office properties and the beneficiary interests of properties in trust. Property and equipment balances are depreciated using the straight-line method over the estimated useful lives. The estimated useful lives of the principal tangible fixed assets (including assets held in trust) are as follows:

Buildings and improvements including trust accounts	
Buildings and improvements	2-50 years
Other tangible assets	
Structures	2-50 years
Machinery and equipment	2-17 years
Tools, furniture and fixtures	2-20 years

Costs related to the renovation, construction and improvement of properties are capitalized. Expenditures for repairs and maintenance which do not add to the value or prolong the useful life of a property, are expensed when incurred.

### ***Investment Corporation Bond Issuance Costs***

Deferred investment corporation bond issuance costs are amortized using the straight-line method over the respective terms of the bonds.

### ***New Investment Units Issuance Costs***

The issuance costs of new investment units are expensed when incurred.

### ***Income Taxes***

Income taxes are accounted for on the basis of income for financial statement purposes. The tax effect of temporary differences between the amounts of assets and liabilities for financial statements and for income tax purposes is recognized as deferred taxes.

### ***Revenue Recognition***

The main performance obligations related to revenue arising from contracts with customers of NBF and the normal time for satisfying such performance obligations (the normal time for recognizing revenue) are as follows:

(1) Sales of real estate properties

NBF recognizes revenue from the sale of real estate properties when the purchaser, as the customer, obtains control of the real estate property by fulfilling the delivery obligations stipulated in the contract for the sale of real estate property. In the statements of income, “Gains on sales of real estate properties” or “Losses on sales of real estate properties” is presented as the amount obtained by deducting “Cost of sale of real estate property” which is the book value of the real estate sold, and “Other related sale expenses” which are various costs directly incurred in the sale, from “Proceeds from sale of real estate property” which is the proceeds from the sale of real estate.

(2) Utilities income

NBF recognizes utilities income based on the supply of electricity, water, etc. to the lessee as the customer in accordance with the terms of the real estate lease contract and related agreements. In the income statement, it is presented as “Other revenues related to property leasing”, and it is presented as “Incidental income” in the notes to the statements of income.

### ***Real Estate Taxes***

Real estate taxes are imposed on properties on a calendar year basis and expensed when incurred. In terms of newly purchased properties, NBF capitalizes a portion of the real estate taxes that relate to a period from the purchase date of each property until the end of the calendar year as part of the acquisition cost of the relevant property. Capitalized real estate taxes amounted to ¥9 million for the period ended December 31, 2022, ¥277 million for the period ended June 30, 2022 and ¥55 million for the period ended December 31, 2021.

### ***Accounting Treatment of Beneficiary Interests in Trust Assets including Real Estate***

For trust beneficiary interests in real estate, all accounts of assets and liabilities within assets in trust as well as all income generated and expenses incurred from assets in trust are recorded in the relevant balance sheet and income statement accounts.

---

## **Note 3 – Financial Instruments**

### ***Status of Financial Instruments***

#### *Policy for Financial Instruments*

NBF procures funds for acquisition of assets and repayment of debt, which includes repayment of tenant security deposits, loans and investment corporation bonds, through issuance of new investment units, bank loans and issuance of investment corporation bonds, with the aim of ensuring steady asset growth and stable earnings from a mid- and long-term angle.

As a general rule NBF invests surplus funds in deposits considering safety of the investments.

NBF may enter into derivative transactions solely for the purpose of reducing interest rate risks and other risks arising from liabilities. NBF does not engage in speculative transactions. Currently NBF is not engaged in any derivative transactions.

#### *Financial Instruments, Their Risks and Risk Management System*

Deposits are used for investment of NBF's surplus funds. These deposits are exposed to credit risks such as bankruptcy of the depository financial institutions. NBF limits credit risk by using only short-term deposits in financial institutions with high credit ratings.

Proceeds from loans and investment corporation bonds are used mainly to acquire real estate properties and repay outstanding loans and bonds. While these loans and bonds are exposed to liquidity risk, such risk is managed in the following ways such as diversifying the means of funding and lending institutions, dispersing repayment dates, establishing committed credit line, keeping sufficient liquidity in hand, and monitoring cash flows projected monthly.

Floating rate loans are exposed to interest-rate fluctuation. NBF limits the impact of such risks by maintaining the ratio of interest-bearing liabilities to total assets low and the level of long-term fixed-rate debt high.

Tenant security deposits are exposed to liquidity risk arising from vacating of properties by tenants due to the termination of contract. NBF manages this risk by monitoring forecasted cash flows on a monthly basis to ensure it has sufficient funds.

#### *Supplemental Explanation regarding Fair Values of Financial Instruments*

Since the fair value of financial instruments is calculated based on certain assumptions, different assumptions and factors could result in a different value.

### Estimated Fair Value of Financial Instruments

Book value, fair value and difference between the two as of December 31, 2022 are as follows.

Since “Cash and cash equivalents” and “Short-term loans” are cash and due to be settled in a short period, and their fair values approximate their book values, the notes are omitted.

(For the six months ended December 31, 2022)

(Yen in millions)

	Book value	Fair value	Difference
(1) Long-term debt due within one year	¥ 52,000	¥ 52,161	¥ 161
(2) Long-term debt	517,500	508,459	(9,040)

Notes:

#### 1. Methods to Estimate Fair Value of Financial Instruments

##### (1) Long-term debt due within one year

Long-term debt due within one year which includes Investment corporation bonds and Long-term loans are as follows:

(For the six months ended December 31, 2022)

(Yen in millions)

	Book value	Fair value	Difference
(1) Investment corporation bonds	¥10,000	¥10,045	¥45
(2) Long-term loans	42,000	42,116	116
Total	¥52,000	¥52,161	¥161

##### (1) Investment corporation bonds

Fair values of investment corporation bonds are based on observable market value, if available. When there is no observable market value available, fair values are calculated based on the present value of principal and interest cash flows discounted at the current interest rate that is estimated by taking into consideration the remaining term of the investment corporation bonds and their credit risk.

##### (2) Long-term loans

Fair values of floating rate long-term loans are based on the book values because the market interest rates are reflected within a short term period and the book values are considered to approximate fair values. Fair values of fixed rate long-term loans are based on the present value of principal and interest cash flows discounted at the current interest rate estimated to be applied if similar new loans were entered into.

##### (2) Long-term debt

Long-term debt which includes Investment corporation bonds and Long-term loans are as follows:

# Independent auditor's report

**To the Board of Directors of Nippon Building Fund Inc.:**

## Opinion

We have audited the accompanying financial statements of Nippon Building Fund Inc. (“the Corporation”), which comprise the balance sheets as at December 31, 2022 and June 30, 2022, and the statements of income, statements of changes in net assets and statements of cash flows for each of the six months ended, December 31, 2022, June 30, 2022 and December 31, 2021, and a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 2022 and June 30, 2022, and its financial performance and cash flows for each of the six months ended, December 31, 2022, June 30, 2022 and December 31, 2021 in accordance with accounting principles generally accepted in Japan.

## Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Emphasis of Matter

We draw attention to Note 17 to the financial statements, which states that the Corporation entered into agreements regarding acquisition of properties, disposed a property, and entered into an agreement regarding disposition of a property. Our opinion is not modified in respect of this matter.

## Other Information

The other information comprises the information included in the Semi-Annual Report, but does not include the financial statements and our auditor's report thereon. Management is responsible for the preparation and presentation of the other information. Supervisory Directors are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## Responsibilities of Management and Supervisory Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

Supervisory directors are responsible for overseeing the executive directors' performance of their duties with regard to the design, implementation and maintenance of the Corporation's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the financial statements are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with executive director regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide executive director with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with him all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Corporation which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.
