#### \* Special Consideration

The forward-looking statements concerning performance results in these materials are based on information currently available to us and certain assumptions which we believe are reasonable. Actual operating performance may differ substantially due to various factors. Furthermore, these forecasts are not intended to guarantee the amount of cash distribution.

### ***NBF Portfolio Profile:***

As of June 30, 2022, NBF owned or had beneficiary interests in 73 office properties with an aggregated acquisition value ¥1.4516 trillion and 1,237,167 rentable square meters of office space respectively. Within this period, NBF leased office space to 1,601 tenants (including sub leases). The occupancy rate as of the end of the period was 96.6% (including sub leases), an increase of 0.2% compared with the previous period.

### ***Performance Results:***

NBF has conducted asset management in accordance with its basic policy of “aim to achieve steady growth of assets under management and secure stable profits on a mid- to long-term basis.”

Even under this challenging environment, NBF enhanced its portfolio by acquiring "Nakanoshima Mitsui Bldg" (real property; acquisition price: 44.0 billion yen) and "IIDABASHI GRAND BLOOM" (real property; acquisition price: 36.1 billion yen (additional acquisition)), in March 2022, and disposed "Sun Mullion NBF Tower" (trust beneficiary interest, disposition price: 14.4 billion yen), in January 2022.

Regarding the existing portfolio, NBF executes market-appropriate, flexible, and timely leasing activities carefully factoring in market trends in order to maximize the level of occupancy rates, which is still in an adjustment phase. With existing tenants, NBF strives to retain and improve rent levels, prevent cancellations based on the fundamental policy of maintaining favorable relationships and enhancing tenant satisfaction. As a result of these activities, occupancy rates and rental revenues remain stable. In addition, NBF's pursuit to enhance competitiveness of its properties by implementing continuous cost reduction measures through timely renovations will continue.

Furthermore, in order to promote ESG initiatives, a dedicated department has been newly established at the asset management company. Therein, new numerical targets have been set to reduce environmental footprint and promoting initiatives to achieve these goals.

### ***Financing:***

NBF has conducted its financial management in a conservative manner with the targeted interest-bearing debt to value ratio (ratio of interest-bearing debt to total value, hereinafter the LTV) being between 36% and 46%, with 56% set as the maximum.

During the fiscal period under review, NBF issued 48,491 new investment units (47,500 units through public offering (January 2022) and 991 units through third-party allotment (January 2022)) and procured ¥31.00 billion (¥30.36 billion through public offering (January 2022) and ¥0.63 billion through third-party allotment (January 2022)). NBF used the funds procured through the issuance of the new investment units as part of the funds for the acquisition of "Nakanoshima Mitsui Bldg" and "IIDABASHI GRAND BLOOM" (additional acquisition) acquired in this period. The number of investment units issued and outstanding at the end of the period under review was 1,700,991, and the total investment amount was ¥673.04 billion.

As of the end of the period under review, NBF's LTV was 42.0% and its long-term fixed interest-bearing debt ratio (ratio of “long-term fixed interest-bearing debt” procured at fixed rates with repayment/redemption periods of over one year as of the time of loan agreement/issuance of bonds each such time representing the actual procurement of funds to “total interest-bearing debt”; hereinafter the same) was 91.3%.

The status of interest-bearing debt as of the end of the previous period and period under review is as follows.

(Values are million yen)

	Balance as of the end of the previous period	Balance as of the end of the period under review	Increase/decrease
Short-term borrowings	-	14,000	14,000
Long-term borrowings (Floating interest rate)	27,000	36,000	9,000
Long-term borrowings (Fixed interest rate)	466,500	467,500	1,000
Investment Corporation Bonds	57,000	57,000	-
Total interest-bearing debt	550,500	574,500	24,000

NBF also established long-term commitment credit lines with financial institutions in order to stabilize its fund-raising capacity reducing refinancing risks.

### **Credit Ratings:**

NBF was awarded the following issuer credit ratings as a J-REIT (opinions of the respective credit rating agencies on NBF's creditability).

<b>Credit Rating Agency</b>	<b>Rating Summary</b>
JCR	Issuer Rating: AA+, Outlook: stable
R&I	Issuer Rating: AA, Outlook: stable
Standard & Poor's	Long-term: A+, Short-term: A-1, Outlook: stable

### ***Overview of Performance and Distribution:***

As the result of above operations, NBF's performance results during the period under review consisted of operating revenues of ¥52,215 million (an increase of ¥1,880 million, or 3.7%, compared with the previous period), operating income from leasing activities of ¥22,027 million (an decrease of ¥410 million, or 1.8%, compared with the previous period), operating income after asset management, custody and agent fees, etc. of ¥26,806 million (an increase of ¥3,802 million, or 16.5% compared with the previous period), ordinary income of ¥25,440 million (an increase of ¥3,712 million, or 17.1%, compared with the previous period), and net income of ¥25,439 million (an increase of ¥3,712 million, or 17.1%, compared with the previous period). In accordance with the distribution policy prescribed in its Articles of Incorporation, NBF decided to distribute ¥22,922 million, the entire amount arrived at by deducting provision of reserve for advanced depreciation (¥2,517 million) from the sum of retained earnings (¥25,439 million), so that it will be able to deduct the maximum amount of cash distribution of profit from its taxable income through the application of preferential tax measures to investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation). As a result, the distribution per unit was ¥13,476 (an increase of ¥1,628, or 13.7% compared with the previous period).

### ***NBF's Management Policy and Issues to Be Dealt with for the Future:***

The Japanese economy is expected to maintain a recovery trend and resume socioeconomic activities, based on increase of personal consumption, due to policies such as support for regional tourism, gradual easing of the acceptance of inbound tourism, carefully taking precautionary measures against COVID-19.

However, the impact of the increase in the number of people infected with the COVID-19 will require further careful monitoring. In addition, unstable conditions are expected to persist, such as soaring natural resource and energy prices coupled with stagnation of supply chains due to the prolonged situation in Ukraine and the suppression of economic activities in China. Additional rise of interest rates due to monetary tightening and increasing prices due to the weak Yen will become downside risks to the economy.

In the office building rental market, despite positive trends such as relocations and expansion plans due to changes in work styles, the adjustment phase of occupancy rates and asking rents is expected to continue due to the anticipation of a large supply of new office buildings in 2023, therefore NBF will conduct asset management, paying close attention to the trend of vacancy rates.

In the office building trading market, the demand to acquire properties by foreign and domestic investors, remains high. Information on sales of prime properties is limited, making acquisition opportunities challenging.

NBF, in recognition of the importance of ESG for carrying out real estate investment and management activities, strives to achieve asset management activities giving consideration to reduction of environmental footprint, improving security, safety, comfort, diversified collaboration and cooperation with various stakeholders, in line with "The Group Environmental Policy" and "Policy for Social Contribution Initiatives" established by the Mitsui Fudosan Group.

### **(a) Investment Policies for Acquisition**

Fierce competition to acquire quality assets remain yet increasing interest rates both domestic and international casts concern over the economy. With this in mind, NBF will focus its attention to acquire properties that contribute to the entire portfolio in the mid-to-long term, which will to further enhance its portfolio.

NBF will also make prudent investment decisions, taking into full consideration the status of its financial management as well as keeping an eye on changes in economic circumstances and trends in the real estate markets, in addition to the impact of COVID-19 on the financial market.

In addition, NBF will implement asset replacement as needed by taking into consideration growth potential, stability, scale, location and environmental performance of each property, while contrasting new acquisitions/dispositions with the composition of the entire portfolio.

### **(b) Management Policies for Existing Properties**

NBF intends to continuously increase rental revenues by carefully monitoring trends in the office building rental market and responding flexibly to the changes in the environment. NBF will maintain close relationships with its existing tenants for customer satisfaction, in order to maintain and increase rent levels while mitigating lease cancellations. As for capital investments in existing buildings, NBF will undertake appropriate and effective engineering work by upgrading and adding new equipment and improvements on environmental compatibility that contributes to overall building competitiveness in the marketplace

### **(c) Financial Strategies, Etc.**

With respect to fund procurement through debt financing, NBF will continue to focus on traditional, long-term, fixed-interest financing with a view toward long-term asset management and the stability of fund procurement. At the same time, it plans to continue to issue NBF bonds from the viewpoint of maintaining diverse channels for fund procurement while keeping an eye on the financial market. The targeted LTV, being between 36% and 46%, will be maintained for the time being, with 56% as the maximum. NBF will continue to conduct its financial management with the targeted long-term interest-bearing debt ratio for the time being of over 90%. In addition, NBF will conduct IR activities based on its policy to proactively conduct accurate, fair and timely disclosure from the viewpoint of appropriately disclosing information and securing transparency.
