# Solid Management for Stable Returns

# Profile

On September 10, 2001, Nippon Building Fund Inc. (NBF) became the first Japanese real estate investment trust (J-REIT) investment corporation with its listing on the J-REIT section of the Tokyo Stock Exchange. Today, NBF has the largest market capitalization and assets under management among J-REITs.

NBF employs funds raised through shareholder subscriptions and borrowing to invest in real estate, real estate-backed securities, trust beneficiary rights and other assets with the objective of sustainable growth in portfolio value and stable profits on a medium-to-long-term basis. Its fiscal periods are six months long. NBF primarily invests in office buildings in the central business districts of Tokyo, Greater Tokyo and other cities in Japan. The Investment Trust Law of Japan requires an external entity to manage the assets of an investment corporation; NBF entrusts asset management to Nippon Building Fund Management Ltd. (NBFM). NBF maintains a close relationship with NBFM's major shareholder Mitsui Fudosan Co., Ltd., and employs this company's expertise to invest in carefully selected, high-quality properties, with the aim of generating further asset growth.

NBF acquired the Surugadai Project (tentative name) for ¥20.8 billion in April 2009. NBF had already completed a purchase contract for the project before its completion. The Surugadai Project is a prime, high-spec property located in Chiyoda-ku, Tokyo, where the number of largescale office buildings is growing.

Over the 15 periods, or roughly seven and a half years, since its listing on the J-REIT section of the Tokyo Stock Exchange in September 2001, NBF has established a track record of stable profit distribution.

As a result of steady growth, NBF has built a solid position in the J-REIT market from several perspectives, including scale advantage, portfolio scope, financial stability and level of return.

NBF will continue to make maximum use of its strengths and competitive advantages, as well as the expertise of Mitsui Fudosan Co., Ltd., to steadily increase value for shareholders.

# Performance during the Six Months Ended December 31, 2008

Due to occupancy at properties acquired during the 15th Period, distribution per share was ¥22,252.

During the six months ended December 31, 2008 (the "15th Period"), uncertainty about the outlook for the Japanese economy increased as turmoil in global financial markets stemming from the U.S. subprime mortgage crisis accelerated.

In the office building leasing market, vacancy rates trended upward nationwide and rents for new tenants decreased, particularly for higherpriced properties. However, we believe that NBF's portfolio of highly competitive office buildings limited the impact of these factors on its performance.

In the real estate acquisition market, properties for sale are forecast to increase due to changes in financial conditions. NBF will maintain its policy of investing selectively in outstanding properties. Under this policy, NBF acquired two properties (total acquisition price: ¥37.1 billion) during the 15th Period, resulting in a portfolio comprising 60 properties with a total investment value of ¥762.3 billion on an acquisition price basis as of December 31, 2008.

Based on its sound financial strategy, NBF aims for steady distributions to shareholders over the medium-to-long term by generating well-balanced internal and external growth.

Operating revenues for the six months ended December 31, 2008 increased 3.8 percent, or ¥1,130 million, compared with the previous sixmonth period to ¥31,218 million. Operating revenues increased due to occupancy at properties acquired during the 15th Period and other factors, although ¥868 million from the sale of properties recorded in the previous six-month period did not recur. Operating income increased 0.4 percent, or ¥62 million, to ¥14,591 million. Net income decreased 1.3 percent, or ¥161 million, to ¥12,061 million. Distribution per share decreased ¥297 to ¥22,252.

# Initiatives to Generate Internal Growth

# NBF sets appropriate rents to prevent a decrease in occupancy.

Amid an increase in vacancy rates throughout Japan, the vacancy rate was relatively low in the central business districts (CBDs) of Tokyo, NBF's core investment area. The occupancy rate of NBF's properties was 96.8 percent as of December 31, 2008. However, with a downward trend in demand from new tenants and a longer time required from solicitation to contract, NBF will base its operations on maintaining its occupancy rate by

setting rents in response to the market and other measures.

In addition, through an ongoing focus on raising rents at lease contract negotiation, NBF achieved rent increases totaling ¥30 million per month from existing tenants at below-market rates during the 15th Period.

# Initiatives to Generate External Growth

NBF generates steady external growth by selectively investing in outstanding properties to build a strong portfolio.

In the real estate market, although properties for sale increased as the balance of supply and demand loosened, the top-quality buildings that NBF targets remained scarce.

Under these conditions, we will continue to make the most of the information pipeline we have built to date to strengthen our portfolio by investing selectively in outstanding properties. During the 15th Period, we acquired the Shibakouen Takahashi Building (acquisition price: ¥6,100 million) and the NBF Minami-Aoyama Building (acquisition price: ¥31,000 million). We also decided to acquire the Higashi-Ueno 4-chome Building (tentative name) (scheduled date of transfer: April 2010, acquisition price: ¥11,175 million).

We will continue to base our consideration on selective investments and the replacement of existing properties.

# Financial Strategies

# Continuing to implement a conservative approach to financial operations

With the tightening of credit worldwide, fund procurement is becoming more challenging as financial institutions take a more cautious stance on investment and the procurement spread widens.

Under these conditions, NBF will continue to implement a conservative approach to financial operations, maintaining a targeted LTV (loan-to-value) ratio between 40 percent and 50 percent, with 60 percent as the maximum. With respect to procurement, NBF will utilize long-term fixed interest loans that disperse the repayment methods.

# Fundamental Management Policies and Outlook

Deploying its sound financial strategy, NBF aims for steady growth of distributions to shareholders over the medium-to-long term, with continued wellbalanced internal and external growth.

(Von in milliona)

In the six months ending June 30, 2009 (the "16th Period"), amid an uncertain outlook for the Japanese economy, we will set appropriate rents to maintain our occupancy rate while further strengthening our portfolio by investing selectively in outstanding properties.

Through these initiatives, for the 16th Period, NBF projects operating revenues of ¥30,658 million, operating income of ¥13,853 million, net income of ¥11,111 million and a distribution of ¥20,500 per share. For the six months ending December 31, 2009 (the "17th Period"), we project operating revenues of ¥30,526 million, operating income of ¥13,583 million, net income of ¥10,623 million, and a distribution of ¥19,600 per share. (These projections are valid as of February 13, 2009 and assume no acquisitions or transfers of buildings other than those under contract at that time, and no issue of new shares.)

As Japan's first and largest J-REIT, NBF aims for steady distributions to shareholders over the medium-to-long term by generating wellbalanced internal and external growth, based on our sound financial strategy and on making the most of our relationship with Mitsui Fudosan Co., Ltd. and the high level of management know-how we have accumulated since our establishment.

# Solid Management for Stable Returns

# Stable Asset Management

# Vacancy Rate in Tokyo CBDs, Osaka CBDs and Nagoya CBDs

# Occupancy Rate for NBF Properties

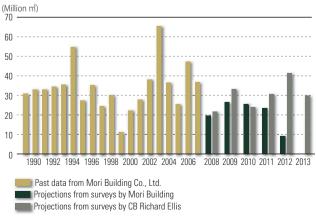

We will work to maintain our occupancy rate by setting rents that are responsive to market conditions.

# Office Building Leasing Market: Vacancy Rate

Although the vacancy rate of the office building leasing market has been low over the last several years, it has been rising nationwide as uncertainty about the economic outlook increases. However, the vacancy rate is relatively low in the central business districts (CBDs) of Tokyo, NBF's core investment area, where the supply of new office buildings is limited. The period from tenant withdrawal to new lease completion has begun to show signs of lengthening, though, as office demand declines in tandem with worsening corporate performance.

# **NBF's Initiatives**

Under these conditions, maintaining the occupancy rate is a priority issue for NBF, which will focus on preventing a decrease by setting rents that are responsive to market conditions. Nevertheless, NBF is factoring in a slight decline in its occupancy rate in light of growing uncertainty about Japan's economic outlook. Although the rate for the 15th Period was 96.8 percent, NBF forecasts a rate of 96.2 percent for the 16th Period and 95.8 percent for the 17th Period.

# Office Floor Space Supply in Greater Tokyo

Note: Compiled by Nomura Securities Financial & Economic Research Center using data from Mori Building and CB Richard Ellis

# Office Building Leasing Market: Average Asking Rents

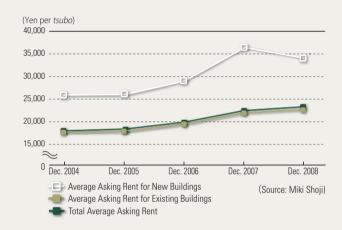

Average asking rents, which had increased over the last several years, are on a downward trend due to a decline in office demand in a weak Japanese economy. In particular, asking rents for new large-scale office buildings in Tokyo CBDs have declined significantly. However, rents have remained stable overall with steady average asking rents for existing properties, which comprise the majority of buildings in Tokyo.

NBF's portfolio is structured to diversify rent levels. It remains stable due to the relatively slight impact of the drop in average asking rents in the leasing market, particularly evident among high-priced properties, because over half of the portfolio's contracts are for less than ¥25,000 yen per *tsubo* per month.

# NBF's Outlook

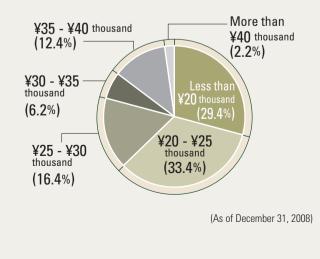

Among overall weakness in the leasing market, setting appropriate rents is essential to maintaining the occupancy rate, a priority issue for NBF. NBF achieved rent increases totaling ¥30 million per month in the 15th Period. However, given recent conditions in the leasing market, NBF will take a flexible stance on rent negotiations, and assumes that internal growth will remain flat, with rent decreases paralleling rent increases. Taking a more conservative stance, NBF forecasts that total monthly rents will decrease ¥5 million in the 16th Period and increase ¥5 million in the 17th Period.

# Average Asking Rents in Tokyo CBDs

# A Wider Range of NBF Rents

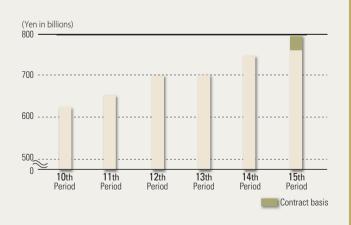

(Monthly Rent per tsubo at Lease Renewal)

# Selective Investment

# **Steady and Continuous External Growth** (Acquisition Price – Contract Basis)

Selectively invest in outstanding properties while also considering portfolio turnover.

# **Real Estate Acquisition Market**

The number of properties for sale has been increasing since 2008 amid changes in global financial conditions and the effect of worsening economic sentiment on the real economy. However, buildings of the outstanding quality that NBF targets remain scarce.

# **NBF's Selective Investment**

In an environment of financial crisis and economic slowdown, NBF recognizes the need to be extremely cautious in new investment but also sees excellent opportunities to acquire high-quality assets with high returns. Therefore, NBF will continue to selectively invest in outstanding assets based on strict guidelines while also considering asset turnover.

Guided by these basic policies, NBF acquired two properties in the 15th Period. In July 2008 NBF acquired the Shibakouen Takahashi Building (acquisition price: ¥6,100 million), and in August 2008 it acquired the NBF Minami-Aoyama Building (acquisition price: ¥31,000 million) and completed a contact to acquire the Higashi-Ueno 4-chome Building (tentative name) (acquisition price: ¥11,175 million, scheduled date of transfer: April 2010). The Shibakouen Takahashi Building and the NBF Minami-Aoyama Building are located in Tokyo CBDs and have contributed to earnings with 100 percent occupancy rates since NBF took possession.

NBF will work to increase its portfolio quality through selective investments, including turnover of properties.

# NBF will maintain a conservative approach to financial management.

# Fund Raising Conditions for J-REITs

Loan procurement has become more difficult with the negative stance on lending to companies in the real estate sector taken by financial institutions since the collapse of Lehman Brothers in September 2008. Refinancing is a collective concern within the J-REIT industry in this environment.

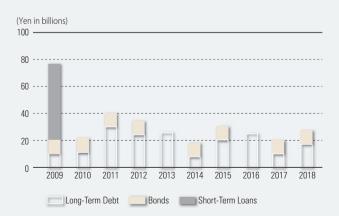

# **NBF's Strong Financial Foundation**

In consideration of the above, NBF will maintain positive relationships with financial institutions and continue to take a conservative financial approach. Specifically, NBF has set a targeted LTV (loan-to-value) ratio between 40 and 50 percent, with 60 percent as the maximum. The LTV ratio as of the end of the 15th Period was 45.5 percent. To deal with refinancing risk, NBF will procure long-term fixed-rate loans. The ratio of fixedrate long-term debt to total interest-bearing liabilities as of December 31, 2008 was 76.0 percent, compared with a target of 80 to 90 percent. Furthermore, in addition to dispersing repayment periods, NBF has established a commitment line totaling ¥50.0 billion to secure a stable foundation for loan procurement. In addition to these initiatives, NBF has earned the approval of its robust group of sponsor companies, including Sumitomo Life Insurance Company, Sumitomo Mitsui Banking Corporation and the Chuo Mitsui Trust and Banking Company, Limited as well as Mitsui Fudosan Co., Ltd., and high ratings from ratings organizations.

Notes: 1. Percentage of total revenues is the ratio of revenue from each office property to total revenues from all office properties. 2. Consent for disclosure was not obtained from tenants from whom rent revenue accounts for more than 80% of total rent revenue for the property. However, relevant figures are included in the total. 3. Figures stated above are based on NBF's ownership interest. 4. This figure does not include the Nakanosakaue Sunbright Annex, in which NBF has 50.3% ownership interest.

### (As of December 31, 2008)

Corporate Structure and Management

Nippon Building Fund Inc. (NBF) is an investment corporation that takes a medium-to-long-term perspective with the aim of generating steady asset growth and stable earnings. NBF believes that fair, transparent management is central to increasing return on investment.

# Nippon Building Fund Inc.

Nippon Building Fund Inc. is an investment corporation established with the objective of investing in assets, primarily Designated Assets as defined by the Investment Trust Law of Japan. NBF entrusts management of its assets to Nippon Building Fund Management Ltd., which is an asset management company.

NBF's primary investment objective is to achieve sustainable growth in portfolio value and stable profits on a medium-to-long-term basis. NBF achieves this objective by investing in real estate consisting of buildings primarily used for offices with their underlying land located in the central business districts (CBDs) of Tokyo, Greater Tokyo and other cities in Japan. NBF also invests in securities, beneficiary certificates representing beneficial interests in trusts (beneficiary certificates) and other assets backed by office properties.

### General Meeting of Shareholders

Specific matters pertaining to NBF that are subject to the Investment Trust Law of Japan or the Company's articles of incorporation are decided by resolution of the General Meeting of Shareholders, which convenes at least once every two years, in principle. The sixth General Meeting of Shareholders convened on March 12, 2009. The date of the next General Meeting of Shareholders has not been set.

The General Meeting of Shareholders adopts or vetoes resolutions on the basis of a simple majority of the voting rights of shareholders in attendance, unless otherwise stipulated by laws, regulations or NBF's articles of incorporation. Decisions on substantive matters such as changes in the articles of incorporation require the attendance of shareholders that control a simple majority of total shares issued and outstanding, and a two-thirds majority of the voting rights of such shareholders. In addition, any change in the asset management policies and standards, which are stipulated by NBF's articles of incorporation, requires an extraordinary resolution of shareholders as outlined above.

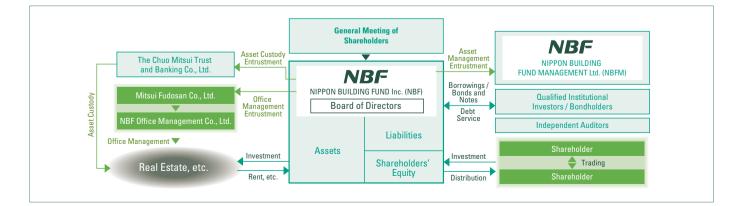

# Executive Directors, Supervisory Directors and the Board of Directors

NBF's articles of incorporation stipulate that NBF must have one or more executive directors and four or fewer supervisory directors (but the number of supervisory directors must always be at least one greater than the number of executive directors). As of December 31, 2008, NBF had two executive directors and four supervisory directors.

NBF's executive directors are responsible for business execution. In addition, they have authority for all judicial and extrajudicial proceedings related to the operations of NBF.

Supervisory directors are responsible for supervising execution by the executive directors.

The Board of Directors consists of the executive and supervisory directors. Its responsibilities include authorizing business execution and supervising the performance of the executive directors. Resolutions by the

Board of Directors require a simple majority with more than half of the members of the Board in attendance.

The bylaws of NBF's Board of Directors stipulate that executive and supervisory directors may not participate in decisions in which they have a vested interest. Executive and supervisory directors with such financial interest shall not be included in the number of executive and supervisory directors in attendance for such decisions.

The terms of office of executive directors and supervisory directors are

two years from the time they assume office. The terms of executive directors and supervisory directors selected to fill a vacancy or because of an increase in the number of directors expire at the same time as the remaining terms of their predecessors or the current directors. Both of the two executive directors and all four supervisory directors were elected at the General Meeting of Shareholders held on March 12, 2009, and assumed office on March 17, 2009.

# Compliance Initiatives

The management of NBF and Nippon Building Fund Management Ltd. conduct honest and appropriate business activities while maintaining rigorous compliance by adhering to all relevant laws and regulations, based on a high level of corporate ethics.

The bylaws of NBF's Board of Directors stipulate that Board of Directors meetings are to be held at least once every three months. In practice, NBF holds such meetings once a month. At Board meetings, executive directors report on their execution of their duties and supervisory directors ensure that oversight and check-and-balance systems are functioning properly.

Nippon Building Fund Management Ltd. views compliance as a management strategy, with a fundamental compliance policy of conducting operations honestly and fairly while maintaining a rigorous compliance system based on a high level of corporate ethics. Specifically, Nippon Building Fund Management Ltd. has established a Compliance Committee, consisting of the Compliance Officer, the president, the head of the Investment & Finance Group, the head of the Corporate Operation Group and an outside committee member. Initiatives to enhance awareness of and adherence to compliance include the establishment of Compliance Rules and a Compliance Manual. In addition, a Compliance Program is formulated each year to verify the progress of the execution plan for that year and identify any problem areas.

### Risk Management System

NBF and Nippon Building Fund Management Ltd. have established the following risk management system to avoid and minimize risks related to investments.

NBF

NBF's Risk Management Regulations define risk management policies and procedures. The Risk Management Board convenes once every three months and undertakes deliberation, monitoring and other initiatives to ensure that the entrusted asset manager is conducting its duties with due care in good faith in a manner consistent with its fiduciary duty to the conservation and maintenance of entrusted assets.

### Nippon Building Fund Management Ltd.

Nippon Building Fund Management Ltd. formulates a Management Policy, a Medium-to-Long-Term Asset Management Policy and an Annual Management Plan to follow in managing NBF's assets. In addition, Nippon Building Fund Management Ltd. has set Asset Management Guidelines as a set of standards to follow. The Asset Management Guidelines consist of management guidelines for management, acquisition and sale of assets; financial guidelines for fund procurement and management policies; accounting guidelines for tax accounting and dividend distribution policies; and guidelines on transactions with potential conflicts of interest.

# Policy and Management System for Dealing with Conflict of Interest Transactions

### Fundamental Policy on Conflict of Interest Transactions

Nippon Building Fund Management Ltd. is constantly aware of its accountability to NBF and NBF's shareholders with regard to any transactions in which the interests of NBF and the interests of Nippon Building Fund Management Ltd. and its related corporations or customers may conflict. Nippon Building Fund Management Ltd. follows voluntary rules stipulated in laws and internal bylaws to proactively prevent conflicts of interest.

All decisions made in executing the management of NBF's assets are subject to the approval of the president, and are made after going through discussions by the Investment Review Board and Executive Board of Nippon Building Fund Management Ltd. Sponsor companies are not permitted to intervene in the decision-making process.

# Voluntary Rules for Conflict of Interest Transactions Stipulated in Internal Bylaws

Nippon Building Fund Management Ltd. has set voluntary rules in its internal bylaws to address transactions with parties, including sponsor companies that have interests in Nippon Building Fund Management Ltd.

The voluntary rules require the Investment Division, which initiates the transaction, as well as the Compliance Department, the Asset Management Examination Meeting and other units to protect NBF's managed assets and profits by fully examining the transaction contents according to the voluntary rules set in the internal bylaws in the event of a transaction in which the interests of Nippon Building Fund Management Ltd. and parties that have interests in Nippon Building Fund Management Ltd. may conflict with the interests of NBF. These rules are designed from the standpoint of accountability to NBF and its shareholders.

In examining the transaction contents, Nippon Building Fund Management Ltd. solicits the opinions of attorneys, certified tax accountants and other third-party experts as needed. In addition, when purchasing real estate or other assets from parties that have interests in Nippon Building Fund Management Ltd., the purchase price is strictly set, in principle no higher than the appraised value according to a real estate appraiser with no vested interest.

Notes: 1. U.S. dollar amounts are translated from yen, for convenience only, at the rate of ¥90.79 = U.S. \$1.00, the approximate exchange rate on December 31, 2008.

2. Operating revenues do not include consumption tax.

3. All valuations are calculated through the following formulas. The figures in parentheses after ROA and ROE are annualized based on the 6-month figures for the period. Funds from operations: Net income (excluding Gain on sale of investment properties + Gain on exchange of investment properties) + Depreciation and amortization Net operating income from property leasing activities: (Revenue from property leasing – Rental expenses) + Depreciation and amortization

Funds from operations per share: (Net income (excluding Gain on sale of investment properties + Gain on exchange of investment properties) + Depreciation and amortization) / Weighted average number of common shares issued and outstanding during the period.

ROA: Income before income taxes / (Initial total assets + Total assets at end of period) ÷ 2

ROE: Net income / (Initial net assets + Net assets at end of period)  $\div\,2$ 

Loan to value: (Interest-bearing debt + Deposits under management) / Total assets

4. Payout ratio figures are calculated to one decimal place only.

5. Number of investment properties means units generally perceived to be one office building. Number of tenants means gross number of tenants by building. Occupancy rate is the ratio of gross leased area to total rentable area at the end of the period.

# **Operating Environment and Results**

During the six months ended December 31, 2008, Japan's economy weakened further due to the impact on corporate profits, capital investment trends and consumer spending of turmoil in global financial markets stemming from the U.S. subprime mortgage crisis and substantial volatility in stock and currency markets.

The office building leasing market began to weaken with signs of a decrease in the overall occupancy rate, which had remained at a high level for several years, amid increasing uncertainty about the outlook for the Japanese economy.

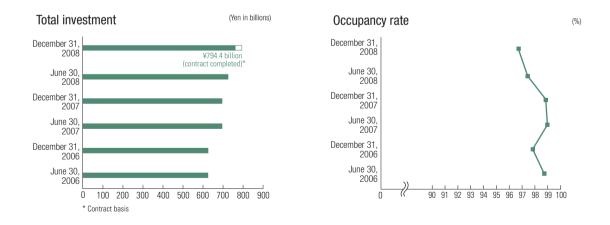

In the real estate acquisition market, demand slackened due to changes in the environment for fund raising including a more cautious stance by financial institutions toward financing, particularly following the collapse of Lehman Brothers in September 2008.

Under these conditions, NBF continued to manage its assets in accordance with its basic policy of investing in high-quality office buildings that are highly competitive in terms of their location, size, facilities and infrastructure and are expected to have relatively stable cash flow from rents based on excellent tenants.

During the 15th Period, NBF made the most of its accumulated expertise and original information channels such as the Mitsui Fudosan Group to conduct rigorous screening of information and careful deliberation in accordance with this policy. As a result, in July 2008 NBF acquired the Shibakouen Takahashi Building (acquisition price: ¥6,100 million), and in August 2008 it acquired the NBF Minami-Aoyama Building (acquisition price: ¥31,000 million) and decided to acquire the Higashi-Ueno 4-chome Building (tentative name) (acquisition price: ¥11,175 million, scheduled date of transfer: April 2010).

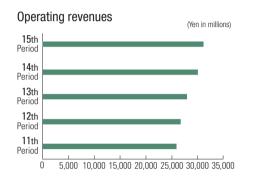

For its portfolio properties, NBF worked to expand internal growth by conducting property management, scheduled renovations and new construction of facilities to increase tenant satisfaction. At the same time, NBF further strengthened profitability by maintaining a sound grasp of the market, setting rent for new tenants and revising rents for existing tenants who renewed their lease contracts.

As a result of these efforts, NBF's real estate portfolio as of December 31, 2008 totaled 60 buildings. Total investment on an acquisition price basis was ¥762,349 million. Total rentable area was 763,658 m<sup>2</sup> (231,006 *tsubo*). The occupancy rate declined 0.6 percentage points from June 30, 2008 to 96.8 percent. Tenants totaled 946.

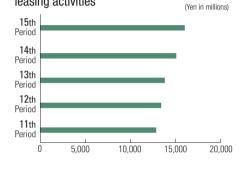

# **Overview of Performance**

Operating revenues for the six months ended December 31, 2008 increased 3.8 percent, or ¥1,130 million, compared with the previous six-month period to ¥31,218 million. Operating revenues increased due to new occupancy in properties acquired during the 15th Period and other factors, although ¥868 million from the sale of properties recorded in the previous six-month period did not recur. Operating income increased 0.4 percent, or ¥62 million, to ¥14,591 million. Net income decreased 1.3 percent, or ¥161 million, to ¥12,061 million. Distribution per share decreased ¥297 to ¥22,252.

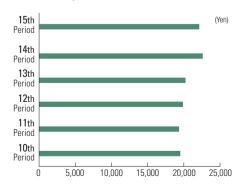

# Distribution for the Current Period

Distribution per share for the current period was ¥22,252. NBF expected to distribute almost all taxable income for the current period to be eligible for special tax treatment (Special Taxation Measures Law of Japan Article 67-15) that allows NBF to deduct its cash dividends of profits from taxable income.

# Total cash distribution

# Changes in Assets, Liabilities and Net Assets

### Assets

As of December 31, 2008, total assets increased ¥40,622 million to ¥766,249 million compared with June 30, 2008. Return on average total assets (ROA) for the six months ended December 31, 2008 decreased to 1.62 percent from 1.75 percent for the previous sixmonth period.

Current assets increased ¥5,649 million to ¥38,547 million compared with June 30, 2008. Investment properties increased ¥34,979 million to ¥723,336 million compared with June 30, 2008.

### Liabilities

Current liabilities increased ¥31,942 million to ¥86,230 million compared with June 30, 2008, primarily because of an increase in short-term loans and long-term debt due within one year compared with June 30, 2008.

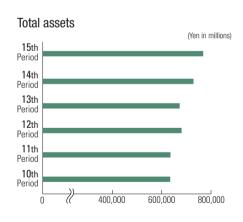

Long-term debt increased ¥8,000 million to ¥242,000 million compared with June 30, 2008.

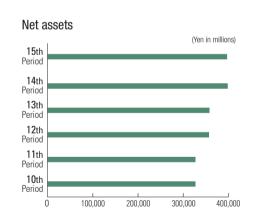

As a result, total interest-bearing liabilities increased ¥38,000 million to ¥318,500 million compared to June 30, 2008. However, the ratio of fixed-rate long-term debt to total interest-bearing liabilities decreased to 76.0 percent from 83.4 percent as of December 31, 2008. The loan-to-value ratio, calculated as the ratio of interest-bearing liabilities plus deposits under management to total assets, increased to 45.5 percent from 42.8 percent as of December 31, 2008.

In addition, NBF worked to diversify funding sources. In January 2007, NBF submitted a shelf registration to publicly offer up to ¥200 billion in bonds. As of December 31, 2008, NBF had issued bonds totaling ¥30 billion under this shelf registration.

### Net Assets

Net assets decreased ¥161 million to ¥398,237 million compared with June 30, 2008.

# Funding

Balance of Paid-in Capital

NBF was established on March 16, 2001 with initial paid-in capital of ¥100 million. NBF began investing activities in May 2001 after ¥98,800 million was raised through private placements. As of December 31, 2008, NBF had issued 542,000 common shares out of 2,000,000 total authorized shares. NBF's common shares were listed on the J-REIT section of the Tokyo Stock Exchange in September 2001 upon the completion of a public offering. As the Investment Trust Law of Japan does not contain any provision for the issue of more than one class of shares, NBF's common shares comprise the sole class of shares authorized and issued by NBF.

Notes: 1. With respect to the date of drawdown and date of repayment in case of more than one short-term loan from the same lender, the earliest date of repayment for all such loans coming due is given.

2. Use of funds for the above includes acquisition of real estate or beneficiary interests, repayment of borrowings and working capital.

3. A special agreement attached to "Loan Agreement" entered into between NBF and each financial institution provides that the above borrowings from all financial institutions rank pari passu to each other.

4. The total amount of long-term borrowings (i.e. excluding those expected to be repaid within one year) repayable within 5 years of the date of the balance sheet and expected to be repaid by specific year(s) is as follows.

### **Capital Expenditures**

#### Planning

As of December 31, 2008, NBF is planning the following capital expenditures for the renovation of its properties. The amounts below include repairs and maintenance costs that will be expensed as incurred. Moreover, in addition to a steady program of expenditures for construction, repair and renovation of facilities, a program of renewal construction is being implemented in order to increase competitive power in the market as well as to increase the level of tenant satisfaction based on the results of tenant satisfaction surveys and neighboring competitive building specification surveys, etc.

#### **Operating Environment and Results**

During the six months ended December 31, 2008, Japan's economy weakened further due to the impact on corporate profits, capital investment trends and consumer spending of turmoil in global financial markets stemming from the U.S. subprime mortgage crisis and substantial volatility in stock and currency markets.

The office building leasing market began to weaken with signs of a decrease in the overall occupancy rate, which had remained at a high level for several years, amid increasing uncertainty about the outlook for the Japanese economy.

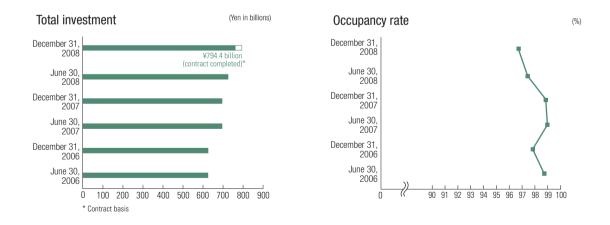

In the real estate acquisition market, demand slackened due to changes in the environment for fund raising including a more cautious stance by financial institutions toward financing, particularly following the collapse of Lehman Brothers in September 2008.

Under these conditions, NBF continued to manage its assets in accordance with its basic policy of investing in high-quality office buildings that are highly competitive in terms of their location, size, facilities and infrastructure and are expected to have relatively stable cash flow from rents based on excellent tenants.

During the 15th Period, NBF made the most of its accumulated expertise and original information channels such as the Mitsui Fudosan Group to conduct rigorous screening of information and careful deliberation in accordance with this policy. As a result, in July 2008 NBF acquired the Shibakouen Takahashi Building (acquisition price: ¥6,100 million), and in August 2008 it acquired the NBF Minami-Aoyama Building (acquisition price: ¥31,000 million) and decided to acquire the Higashi-Ueno 4-chome Building (tentative name) (acquisition price: ¥11,175 million, scheduled date of transfer: April 2010).

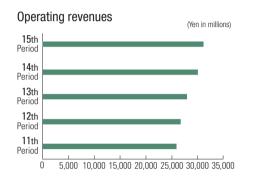

For its portfolio properties, NBF worked to expand internal growth by conducting property management, scheduled renovations and new construction of facilities to increase tenant satisfaction. At the same time, NBF further strengthened profitability by maintaining a sound grasp of the market, setting rent for new tenants and revising rents for existing tenants who renewed their lease contracts.

As a result of these efforts, NBF's real estate portfolio as of December 31, 2008 totaled 60 buildings. Total investment on an acquisition price basis was ¥762,349 million. Total rentable area was 763,658 m<sup>2</sup> (231,006 *tsubo*). The occupancy rate declined 0.6 percentage points from June 30, 2008 to 96.8 percent. Tenants totaled 946.

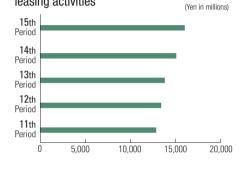

#### **Overview of Performance**

Operating revenues for the six months ended December 31, 2008 increased 3.8 percent, or ¥1,130 million, compared with the previous six-month period to ¥31,218 million. Operating revenues increased due to new occupancy in properties acquired during the 15th Period and other factors, although ¥868 million from the sale of properties recorded in the previous six-month period did not recur. Operating income increased 0.4 percent, or ¥62 million, to ¥14,591 million. Net income decreased 1.3 percent, or ¥161 million, to ¥12,061 million. Distribution per share decreased ¥297 to ¥22,252.

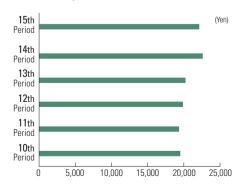

#### Distribution for the Current Period

Distribution per share for the current period was ¥22,252. NBF expected to distribute almost all taxable income for the current period to be eligible for special tax treatment (Special Taxation Measures Law of Japan Article 67-15) that allows NBF to deduct its cash dividends of profits from taxable income.

# Changes in Assets, Liabilities and Net Assets

#### Assets

As of December 31, 2008, total assets increased ¥40,622 million to ¥766,249 million compared with June 30, 2008. Return on average total assets (ROA) for the six months ended December 31, 2008 decreased to 1.62 percent from 1.75 percent for the previous sixmonth period.

Current assets increased ¥5,649 million to ¥38,547 million compared with June 30, 2008. Investment properties increased ¥34,979 million to ¥723,336 million compared with June 30, 2008.

#### Liabilities

Current liabilities increased ¥31,942 million to ¥86,230 million compared with June 30, 2008, primarily because of an increase in short-term loans and long-term debt due within one year compared with June 30, 2008.

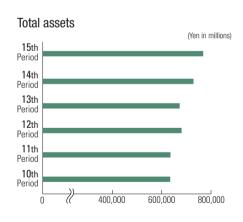

Long-term debt increased ¥8,000 million to ¥242,000 million compared with June 30, 2008.

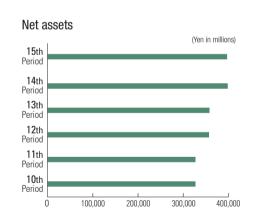

As a result, total interest-bearing liabilities increased ¥38,000 million to ¥318,500 million compared to June 30, 2008. However, the ratio of fixed-rate long-term debt to total interest-bearing liabilities decreased to 76.0 percent from 83.4 percent as of December 31, 2008. The loan-to-value ratio, calculated as the ratio of interest-bearing liabilities plus deposits under management to total assets, increased to 45.5 percent from 42.8 percent as of December 31, 2008.

In addition, NBF worked to diversify funding sources. In January 2007, NBF submitted a shelf registration to publicly offer up to ¥200 billion in bonds. As of December 31, 2008, NBF had issued bonds totaling ¥30 billion under this shelf registration.

#### Net Assets

Net assets decreased ¥161 million to ¥398,237 million compared with June 30, 2008.

### Funding

Balance of Paid-in Capital

NBF was established on March 16, 2001 with initial paid-in capital of ¥100 million. NBF began investing activities in May 2001 after ¥98,800 million was raised through private placements. As of December 31, 2008, NBF had issued 542,000 common shares out of 2,000,000 total authorized shares. NBF's common shares were listed on the J-REIT section of the Tokyo Stock Exchange in September 2001 upon the completion of a public offering. As the Investment Trust Law of Japan does not contain any provision for the issue of more than one class of shares, NBF's common shares comprise the sole class of shares authorized and issued by NBF.

Notes: 1. With respect to the date of drawdown and date of repayment in case of more than one short-term loan from the same lender, the earliest date of repayment for all such loans coming due is given.

2. Use of funds for the above includes acquisition of real estate or beneficiary interests, repayment of borrowings and working capital.

3. A special agreement attached to "Loan Agreement" entered into between NBF and each financial institution provides that the above borrowings from all financial institutions rank pari passu to each other.

4. The total amount of long-term borrowings (i.e. excluding those expected to be repaid within one year) repayable within 5 years of the date of the balance sheet and expected to be repaid by specific year(s) is as follows.

### **Capital Expenditures**

#### Planning

As of December 31, 2008, NBF is planning the following capital expenditures for the renovation of its properties. The amounts below include repairs and maintenance costs that will be expensed as incurred. Moreover, in addition to a steady program of expenditures for construction, repair and renovation of facilities, a program of renewal construction is being implemented in order to increase competitive power in the market as well as to increase the level of tenant satisfaction based on the results of tenant satisfaction surveys and neighboring competitive building specification surveys, etc.

# Notes to Financial Statements

NIPPON BUILDING FUND INC.

For the six months ended December 31, 2008, June 30, 2008 and December 31, 2007

#### Note 1 – Organization and Basis of Presentation

#### Organization

Nippon Building Fund Inc. (hereinafter "NBF") was formed on March 16, 2001 as an investment corporation under the Law Concerning Investment Trusts and Investment Corporations of Japan, or the Investment Trust Law of Japan with Mitsui Fudosan Co., Ltd., The Chuo Mitsui Trust and Banking Co., Ltd., and Nippon Building Fund Management Ltd. (hereinafter "NBFM") acting as sponsors. Registration with the Kanto Local Finance Bureau of the Ministry of Finance was completed on May 10, 2001 and NBF started acquisition of office properties on May 23, 2001.

NBF is an externally managed real estate fund, formed as an investment corporation. NBFM, as NBF's asset management company, is engaged in acquiring, managing, leasing, and renovating office properties. Mitsui Fudosan Co., Ltd. currently owns 43% of NBFM while Sumitomo Life Insurance Company owns 35% and the remaining 22% is mainly owned by financial institutions.

On September 10, 2001, NBF had raised approximately ¥50,000 million through an initial public offering of common shares. Those common shares are listed on the J-REIT section of the Tokyo Stock Exchange.

As of December 31, 2008, NBF had ownership or beneficiary interests in 60 office properties containing approximately 763,658 rentable square meters of office space. As of December 31, 2008, NBF had leased office space to 946 tenants engaged in a variety of businesses. The occupancy rate for the office properties was approximately 96.8%.

#### **Basis of Presentation**

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Law of Japan and the Japanese Financial Instruments and Exchange Law and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan (hereinafter "Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements have been restructured and translated into English from the financial statements of NBF prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Law. Some supplementary information included in the statutory Japanese language financial statements, but not required for fair presentation, is not presented in the accompanying financial statements. NBF does not prepare consolidated financial statements, as NBF has no subsidiaries.

#### Note 2 – Summary of Significant Accounting Policies

#### Cash and Cash Equivalents

NBF considers all highly liquid investments with original maturity of three months or less to be cash and cash equivalents.

#### **Investment Properties**

Investment properties are recorded at cost, which includes the allocated purchase price and related costs and expenses for acquisition of the office properties and the beneficiary interests of properties in trust. Property and equipment balances are depreciated using the straightline method over the estimated useful lives. The estimated useful lives of the principal tangible fixed assets (including assets held in trust) are as follows:

| Buildings and improvements    | 2-50 years |
|-------------------------------|------------|
| Structures                    | 2-50 years |
| Machinery and equipment       | 2-17 years |
| Tools, furniture and fixtures | 2-19 years |
|                               |            |

Costs related to the renovation, construction and improvement of properties are capitalized. Expenditures for repairs and maintenance which do not add to the value or prolong the useful life of a property, are expensed as incurred.

#### Bond Issue Costs

Deferred bond issue costs are amortized using the straight-line method over three years.

#### New Investment Shares Issue Cost

The issue costs of new investment shares are expensed when incurred.

#### **Income Taxes**

Income taxes are accounted for on the basis of income for financial statement purposes. The tax effect of temporary differences between the amounts of assets and liabilities for financial statements and for income tax purposes is recognized as deferred taxes.

#### **Real Estate Taxes**

Real estate taxes are imposed on properties on a calendar year basis and expensed when incurred. In terms of newly purchased properties, NBF capitalizes a portion of the real estate taxes that relate to a period from the purchase date of each property until the end of the calendar year as part of the acquisition cost of the relevant property. Capitalized real estate taxes amounted to ¥68 million for the period ended December 31, 2008 and ¥205 million for the period ended June 30, 2008 and ¥28 million for the period ended December 31, 2007.

#### **Revenue Recognition**

NBF operates office properties that are rented to tenants on lease terms of generally two years, with monthly payments due in advance. Rental and other property income is recorded when due from tenants and is recognized monthly as it is earned. Common area charges provided for in tenant leases are recognized as income when earned and their amounts can be reasonably estimated.

#### Accounting Treatment of Beneficiary Interests in Trust Assets including Real Estate

For trust beneficiary interests in real estate, all accounts of assets and liabilities within assets in trust as well as all income generated and expenses incurred from assets in trust are recorded in the relevant balance sheet and income statement accounts.

#### Reclassifications

Certain reclassifications have been made to prior periods' financial statements to conform with the presentation used for the period ended December 31, 2008.

#### **Finance Leases**

Finance leases that do not transfer ownership of the leased property to lessees are accounted for as operating leases under accounting principles generally accepted in Japan.

# Note 3 – Change in Accounting Policy

#### Application of Accounting Standard for Lease Transactions

The Accounting Standard for Lease Transactions (Accounting Standards Board of Japan Statement No. 13, revised March 30, 2007) and the Guidance on Accounting Standard for Lease Transactions (Accounting Standards Board of Japan Guidance No. 16, revised March 30, 2007) are applied from the period ended December 31, 2008. This had no effect on NBF's income.

### Note 4 – Schedule of Tangible Assets of Investment Properties

Tangible assets as of December 31, 2008 and June 30, 2008 consisted of the following:

|  | As                   | of December 31, 2                     | 2008       |                      | As of June 30, 2008                   |            |

#### Note 9 – Income Taxes

NBF is subject to income taxes in Japan. The effective tax rate on NBF's income based on applicable Japanese tax law was 0.01% for the periods ended December 31, 2008, June 30 2008 and December 31, 2007. The following table summarizes the significant differences between the statutory tax rates and NBF's effective tax rates for financial statement purposes.

|                              | For the six months ended December 31, 2008 | For the six months ended June 30, 2008 | For the six months ended<br>December 31, 2007 |

NBF was established as an investment corporation under the Investment Trust Law of Japan, and as long as an investment corporation distributes to its shareholders at least 90% of taxable income for a period and other requirements prescribed in Japanese tax regulations are met, the investment corporation is allowed to deduct the total amount of dividends paid in calculating its taxable income under Japanese tax regulations.

#### Note 10 – Change In Tax Rate

The statutory tax rate was revised due to a change in corporate business tax rate and the creation of local corporate special tax, which is effective for fiscal years beginning on or after October 1, 2008. As a result, the tax effect of the temporary differences as of December 31, 2008, which are expected to reverse in January 2009 or thereafter, was calculated using the revised statutory tax rate of 39.33%. This change had no material effect on the value of deferred tax assets as of December 31, 2008.

#### Note 11 - Per Share Information

Information about earnings per share for the periods ended December 31, 2008, June 30, 2008 and December 31, 2007 and net assets per share as of December 31, 2008, June 30, 2008 and December 31, 2007 were as follows.

The computation of earnings per share is based on the weighted average number of common shares outstanding during the period. The computation of net assets per share is based on the number of common shares outstanding at each period end.

#### Note 12 - Leases

Under Japanese accounting standards for leases, finance leases that have been deemed to transfer ownership of the leased property to the lessee ("ownership-transfer finance leases") are capitalized by the lessee, while other finance leases ("non-ownership-transfer finance leases") are permitted to be accounted for as operating lease transactions.

NBF treats all non-ownership-transfer finance leases as operating leases. Accordingly, leased assets with respect to non-ownership-transfer finance leases where NBF is the lessee are not recognized in the accompanying balance sheets and lease payments are charged to income when incurred.

#### As Lessee

Pro forma information of non-ownership-transfer finance leases contracted as a lessee, such as acquisition cost and related accumulated depreciation of leased assets, obligation under finance leases and depreciation expense of finance leases, which is required under Japanese accounting standards for leases for the six months ended December 31, 2008 and June 30, 2008 is summarized as follows:

To the Board of Directors of Nippon Building Fund Inc.:

We have audited the accompanying balance sheets of Nippon Building Fund Inc. (a Japanese Real Estate Investment Trust) as of December 31, 2008 and June 30, 2008, and the related statements of income, share-holders' equity and cash flows for each of the six months ended December 31, 2008, June 30, 2008 and December 31, 2007 expressed in Japanese yen. These financial statements are the responsibility of the Company's management. Our responsibility is to independently express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nippon Building Fund Inc. as of December 31, 2008 and June 30, 2008, and the results of its operations and its cash flows for each of the six months ended December 31, 2008, June 30, 2008 and December 31, 2007 in conformity with accounting principles generally accepted in Japan.

# Investment Policies of NBF

#### A. Basic Policies

NBF's primary investment objective is to achieve sustainable growth in portfolio value and stable profits on a mid-term to long-term basis. NBF achieves this objective by investing in real estate consisting of buildings primarily used for offices with their underlying land located in the Tokyo Central Business Districts (hereinafter "CBDs"), Other Greater Tokyo and Other Cities in Japan as well as securities, beneficiary certificates representing beneficial interests in trusts (hereinafter "beneficiary certificates") and other assets backed by office properties (collectively hereinafter "Real Estate, etc.") ("Investment Objectives and Policies," Articles of Incorporation). (Reference to: laws, legal documents, etc. used as the basis or sources hereof are set forth in parenthesis herein.)

#### B. Investment Strategy

Nippon Building Fund Management Ltd. ("NBFM"), based on the investment strategy of NBF set forth below, invests and manages the assets of NBF. NBFM has established asset management guidelines based on the Articles of Incorporation of NBF and in accordance with the investment strategy of NBF.

#### (1) Strategy for Creation of the Portfolio

The goal of the portfolio is to generate steady growth and stable profits on a mid-term to long-term basis. The selection criteria of investment assets is based on the composition of investment assets in the portfolio and based on consideration of a quantitative proportion of the office stock located in the various regions of Japan.

#### **Area Diversification**

The investment strategy of NBF divides the investment area into three areas consisting of Tokyo CBDs, Other Greater Tokyo and Other Cities in such manner that 70% or more of total investment assets (Real Estate, etc.) are allocated to Tokyo CBDs and Other Greater Tokyo and 30% or less to Other Cities. The purpose of this area diversification is to mitigate cash flow risks such as earthquakes, risk of vacancies and so forth.

The following table sets forth above said area diversification strategy.

| Area and Allocation Ratio  | Area Analysis   |
|--|---|
| <b>Tokyo CBDs</b><br>9 central wards in Tokyo:<br>Chiyoda, Minato, Chuo, Shinjuku,<br>Shinagawa, Shibuya, Toshima,<br>Bunkyo and Meguro  | <ul> <li>Relatively high rent levels and low vacancy rates compared to Other Cities; also, relatively large market scale (both leasing and purchase/sale) with high growth rates.</li> <li>Relatively low yearly NOI yields. Relatively high liquidity at the time of sales.</li> </ul> |
| Other Greater Tokyo<br>Other 14 wards in Tokyo and<br>neighboring cities (see Note 1<br>below) such as Musashino,<br>Tachikawa, Yokohama, Kawasaki,<br>Chiba, Kashiwa, Saitama, etc. | <ul> <li>Basic special characteristics are between<br/>those of Tokyo CBDs and Other Cities.</li> </ul>   |

Total of above two areas: 70% or more

| Other Cities   | <ul> <li>Rent levels relatively low and vacancy rates</li></ul>   |
|--|---|
| Principal regional cities such as  | relatively high compared to Tokyo CBDs.   |
| Sapporo, Sendai, Niigata,  | <ul> <li>Also, scale of market is relatively small and</li></ul>  |
| Shizuoka, Hamamatsu, Nagoya,   | growth rates relatively low.  |
| Kyoto, Osaka, Kobe, Okayama,<br>Hiroshima, Takamatsu, Fukuoka,<br>Kumamoto, etc. | <ul> <li>Relatively high yearly NOI yields. Relatively<br/>low liquidity at the time of sales.</li> </ul> |

#### Total of above area: 30% or less

- Notes: 1. "Neighboring cities" refers to the metropolis of Tokyo excluding its 23 wards, and the 6 prefectures of Kanagawa, Chiba, Saitama, Ibaraki, Gunma and Tochigi.
  - 2. Due to unforeseeable events such as, extreme fluctuations in macro-economic trends, financial trends, real estate market trends and so forth, it may not always be possible to operate in accordance with each of the above criteria ("Investment Objectives and Policies," Articles of Incorporation).

#### (2) Acquisition Strategy

#### **Ratio of Real Estate Assets**

NBF will maintain ratios of 75% or more with respect to the "Designated Real Estate Ratio." As of June 30, 2008, NBF satisfied the criteria.

- The "Designated Real Estate Ratio" means the ratio of the total amount of Designated Real Estate to the total amount of Designated Assets owned by NBF.
- Note: Designated Real Estate includes real estate, real estate leasehold rights, superficies and beneficiary certificates backed by real estate, land leasehold rights and superficies (as designated under Article 83.4.3.1 of the Special Taxation Measures Law of Japan).

#### **Due Diligence**

When investing in office properties, selections will be made through comprehensive research and analysis based on the forecast investment yields resulting from their acquisition costs and their anticipated profits, future prospects and stability of the area of location, availability of measures responding to risks of deterioration and obsolescence, insurability and so forth. The details of the relevant criteria are set forth in the following table ("Investment Objectives and Policies," Articles of Incorporation).

Though such consideration will involve the study of the criteria included in the following table, it is possible that when NBF acquires or intends to acquire operating assets, not all of the following criteria will be satisfied.

| Item   | Points to be reviewed  |
|--|--|
| Scale of building                                  | <ul> <li>Net rentable area, including net rentable area<br/>of entire building and standard net rentable<br/>area per floor. Desired total net rentable area<br/>is 1,650m<sup>2</sup> (approximately 500 <i>tsubo</i>) or<br/>more. Standard net rentable area per floor is<br/>330m<sup>2</sup> (approximately 100 <i>tsubo</i>) or more.</li> </ul>   |
| Construction type and specifications of facilities | <ul> <li>Building design and floor plan suitable for<br/>leasing, with divisibility, adequate ceiling<br/>height, electrical service, HVAC equipment,<br/>etc.</li> </ul>  |
| Earthquake resistance                              | <ul> <li>Ensure that construction quality exceeds<br/>earthquake standards (meaning those required<br/>pursuant to the Building Standards Law as<br/>amended in 1981) or standards equivalent<br/>thereto.</li> </ul>  |
| Measures regarding<br>status of legal title        | <ul> <li>In cases such as co-ownership, divided<br/>condominium ownership, a building erected<br/>on leased land, etc. where NBF will not<br/>obtain complete ownership of a building, the<br/>following matters are appropriately treated.</li> <li>measures to protect security deposits, poli-<br/>cies and measures regarding cash reserves<br/>for long-term renovation plans.</li> </ul> |
|  | <ul> <li>appropriate measures regarding demands for<br/>division of co-owned interests or the sale of<br/>a co-owner's interest, etc.</li> </ul>   |
| Tenancy characteristics                            | • Acceptable creditworthiness of tenants, purposes of use by tenants, configuration, and condition of collectibility of rents, etc.  |
| Environmental;<br>condition of land, etc.          | <ul> <li>Absence of harmful substances such as<br/>asbestos, (or countermeasures can be imple-<br/>mented for any such substances), non-exis-<br/>tence of soil pollution, etc.</li> </ul>   |

#### **Uncompleted or Unleasable Properties**

In principle, NBF acquires Real Estate, etc. which are leased/leasable assets at the time of closing. NBF may acquire a property which is not yet leasable at the time of closing based on consideration of the impact on NBF's asset management activities after taking into account the investment amount, the date of completion or of becoming leasable, estimated revenue and so forth: provided, however, that the contract amount of any such unleasable asset combined with the total contract amount of previously acquired unleasable assets (but excluding unleasable assets which thereafter become operational) will not exceed 10% of the total assets indicated on the most recent balance sheet of NBF. For this purpose, "leased/leasable assets" shall mean property with respect to which the construction of the building has been completed and such building is leased or leasable. Properties which are owned by NBF and have become operational at some point shall be deemed "leasable" thereafter (including such cases as reconstruction or largescale renovation of a building).

#### (3) Management and Disposition Policies

Regarding acquired operating properties, the goal is to obtain steady growth of operating profits on a mid-term to long-term basis by planning to maintain and improve asset value and competitive ability through investment in facilities and by expanding income (increasing rents, etc., increasing occupancy rates, extending the term of leases and rendering them more stable, etc.) and reducing property-related expenses.

NBF will, in principle, for the purpose of assuring stable income on a mid-term to long-term basis, lease out all operating properties included in operating assets (including installation of parking lots, billboards, etc.). When conducting such leasing, security deposits, etc. and other similar monies may be received and said monies will be managed in accordance with the requirements of "Investment Objectives and Policies," Articles of Incorporation).

NBF is entitled to establish reserves for long-term renovations required to maintain and enhance the value of operating properties, reserves for payables, reserves for cash distributions and any other similar reserves, etc. (Articles of Incorporation).

#### **Reserves for Long-Term Renovations**

From the reserves set forth above, a portion corresponding to renovations, repairs and tenant improvements will be determined based on renovation plans for each building. As of June 30, 2008, foreseen reserves provided from January to December 2008 are as follows:

| Item  | Reason  |
|---|---|
| Reserves for<br>long-term renovations   | <ul> <li>Average annual amount over an approxi-<br/>mately 10-year period based on engineering<br/>reports</li> </ul>                                       |
| Reserves for tenant improve-<br>ments (reserves for future<br>construction expenses required<br>for spaces leased to tenants) | <ul> <li>Expenses of providing "free access floor" (or<br/>raised floor); expenses for other move-in con-<br/>struction costs (partitions, etc.)</li> </ul> |

#### Total Foreseen Amount: (annual basis) ¥3,079 million

- Notes: 1. In addition to the above-mentioned amount, certain amounts are set aside as cash reserves for renovation pursuant to the administrative rules of the buildings in which NBF owns condominium interests, etc.
  - The amount of reserves set forth above is the total amount of reserves with respect to the 58 properties owned by NBF as of June 30, 2008.

#### Measures to Avoid Reductions and Fluctuations in Operating Income

In order to avoid large-scale reductions and fluctuations in operating income due to fire damage, withdrawal of tenants and so forth, efforts, such as area diversification and obtaining adequate fire and casualty insurances, etc., will be exerted.

#### Appraisal Value, etc.

In the event that valuation of real estate, land leasehold rights and superficies (including beneficiary certificates, securities and *tokumei-kumiai* ownership interests, and other asset-backed instruments) is undertaken for the purpose of disclosure in Performance Information Reports, etc., the value to be used for disclosure will, in principle, be the appraisal valuation provided by a certified real estate appraiser (Articles of Incorporation).

The appraisal value of property with respect to the period commencing on the acquisition thereof and ending on the date of disclosure of such value with respect to the next following closure of NBF's accounting term shall be the acquisition price of the said property (excluding miscellaneous acquisition costs, fixed assets tax, city-planning tax and consumption tax) as stated in the sale and purchase contract, etc. for the said property.

#### Disposition

In disposing of individual operating properties, selections will be made through comprehensive research and analysis based on the forecasted income, actual and predicted fluctuations in asset value, future prospects and stability of the area of location, risks of deterioration and obsolescence of real estate and predicted costs thereof as well as the composition of the portfolio, etc. Sell/hold studies will be periodically undertaken with respect to all operating properties ("Investment Objectives and Policies," Articles of Incorporation).

#### (4) Financial Policies

#### **Issuance of Shares**

NBF may issue shares in order to undertake acquisition and renovation and so forth of assets and to provide allowance for funds required for working capital as well as for the repayment of debt (including security deposits, borrowings and repayment of obligations regarding NBF bonds, etc.)

#### **Debt Financing**

NBF may raise capital (including use of the call loan market) and issue bonds in order to undertake acquisition and renovation and so forth of assets and to provide allowance for funds required for working capital as well as for the repayment of debt (including security deposits, borrowings and repayment of obligations regarding NBF bonds, etc.) ("Investment Objectives and Policies," Articles of Incorporation).

Borrowings are limited to those from Qualified Institutional Investors as specified in Article 2.3.1 of the Securities and Exchange Law of Japan, in case capital is borrowed. Further, the total limit on all such borrowings and issues of NBF bonds will be ¥1,000,000 million. When undertaking borrowings or when issuing NBF bonds, NBF may provide operating assets as collateral (Articles of Incorporation).

#### Loan-to-Value Ratio

The ratio of the total amount of borrowings, issues of NBF bonds and lease deposits under management to the total amount of assets of NBF (Loan-to-Value ratio) is envisioned to be limited to 60%, but may temporarily exceed 60% when acquiring certain assets, etc. (Long- and midterm operating asset management policy and annual management plan established by the Asset Management Company).

#### Derivatives

In order to avoid risks of fluctuation in the prices of operating assets as well as risks of fluctuations in interest rates, futures transactions, option transactions, swap transactions and forward rate transactions with respect to Japanese interest rates may be undertaken ("Investment Objectives and Policies," Articles of Incorporation).

# Distribution Policies of NBF

#### A. Distributions of Profits

A registered investment corporation may deduct its cash dividends of profits from taxable income under Japanese tax regulations if it distributes to its shareholders in excess of 90% of its taxable income and complies with other organizational and operational requirements. NBF intends to make dividend distributions that ensure that NBF satisfies those requirements.

NBF will, in principle, effect distributions in accordance with the following policies (Articles of Incorporation).

#### Earnings Available for Distributions

NBF's earnings available for distributions are based on accounting of profits prepared in accordance with the Investment Trust Law and the Securities and Exchange Law of Japan and in conformity with generally accepted accounting principles in Japan.

The distributable amount which results from operation of managed assets of NBF (hereinafter, "Distributable Amount") shall be the amount of profit (the amount of net assets on the balance sheet less the amount of total expenses, capital surplus reserves and estimated or equivalent variances) calculated on each closing date in accordance with the Investment Trust Law of Japan and corporate accounting principles generally deemed to be fair and appropriate.

#### Cash Distribution of Profits

The amount of cash distributions will be determined by NBF, such amount being in excess of 90% of taxable income available for dividends of NBF set forth in Article 67-15 of the Special Taxation Measures Law of Japan (hereinafter "Taxable Income Available for Dividends"); provided, however, that the maximum amount of distributions will be the Distributable Amount. NBF has the right to allow for long-term reserve for repair, reserve for outstanding claims, reserve for distributions and other reserves and allowances similar thereto which are deemed necessary for maintenance or appreciation of the assets of NBF.

#### B. Distribution in Excess of Earnings

A registered investment corporation is allowed to distribute cash to its shareholders in excess of retained earnings under the Investment Trust Law of Japan, although the Investment Trusts Association of Japan has established rules such that a corporate-style J-REIT may pay out the excess of retained earnings for the period up to a maximum of 60% of depreciation for the period. NBF is entitled to make cash distributions of the amounts described below in excess of the Distributable Earnings in the following cases; provided, however, that the maximum amount of such distributions will be the amount set forth in the rules of the Investment Trusts Association of Japan (Article 14.2 of the Articles of Incorporation).

- Amount determined by NBF as being eligible for the requirements of the Special Taxation Treatment for Investment Corporations, in case of the Distributable Earnings being less than the Taxable Income Available for Dividends
- Amount determined by NBF not in excess of the amount of depreciation for the current term less the amount of appropriate reserves for the current term, if NBF determines it appropriate considering trends in macro economic environments, real estate markets and leasing markets

# NBF's Current Policy on Distributions in Excess of Profits

As for cash distributions in excess of profits, as long as the current Japanese taxation treatment applicable to NBF's shareholders in Japan to whom such distributions are paid requires them to calculate capital gain or loss at the time of each distribution, NBF will not make distributions in excess of profits.

Notwithstanding the above, NBF may make distributions in excess of profits in accordance with the distribution policies stated above in order to meet "Requirement for Deduction from taxable income of Dividends of Profit, etc.," and if such distributions in excess of profits are deemed necessary by the Board of Directors of NBF.

#### C. Method of Distributions

Distributions will be made in cash, in principle, within three months from the closing date, to such shareholders or registered pledgees as are listed or recorded in the latest Shareholder Registry as of the closing date, in proportion to the number of shares owned by them (Articles of Incorporation).

#### D. Prescription for Cash Distributions, etc.

NBF will be discharged from the obligation to pay distributions of profits three calendar years from the date of commencing payment. Interest will not accrue on unpaid distributions (Articles of Incorporation).

# Distribution Policies of NBF

The Investment Objectives of NBF specified in the Articles of Incorporation are as follows.

A. Principal Investment Objectives among Designated Assets

NBF will principally invest in the below-listed Designated Assets with the objective of assuring steady growth and stable profits from the Managed Assets.

- (1) Real estate, real estate leasehold interests and superficies.
- (2) Beneficiary Certificates backed by real estate, land leasehold rights and superficies, including inclusive trusts consisting of funds appurtenant to real estate.
- (3) Tokumei-kumiai ownership interests (provided, however, that this is limited to those the assets of which are primarily invested and Managed Assets principally referred to in paragraphs (1) and (2) above).
- (4) Preferred Investment Certificates of Special Purpose Companies (meaning those specified in Article 2.1.5.3 of the Securities and Exchange Law of Japan; provided, however, that this is limited to those the assets of which are primarily invested and Managed Assets principally referred to in paragraphs (1) and (2) above).
- (5) Special Purpose Beneficiary Certificates (meaning those specified in Article 2.1.7.4 of the Securities and Exchange Law of Japan; provided, however, that this is limited to those the assets of which are primarily invested and Managed Assets principally referred to in paragraphs (1) and (2) above).
- (6) Beneficiary Certificates of investment trusts (meaning those specified in Article 2.1.7 of the Securities and Exchange Law of Japan; provided, however, that this is limited to those the assets of which are primarily invested and Managed Assets principally referred to in paragraphs (1) and (2) above).
- (7) Investment Securities (meaning those specified in Article 2.1.7.2 of the Securities and Exchange Law of Japan; provided, however, that this is limited to those the assets of which are primarily invested and Managed Assets principally referred to in paragraphs (1) and (2) above).

- (8) Beneficiary Certificates of Money Trust (limited to those the trust assets of which are primarily invested and Managed Assets referred to in paragraph (1) or (3) above; provided, however, that those that are deemed securities are excluded).
- B. Other Investment Objectives among Designated Assets

NBF may, in the course of efficiently managing funds or in other cases as necessary, invest in the following Designated Assets.

- (1) Bank deposits
- (2) Call loans
- (3) Japanese Government Bonds, Notes and Bills
- (4) Regional Treasury Bonds, Notes and Bills
- (5) Commercial Paper
- (6) Designated Bonds of Special Purpose Companies (meaning those specified in Article 2.1.3.2 of the Securities and Exchange Law of Japan; provided, however, that this is limited to asset-backed securities principally referred to in paragraphs (1) and (2) of section (A) above).
- (7) Monetary Claims (limited to those claims that are deemed Designated Assets under the Investment Trust Law of Japan other than those referred to above).
- (8) Securities (other than those listed above or in section (A)).
- (9) Rights to financial futures transactions (limited to those deemed Designated Assets under the Investment Trust Law of Japan).
- (10) Rights to financial derivative transactions (limited to those deemed Designated Assets under the Investment Trust Law of Japan).
- (11) Moreover, in order to avoid risks of fluctuation in the prices of the Managed Assets as well as risks of fluctuations in interest rates, futures transactions, option transactions, swap transactions and forward rate transactions with respect to Japanese interest rates may be undertaken. In addition, NBF may acquire shares of stock in real estate management companies, etc. to the extent that such acquisition is incidental to NBF's investment in the principal Designated Assets.
- (12) Beneficiary Certificates of trusts for securities of monetary claims

#### C. Assets Other than Designated Assets

NBF may, in the course of efficiently managing funds or in other cases as necessary, invest in the following assets.

- (1) Certificates of deposit issued by Japanese legal entities
- (2) Equity interests of partnerships defined under Article 667 of the Civil Code (limited to such partnerships established by contribution of real estate, real estate leasehold rights and superficies for the purpose of leasing, operating or managing, etc., of the same; hereafter, "Voluntary Partnership Equity Interests")
- (3) Trademark rights
- (4) Copyrights
- (5) Chattels defined under the Civil Code (hereafter, "Chattels")

#### D. Investment in Ordinary Securities

NBF does not, in principle, have the objective of investing in and managing assets which are securities, except for those described in A. above.

# Investment Restrictions

A. The investment restrictions specified in the Articles of Incorporation and the asset management guidelines applicable to NBF. Please also refer to "Investment Policies of NBF, B. Investment Strategy" herein.

#### **Investment Location and Currencies**

NBF will invest neither in real estate located outside of Japan nor in assets denominated in non-Japanese currencies ("Investment Objectives and Policies," Articles of Incorporation).

#### Borrowing

See "Investment Policies of NBF, B. Investment Strategy, (4) Financial Policies."

#### **Concentration of Investment**

There is no limitation on concentration of investment. See "Investment Policies of NBF, B. Investment Strategy, (1) Strategy for Creation of the Portfolio."

#### **Investment in Other Funds**

See "Investment Objectives, A. Principal Investment Objectives among Designated Assets."

The real estate held by such funds may not include any real estate located outside of Japan (Articles of Incorporation).

#### Subscription and Margin Trading of Securities

NBF may not subscribe to, or conduct margin trading of, securities.

#### Compliance with Laws and Regulations

The Managed Assets of NBF will be managed in compliance with Investment Trust Law of Japan and related regulations, the rules stipulated by the Investment Trusts Association (as amended), as well as "Investment Objectives and Policies" of the Articles of Incorporation.

# B. Compliance with the Investment Trust Law of Japan

While a registered investment corporation must entrust business related to asset management to an asset management company, an asset management company is prohibited from performing certain acts related to the business of managing the assets of said investment corporation. As a result, an investment corporation is subject to certain investment restrictions (all references in parentheses below are to the provisions of the Investment Trust Law of Japan) besides restrictions applied to a registered investment corporation. NBF will naturally comply with such investment restrictions, a general overview of which follows.

# Reciprocal Transactions with Investment Corporations (§ 34.3.1.5)

Transactions between investment corporations, the assets of which are managed by an asset management company, are prohibited except for certain cases specified in the provisions of the government ordinance regarding the Investment Trust Law of Japan that are considered unlikely to result in failure to protect the interests of shareholders.

# Transactions by an Investment Corporation with Investment Trust Assets (§ 15.1.3)

Transactions by an investment corporation with investment trust assets subject to asset management are prohibited except for certain cases specified in the provisions of the government ordinance regarding the Investment Trust Law of Japan that are considered unlikely to result in failure to protect the interests of shareholders.

# Transactions for the Benefit of Third Parties (§ 34.3.1.6)

An asset management company may not undertake transactions in certain securities based on fluctuations in the price, index, value, or amount of consideration related to transactions in the assets of an investment corporation, without a legally valid reason, with the objective of benefiting a third party other than NBF or said investment.

# Transactions Harmful to the Interests of NBF (§ 34.3.1.7)

An asset management company may not undertake transactions that are other than upon normal terms and conditions for such transactions, and further, such transactions upon said conditions would be harmful to the interests of the investment.

# Other Transactions Specified in the Government Ordinance regarding the Investment Trust Law of Japan (§ 34.3.1.8)

In the addition to the foregoing, those acts specified in the government ordinance regarding the Investment Trust Law of Japan being certain acts committed by an asset management company that would result in failure to protect the interests of shareholders, damage the fairness of the management of the assets of NBF, and pose a risk of damaging the good public reputation of NBF are prohibited.

# Limitation on Acquisition of the Same Issue of Shares (§ 194)

A registered investment corporation may not acquire the same shares issued by a corporation in excess of 50/100 of total number of said issued and outstanding shares.

# Restriction on Acquisition of Own Shares and Acceptance of Pledge (§ 80.1)

An investment corporation may not acquire shares issued by itself, or accept them for the purpose of pledge, unless it acquires shares issued by itself in the following cases:

- when acquired as the result of merger;
- · if necessary for attaining the purpose of exercising its rights; or
- when purchasing shares pursuant to the provisions of the Investment Trust Law of Japan.

# Restriction on Acquisition of Parent Corporation's Shares by Subsidiary Corporation (§ 81.1)

An investment corporation (e.g. subsidiary), a majority of the shares of which is owned by another investment corporation (e.g. parent), may not acquire the shares of such parent investment corporation except in the following cases:

- · when acquired as the result of merger; or
- if necessary for attaining the purpose of exercising its rights.

# Restrictions of Transactions with Interested Parties

#### (1) Restriction on an asset management company (§ 34.3)

In accordance with the provisions of laws and regulations, an asset management company is prohibited from committing any of the following acts in connection with transactions with an Interested Party, etc. "Interested Party, etc." as used herein means a person who holds a majority of the shares of an asset management company or otherwise has a close relationship with said asset management company as designated by the government ordinance regarding the Investment Trust Law of Japan.

- a) An investment trust agent, trust company, financial institution engaged in trust business, investment advisor, residential land and building specialist, etc. who is an Interested Party, etc. of an asset management company undertakes a transaction which harms the interests of NBF with the objective of benefiting a customer, etc. specified in the Investment Trust Law of Japan.
- b) Undertaking transactions which harm the interests of an investment corporation with the objective of benefiting an Interested Party, etc. of NBFM.
- c) Undertaking transactions clearly recognized to be unnecessary in light of the management policies for the assets of an investment corporation, the amount of net assets of NBF, or market conditions, with the purpose of benefiting a securities company, registered financial institution, residential land and building specialist or other person specified in the government ordinance regarding the Investment Trust Law of Japan who is an Interested Party, etc. of an asset management company.
- d) In the event that a securities company, who is an Interested Party, etc. of an asset management company, acts as an underwriter in a securities transaction, undertaking transactions with the objective of fraudulently manipulating the market for the purpose of having an influence upon the conditions of the primary offer or secondary distribution of said securities not reflecting correct market pricing.

- e) In the event that an issuer, securities company or registered financial institution, who is an Interested Party, etc. of an asset management company, undertakes a primary offer or secondary distribution of securities or participates in handling a primary offer, private offering, or secondary distribution at a time when the subscription amount of said acquisition or the amount of purchase offer of securities to said issuer, securities company or registered financial institution is not foreseen to reach that otherwise expected by said issuer, securities company or registered financial institution, acquiring or purchasing said securities with assets of NBF at the request of said issuer, securities company or registered financial institution.
- f) In the event that a specified real estate syndicate, who is an Interested Party, etc. of an asset management company, makes a solicitation in connection with the execution of a specified real estate syndication agreement at a time when the contract amount of said specified real estate syndication agreement is not foreseen to reach that otherwise expected by said specified real estate syndicate, acquiring a *tokumei kumiai* interest pursuant to said specified real estate syndication agreement with assets of NBF at the request of said specified real estate syndicate.
- g) In the event that the manager of a *tokumei kumiai*, who is an Interested Party, etc. of an asset management company, makes a solicitation in connection with the execution of a *tokumei kumiai* agreement at a time when the total investment amount otherwise obtained pursuant to said *tokumei kumiai* agreement is not foreseen to reach that expected by the manager of said *tokumei kumiai*, acquiring a *tokumei kumiai* interest pursuant to said *tokumei kumiai* agreement with assets of NBF at the request of the manager of said *tokumei kumiai*.
- h) In the event that a trust company, who is an Interested Party, etc. of an asset management company, makes a solicitation in connection with the execution of a trust agreement at a time when the amount of trust assets otherwise obtained pursuant to said trust agreement is not foreseen to reach that expected by said trustee, acquiring a beneficiary certificate pursuant to said trust with assets of NBF at the request of said trustee.

i) In the event that a distributor of trust beneficiary interests, who is an Interested Party, etc. of an asset management company, distributes, or acts as an agency or intermediary of distribution of, trust beneficiary interests at a time when the total amount of purchase offer of said trust beneficiary interests to said distributor of trust beneficiary interests is not foreseen to reach that otherwise expected by said distributor of trust beneficiary interests, purchasing said trust beneficiary interests with assets of NBF at the request of said distributor of trust beneficiary interests.

# (2) Submission of written notice when conflict of interest is anticipated

Submission of Written Notice When Conflict of Interest is Anticipated (§ 34.6.2-4 of the Investment Trust Law)

An asset management company must, in the event that any sale or purchase of, or any other transaction set forth under the government ordinance regarding the Investment Trust Law with respect to, the Designated Assets (excluding the specified assets set forth under the Investment Trust Law and such assets as are set forth under the enforcement regulations of the Investment Trust Law, the same to apply hereinafter in this paragraph) is conducted between an investment corporation the assets of which are managed by said asset management company on one hand, and said asset management company, its director or executive officer, any other investment corporation, investment fund which directs management, Interested Party, etc. or other person set forth under the government ordinance regarding the Investment Trust Law on the other, submit written notice, in accordance with the enforcement regulations of the Investment Trust Law, to said investment corporation, other investment corporations (which invest in the same kind of assets as the said Designated Assets) the assets of which are managed by said asset management company and other persons set forth under the government ordinance regarding the Investment Trust Law specifying the matters relating to such transaction; provided, however, that in lieu of such submission of written notice, said asset management company may, in accordance with the government ordinance regarding the Investment Trust Law, provide the matters to be specified in such written notice by such methods as using electronic information processing systems or other telecommunication technology which are set forth under

the enforcement regulations of the Investment Trust Law with the consent of said investment corporation the assets of which are managed by said asset management company, other investment corporations (which invest in the same kind of assets as the said Designated Assets) the assets of which are managed by said asset management company and other persons set forth under the government ordinance regarding the Investment Trust Law.

#### (3) Restriction on an investment corporation

#### Restrictions on Asset Management (§ 195)

A registered investment corporation must not, in principle, acquire or sell securities, lend or borrow securities, acquire or sell real estate, lease real estate or entrust the supervision of real estate (provided, however, that, it is acceptable to cause NBFM to act as an agent or broker concerning the purchase or leasing of residential building lots or buildings) or otherwise engage in transactions concerning Designated Assets other than the preparation of residential building lots and design of buildings, with its executive directors or supervisory directors, asset management companies who perform asset management, close relatives of executive directors or supervisory directors, or persons or employees who perform duties similar to directors or auditors of an asset management company who perform asset management.
