3. Investment Results and Outlook

Investment policy: Stable growth of distribution per unit (DPU)

Internal Growth / Office Leasing Market

[Market Recognition]

- Although the rise in the vacancy rate appears to be slowing down, watch for the future large supply of the central Tokyo area
- Tenant demand for high-spec offices increase in anticipation of post-COVID-19
- Cost increase due to higher electricity and materials prices and yen depreciation

[NBF policy]

- Leasing strategy that prioritizes occupancy rate
- Large tenants have moved out
→ Cruising occupancy rate in the **97% range**

External Growth / Office Trading Market

[Market Recognition]

- Acquisition demand remains strong due to participation of diverse players
- No increase in cap rates due to higher interest rates

[NBF policy]

- Continue to acquire highly competitive properties while closely monitoring interest rate trends
- Continue to improve portfolio quality through property replacement

Finance / Financial Markets

[Market Recognition]

- Higher debt financing costs due to higher interest rates
- Investment unit prices have softened since the Bank of Japan's review of yield curve control operations

[NBF policy]

- Implement appropriate equity financing at the timing of property acquisitions; and control of LTV levels
- Continuation of good relationship with lenders and implement debt financing with attention to the diversification of repayment dates

Use of retained earnings and gains on transfers*

[NBF policy]

- Realize unrealized gains by replacing properties and use them to pass profits on to unitholders
- Utilizing retained earnings, provide unitholders with further distribution when the rental market recovers
- **Set the lower limit of DPU for the time being at 11,500 yen**

*Actual figures may vary due to changes in circumstances. The amount of distributions is not guaranteed.

The forecast figures for the period ending June 30, 2023 (44th period) and the period ending December 31, 2022 (43rd period) are the current figures calculated based on certain assumptions, and the actual figures may vary from these figures due to changes in circumstances. The amount of distributions is not guaranteed.

Distribution per unit

Stabilize distributions per unit by utilizing retained earnings and gains from transfers

Distribution Policy: Assumptions for Earnings Forecasts

- For the time being, we set the minimum distribution per unit (DPU) at **11,500 yen** and manage to stabilize the DPU.

Retained earnings

(Billions of yen)

*1 It is assumed that 379 million yen in the 44th fiscal period and 2,282 million yen in the 45th fiscal period will be withdrawn from retained earnings, resulting in a balance of 11.2 billion yen.

● Tenants by Industry²

(As of December 31, 2022)

¹ Mitsui Fudosan Co., Ltd. generally subleases the properties noted in the table that it leases from NBF, although it uses some of the floor space itself.

Mitsui Fudosan pays rent to NBF after deducting a fixed percentage of the rent it receives from sublease tenants (some of the leased properties are excluded).

² The asset management company has classified the type of industry based on the industry classification codes of the Securities Identification Code Committee. Industry classification includes sublease tenants.

*Serviced apartments and housing are excluded from the area of tenants moving in and out.
